Vander Velde,1974 Contains an author and subject title indexes for the period 1888 1968 to the three periodicals Journal of the United States Cavalry Cavalry journal and Armor **Paperbound Books in Print** ,1983 *Armor* ,1974 The magazine of mobile warfare [Page's Engineering Weekly](#) ,1915 **In Pursuit of Military Excellence** Shimon Naveh,2013-04-03 This book offers a scientific interpretation of the field of military knowledge situated between strategy and tactics better known as operational art and traces the evolution of operational awareness and its culmination in a full fledged theory The author a Brigadier General ret in the Israeli Defence Forces and Doctor of History King s College London clarifies the substance of operational art and constructs a cognitive framework for its critical analysis

He chronicles the stages in the evolution of operational theory from the emergence of 19th century military thought to Blitzkrieg For the first time the Soviet theories of Deep Operations and Strike Manoeuvre that emerged in the 1920s and 1930 are discussed The author argues that it is these doctrines that eventually led to the crystallization of the American Airland Battle theory successfully implemented in the Gulf War *Creating the Second Cold War* Simon Dalby, 2016-10-06

The Cold War is over yet many attitudes and analyses typical of the period persisted in the strategic thinking of the Great Powers In this brilliantly original study Simon Dalby uses the conceptual tools of geopolitical analysis to uncover the essence of American strategic discourse Focussing on the period of the late 1970s he shows how Washington pressure groups political organisations and in particular the Committee on the Present Danger recreated a language of confrontation that deeply influenced Western attitudes towards the Soviet Union in ways that continue to shape foreign policy Bulletin of the Atomic Scientists ,1970-12 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world Monthly Index of Russian Accessions Library of Congress.
