Bulletin of the Brooklyn Public Library Brooklyn Public Library,1917 War Monuments, Public Patriotism, and Bereavement in Russia, 1905-2015 Aaron J. Cohen,2020-06-23 This study analyzes how public bereavement became cemented into the broad geography of Russian culture with the appearance of experiential and local memorials in the 1960s after a half century of instability contestation and absence The author shows how monument builders responded to a need from the population to share an accessible war experience apart from the exclusive Bolshevik memorial culture He argues that this development of war commemoration has amplified the role of war hero memorialization as an anchor of public stability and social solidarity in Putin s Russia where there is little consensus about the past present or future **Theatre and Identity in Imperial Russia** Catherine Schuler,2009-05 What role did the theatre both institutionally and literally play in Russia s modernization How did the comparatively harmonious relationship that developed among the state the nobility and the theatre in the eighteenth century transform into ideological warfare between the state and the intelligentsia in the nineteenth How were the identities of the Russian people and the Russian soul configured and altered by actors in St Petersburg and Moscow Using the dramatic events of nineteenth century Russian history as a backdrop Catherine Schuler answers these questions by revealing the intricate links among national modernization identity and theatre Schuler draws upon contemporary journals written and published by the educated nobility and the intelligentsia who represented the intellectual aesthetic and cultural groups of the day as well as upon the laws of the Russian empire and upon theatrical memoirs With fascinating detail she spotlights the ideologically charged binaries ascribed to prominent actors authentic
