interesting meditation on the varying identities and rights claimed by residents of borderlands the limits placed on the
capacities of nation states to police their borders and enforce national identities and the persistence of such contact zones in
the past and present It is an extremely well written and engaging study and an absolute pleasure to read Dennis Sweeney
University of Alberta *Changing Places* offers a brilliantly transnational approach to its subject the kind that historians
perennially demand of themselves but almost never accomplish in practice Pieter M Judson Swarthmore College *Changing*
Places is a transnational history of the birth life and death of a modern borderland and of frontier peoples changing
relationships to nations states and territorial belonging The cross border region between Germany and Habsburg Austria and
after 1918 between Germany and Czechoslovakia became an international showcase for modern state building nationalist
agitation and local pragmatism after World War I in the 1930s and again after 1945 Caitlin Murdock uses wide ranging
archival and published sources from Germany and the Czech Republic to tell a truly transnational story of how state regional
and local historical actors created and eventually destroyed a cross border region *Changing Places* demonstrates the
persistence of national fluidity ambiguity and ambivalence in Germany long after unification and even under fascism It shows
how the 1938 Nazi annexation of the Czechoslovak Sudetenland became imaginable to local actors and political leaders alike
At the same time it illustrates that the Czech German nationalist conflict and Hitler s Anschluss are only a small part of the
larger more complex borderland story that continues to shape local identities and international politics today Caitlin E
