*Revolutionary Contagion and International Politics* Chad E. Nelson, 2022 A unique theory of what happens when leaders fear a revolution abroad will spread to their own country and how that affects international relations When do leaders fear that a revolution elsewhere will spread to their own polities and what are the international effects of this fear In *Revolutionary Contagion* Chad E Nelson develops and tests a theory that explains how states react to ideological driven revolutions that have occurred in other nations To do this he analyzes four key revolutionary movements over two centuries liberalism communism fascism and Islamism He further explains that the key to understanding the response to revolutions lies in focusing on the extent to which leaders fear upheaval in their own countries According to the theory Nelson argues fear of contagion is driven more by the characteristics of the host rather than the activities of the infecting agents In other words leaders will fear revolutionary contagion when they have significant revolutionary opposition movements that have an ideological affinity with the revolutionary state A powerful theory of the profound effects revolutions have on international relations this book shows why one simply cannot make sense of international politics including patterns of alliances and wars in certain situations without considering the fear of contagion

**Containing Balkan Nationalism** Denis Vovchenko, 2016 *Containing Balkan Nationalism* highlights the efforts by ecclesiastics publicists and diplomats in Russia the Ottoman Empire Greece and Bulgaria to develop and implement various plans to reconcile ethnic differences within existing religious and dynastic frameworks Those arrangements were often inspired by modern visions of a political and cultural union of Orthodox Slavs and Greeks

Napoleon and Europe Philip G. Dwyer, 2014-07-22 Two hundred years ago Napoleon was at the apogee of his power in Europe This broad ranging reassessment explores the key themes presented by his extraordinary career from his rise to power and the foundation of the imperial state to the final defeat of his grand vision following the doomed invasion of Russia It was a period of almost uninterrupted war in Europe the consequences of victory or failure repeatedly transforming the political map But Napoleon's impact reached much deeper than this achieving the ultimate destruction of the ancien regime and feudalism in Europe and leaving a political and juridical legacy that persists today

**Selective Remembrances** Philip L. Kohl, Mara Kozelsky, Nachman Ben-Yehuda, 2008-11-15 When political geography changes how do reorganized or newly formed states justify their rule and create a sense of shared history for their people Often the essays in *Selective Remembrances* reveal they turn to archaeology employing the field and its findings to develop nationalistic feelings and forge legitimate distinctive national identities Examining such relatively new or reconfigured nation states as Iran Iraq Turkey Israel Russia Ukraine India and Thailand *Selective Remembrances* shows how

states invoke the remote past to extol the glories of specific peoples or prove claims to ancestral homelands Religion has long played a key role in such efforts and the contributors take care to demonstrate the tendency of many people including archaeologists themselves to view the world through a religious lens which can be exploited by new regimes to suppress objective study of the past and justify contemporary political actions The wide geographic and intellectual range of the essays in *Selective Remembrances* will make it a seminal text for archaeologists and historians

***In the Cause of Humanity*** Fabian Klose, 2021-12-09 *In the Cause of Humanity* is a major new history of the emergence of the theory and practice of humanitarian intervention during the nineteenth century when the question of whether when and how the international community should react to violations of humanitarian norms and humanitarian crises first emerged as a key topic of controversy and debate Fabian Klose investigates the emergence of legal debates on the protection of humanitarian norms by violent means revealing how military intervention under the banner of humanitarianism became closely intertwined with imperial and colonial projects Through case studies including the international fight against the slave trade the military interventions under the banner of humanitarian aid for Christian minorities in the Ottoman Empire and the intervention of the United States in the Cuban War of Independence he shows how the idea of humanitarian intervention established itself as a recognized instrument in international politics and international law

***Transnational Patriotism in the Mediterranean, 1800-1850*** Konstantina Zanou, 2018 *Transnational Patriotism in the Mediterranean* charts the lives of those who lived along the shores of the Adriatic during the first half of the nineteenth century when the region was transformed from a Venetian lake into a battlefield between old and new imperial powers and where emerging nationalisms and nation states emerged

***Writing at Russia's Border*** Katya Hokanson, 2008-01-01 It is often assumed that cultural identity is determined in a country's metropolitan centres Given Russia's long tenure as a geographically and socially diverse empire however there is a certain distillation of peripheral experiences and ideas that contributes just as much to theories of national culture as do urban centred perspectives *Writing at Russia's Border* argues that Russian literature needs to be reexamined in light of the fact that many of its most important nineteenth century texts are peripheral not in significance but in provenance Katya Hokanson makes the case that the fluid and ever changing cultural and linguistic boundaries of Russia's border regions profoundly influenced the nation's literature posing challenges to stereotypical or territorially based conceptions of Russia's imperial military and cultural identity A highly canonical text such as Pushkin's *Eugene Onegin* 1831

which is set in European Russia is no less dependent on the perspectives of those living at the edges of the Russian Empire than is Tolstoy's *The Cossacks* 1863 which is explicitly set on Russia's border and has become central to the Russian canon. Hokanson cites the influence of these and other peripheral texts as proof that Russia's national identity was dependent upon the experiences of people living in the border areas of an expanding empire. Produced at a cultural moment of contrast and exchange, the literature of the periphery represented a negotiation of different views of Russian identity, an ingredient that was ultimately essential even to literature produced in the major cities. *Writing at Russia's Border* upends popular ideas of national cultural production and is a fascinating study of the social implications of nineteenth-century Russian literature.

*Southern Europe in the Age of Revolutions* Maurizio Isabella, 2025-06-17 An examination of revolutions in the Iberian and Italian peninsulas, Sicily and Greece in the 1820s that reveals a popular constitutional culture in the South. After the turbulent years of the Napoleonic Wars and the Congress of Vienna's attempt to guarantee peace and stability across Europe, a new revolutionary movement emerged in the southern peripheries of the continent. In this groundbreaking study, Maurizio Isabella examines the historical moment in the 1820s when a series of simultaneous uprisings took the quest for constitutional government to Portugal, Spain, the Italian peninsula, Sicily, and Greece. Isabella places these events in a broader global revolutionary context and decentering conventional narratives of the origins of political modernity reveals the existence of an original popular constitutional culture in southern Europe. Isabella looks at the role played by secret societies, elections, petitions, protests, and the experience of war, as well as the circulation of information and individuals across seas and borders in politicising new sectors of society. By studying the mobilisation of the army, the clergy, artisans, rural communities, and urban populations in favour of or against the revolutions, he shows that the uprisings in the South, although their ultimate fate was determined by the intervention of more powerful foreign countries, enjoyed considerable popular support in ideologically divided societies and led to the introduction of constitutions. Isabella argues that these movements informed the political life of Portugal and Spain for many decades and helped to forge a long-lasting revolutionary tradition in the Italian peninsula. The liberalism that emerged as a popular political force across southern Europe, he contends, was distinct from French and British varieties.

**Mediterranean Diasporas** Maurizio Isabella, Konstantina Zanou, 2015-11-19 *Mediterranean Diasporas* looks at the relationship between displacement and the circulation of ideas within and from the Mediterranean basin in the long 19th century. In bringing together leading historians working on Southern Europe, the Balkans, and the Ottoman Empire for the first time, it builds bridges across national historiographies, raises a number of comparative questions, and unveils unexplored intellectual connections and ideological formulations. The book shows that in the so-called age of nationalism, the idea of the nation-state was by no means dominant, as displaced intellectuals and migrant communities developed notions of double national affiliations, imperial patriotism, and liberal imperialism. By adopting the Mediterranean as a framework of analysis, the collection offers a fresh contribution to the growing field of transnational and global intellectual history, revising the

genealogy of 19th century nationalism and liberalism and reveals new perspectives on the intellectual dynamics of the age of revolutions
