Theologies of Power and Crisis Stephen Pavey, 2011-07-01 Theologies of Power and Crisis provides a case study for Eric Wolf's research directive to better comprehend the interplay of cultural webs of meaning and material webs of power forms of social life More specifically the book demonstrates how theological discourse and practice engage with historical and material relations of power It has been normative to speak of power in terms of political and economic processes and theology in terms of interpretive and symbolic experiences This work breaks new ground by linking theological ideas with political economic processes in terms of the structural relations of power Ethnographically this research investigates the theological processes of Hong Kong Chinese Christians during a period of significant social change and crisis precipitated by the return of Hong Kong to China in 1997 It shows how local Christians and Christian institutions mediated the significant regional national and transnational forces of political economic change by connecting theological practice to the structural relations of power The Christian response was a contested process closely intertwined with the broader contested processes of social organization This study develops an understanding of Christianity that goes beyond ecclesiastical hegemony to encompass struggles over human practice meaning and representation in relation to the changing political economic context These findings implicate religious ideas and practice as significant to an understanding of social inequalities and powerlessness by connecting ideologies to material conditions Christian ideas may be used to legitimize an oppressive social

Turner,Hannah Wolf,Gregor Fitzi,Jürgen Mackert,2020-04-07 Urban Change and Citizenship in Times of Crisis addresses the fact that in the beginning of the twenty first century the majority of the world s population is urbanised a social fact that has turned cities more than ever into focal sites of social change Multiple economic and political strategies employed by a variety of individual and collective actors on a number of scales constitute cities as contested spaces that hold opportunities as well as restrictions for their inhabitants While cities and urban spaces have long been of central concern for the social sciences today classical sociological questions about the city acquire new meaning Can cities be spaces of emancipation or does life in the modern city entail a corrosion of citizenship rights Is the city the focus of societal transformation processes or do urban environments lose importance in shaping social reality and economic relationships Furthermore new questions urgently need to be asked What is the impact of different historical phenomena such as neo liberal restructuring financial and economic crises or migration flows as well as their respective counter movements on the structure of contemporary cities and on the citizenship rights of city inhabitants The three volumes address such crucial questions thereby opening up new spaces of debate on both the city and new developments of urbanism The contributions to Theories and Concepts offer new theoretical reflections on the city in a philosophical and historical perspective as well as fresh empirical analyses of social life in urban contexts Chapters not only critically revisit classical and modern philosophical considerations about the nature of cities but no less discuss normative philosophical reflections of urban life and the role of religion in historical processes of the emergence of cities Composed around the question whether there can be such a thing as a successful city this volume addresses issues of urban political subjectivities by considering the city s role in historical processes of emancipation the fight for citizenship rights and today s challenges and opportunities with regard to promoting social justice integration and

diversity Consequentially theory driven empirical analyses offer new insight into ways of solving problems in urban contexts and a genuine approach to analyse the Social Quality in cities

Religious Journeys in India Andrea Marion Pinkney, John Whalen-Bridge, 2018-08-20 Explores how religious travel in India is transforming religious identities and self constructions In an increasingly global world where convenient modes of travel have opened the door to international and intraregional tourism and brought together people from different religious and ethnic communities religious journeying in India has become the site of evolving and often paradoxical forms of self construction Through ethnographic reflections the contributors to this volume explore religious and nonreligious motivations for religious travel in India and show how pilgrimages missionary travel the exportation of cultural art forms and leisure travel among coreligionists are transforming not only religious but also regional national transnational and personal identities The volume engages with central themes in South Asian studies such as gender exile and spirituality a variety of religions including Sikhism Islam Buddhism and Christianity and understudied regions and emerging places of pilgrimage such as Manipur and Maharashtra It's rare to find such diverse accounts of religious travel collected in a single volume where scholars engagements with individual places of pilgrimage in India and with the journeys surrounding them are truly in conversation with one another For readers it makes for a deeply enlightening journey It also raises an interesting question Is the reality of India powerful enough that it absorbs divergent expressions of religious tourism making of them a common fabric Here so unusually readers have the materials to decide John Stratton Hawley author of A Storm of Songs India and the Idea of the Bhakti Movement

Activist Hermeneutics of Liberation and the Bible Jin Young Choi, Gregory L. Cuéllar, 2023-02-08 Inspired by the current political moment around the globe in which uprisings protests revolutions and movements are on the rise this book examines the intersections between the Bible and activism It does this by showcasing intersectional readings of the Bible as an activist act and a tool for activism historicizing the uses of the Bible within activist freedom movements around the globe and offering activist approaches to teaching the Bible Each chapter in this volume provides a critical and substantive response from the discipline of Biblical Studies to global political trends International in scope with contributors

from Africa Asia the Caribbean Europe Latin America Oceania South Africa and the United States they address themes such as gender politics racial injustices violence toward women political resistance and activist hermeneutics and pedagogies Together they harness the intellectual energies of minoritized Biblical scholars in a nonessentialist manner to reflect on the Bible as a tool for liberating social and political change Reflecting on the activist potential of the Bible this book will be of keen interest to scholars in Biblical Studies Political Theology and Religious Studies Sheets of Scattered Sand Justin K.H. Tse,2024-11-15 Justin K H Tse captures the voices of Cantonese Protestant Christians from the San Francisco Vancouver and Hong Kong metropolitan areas as they reflect on their efforts to adapt to secular communities while retaining their identity and beliefs In the context of the transpacific region between Asia and the Americas the Pacific Rim refers to a window of time in which predominant narratives emphasized skilled migration and the rise of multicultural societies the era before the rise of Chinese nationalism in 2012 and the Hong Kong protests Diasporic Cantonese Protestant Christians of this time were frequently portrayed as a homogenous people bringing their Chinese culture and Christian communities from Hong Kong to cities such as Vancouver and San Francisco sometimes contesting liberal developments like same sex marriage but also offering new democratic awareness Sheets of Scattered Sand challenges that depiction of Cantonese Protestants with authentic voices from the community Based on research done in the San Francisco Bay area Vancouver and Hong Kong author Justin K H Tse finds that Cantonese Protestants consider themselves sheets of scattered sand politically disparate and ideologically fragmented but united in a sense of tension with the secular world Tse s work serves as an illuminating prequel to contemporary stories of the Hong Kong protests and a newly emergent Asian American politics underscoring the importance of incorporating these voices in wider reflections on Christianity and secularity Gathered in my Name William T. Cavanaugh,2020-12-28 This volume differs from many quincennial discussions of the Protestant Reformation and ecumenical scholarship more generally in that it shifts the focus from Europe and the West to the global South where ecumenism s promises and challenges are quite different In postcolonial and post missionary Africa the churches continue to expand competition among denominations is lively and Christian rivalry with Islam is often a reality In Latin America Protestants have severely eroded the Catholic Church s hegemony originally forged in the zeal of the Counter Reformation to combat the perceived errors of Luther and Calvin In India the Christian churches are a tiny beleaguered minority facing an increasingly militant Hindu nationalism These essays pay close attention to the different contexts of intra Christian relationships worldwide the actual situation on the ground If ecumenism will succeed it cannot be simply a matter of experts at a conference attempting to agree about doctrines abstracted from the contexts in which they were forged the contexts in which doctrinal disagreements caused ecclesial ruptures or the contexts in which Christians continue to live out our divided existence This volume attempts to be sensitive to the lived experience of divided Christians in whatever part of the world they find themselves *Theological Reflections on the Hong Kong Umbrella Movement* Justin K.H. Tse,Jonathan Y.

Tan,2016-07-14 This book gathers the voices of four local Hong Kong theologians to reflect on the 2014 democracy protests in the city from the perspectives of Catholic social teaching feminist and queer intersectionality Protestant liberation and textual exegesis The volume also includes an extended primer on Hong Kong politics to aid readers as they reflect on the theology underlying the democracy protests September 28 2014 is known as the day that political consciousness in Hong Kong began to shift As police fired eighty seven volleys of tear gas at protesters demanding genuine universal suffrage in Hong Kong the movement termed the Umbrella Movement ignited a polarizing set of debates over civil disobedience government collusion with private interests and democracy The Umbrella Movement was also a theological watershed moment a time for religious reflection This book analyzes the role that religion played in shaping the course of this historic movement

Augustine and Modern Law James Bernard Murphy,2017-07-05 St Augustine and Roman law are the two bridges from Athens and Jerusalem to the world of modern law Augustine s almost eerily modern political realism was based upon his deep appreciation of human evil arising from his insights into the human personality the product of his reflections on his own life and the history of his times These insights have traveled well through the ages and are mirrored in the pages of Aquinas Luther and Calvin Reinhold Niebuhr and Hannah Arendt The articles in this volume describe the life and world of Augustine and the ways in which he conceived both justice and law They also discuss the little recognized Augustinian contributions to the field of modern hermeneutics the discipline which informs the art of legal interpretation Finally they include Augustine s valuable discussion of church state relations the law of just wars and proper role and limits of coercion and the procreative dimensions of marriage The volume also includes an extremely useful definitive bibliography of Augustine and the law and will leave readers with an increased appreciation of the contributions which Augustine has made to the history of jurisprudence No one can read Augustine and these articles on his view of the law without taking away a new view of the law itself

War and Peace Bryan S. Turner,2013-03-01 Reflections on Leo Tolstoy s War and Peace these original essays examine various facets of violence and human efforts to create peace Religion is deeply involved in both processes ones that produce violence and ones that seek to create harmony In the war on terror radical religion is often seen to be a major cause of inter group violence However these essays show a much more complex picture in which religion is often on the receiving end of conflict that has its origin in the actions of the state in response to tensions between majorities and minorities As this volume demonstrates the more public religion becomes the more likely it is to be imbricated in communal strife
