The Enigma of Good and Evil: The Moral Sentiment in Literature Anna-Teresa Tymieniecka,2006-08-27 Striking toward peace and harmony the human being is ceaselessly torn apart in personal social national life by wars feuds inequities and intimate personal conflicts for which there seems to be no respite Does the human condition in interaction with others imply a constant adversity Or is this conflict owing to an interior or external factor of evil governing our attitudes and conduct toward the other person To what criteria should I refer for appreciation judgment direction concerning my attitudes and my actions as they bear on the well being of others At the roots of these questions lies human experience which ought to be appropriately clarified before entering into speculative abstractions of the ethical theories and precepts Literature which in its very gist dwells upon disentangling in multiple perspective the peripeteia of our life experience offers us a unique field of source material for moral and ethical investigations Literature brings preeminently to light the Moral Sentiment which pervades our life with others our existence tout court Being modulated through the course of our experiences the Moral Sentiment sustains the very sense of literature and of personal human life Tymieniecka *Alpha God* Hector A. Garcia,2015-03-10 This book uses evolutionary psychology as a lens to explain religious violence and oppression The author a clinical psychologist examines religious scriptures rituals and canon law highlighting the many ways in which our evolutionary legacy has shaped the development of religion and continues to profoundly influence its expression The book focuses on the image of God as the dominant male in Judaism Christianity and Islam This traditional God concept is seen as a reflection of the dominant ape paradigm so evident in the hierarchical social structures of primates with whom we have a strong genetic connection The author describes the main features of male dominated primate social hierarchies specifically the role of the alpha male as the protector of the group his sexual dominance and use of violence and oppression to attain food females and territory in group altruism vs out group hostility vs them and displays of dominance and submission to establish roles within the social hierarchy The parallels between these features of primate society and human religious rituals and concepts make it clear that religion especially its oppressive and

violent tendencies is rooted in the deep evolutionary past This incisive analysis goes a long way toward explaining the historic and ongoing violence committed in the name of religion **Marisa Mori and the Futurists** Jennifer Griffiths,2023-01-12 This book introduces a compelling new personality to the modernist canon Marisa Mori 1900 1985 who became the only female contributor to The Futurist Cookbook 1932 with her recipe for Italian Breasts in the Sun Providing something more complex than a traditional biographical account Griffiths presents a feminist critique of Mori s art converging on issues of gender culture and history to offer new critical perspectives on Italian modernism If subsequently written out of modernist memory Mori was once at the center of the Futurism movement in Italy yet she worked outside the major European capitals and fluctuated between traditional figurative subjects and abstract experimentation As a result her in between pictures can help to re think the margins of modernism By situating Mori s most significant artworks in the critical context of interwar Fascism and highlighting her artistic contributions before during and after her Futurist decade Griffiths contributes to a growing body of knowledge on the women who participated in the Italian Futurist movement In doing so she explores a woman artist s struggle for modernity among the Italian Futurists in an age of Fascism **Black Elk** Michael F. Steltenkamp,1997-09-01 Portrays the Sioux spiritual leader as a victim of Western subjugation Mom's Everything Book for Sons Becky Freeman,Becky Freeman Johnson,2003 Short practical suggestions offer mothers ideas to build a quality relationship with their eight to 12 year old sons following the pattern set in Luke 2 52 **Mensch** Marvin Zolot,2009 Born in primitive circumstances in a small village in Prussia in the early 20th Century Manfred Swarsensky rose to become the youngest rabbi ever appointed to the Jewish Community in Berlin in 1932 A gifted orator and riveting speaker his fame spread throughout Europe as he spoke out frequently and fervently against the National Socialist Government of Adolf Hitler He was warned to cease and desist his defamation of the Fascist Government of the Nazis but he persisted Predictably he was thrown into a concentration camp where he was subjected to unspeakable horrors He found his way to a small Midwestern college town Madison Wisconsin where he became the founding rabbi of a Reform Congregation He stated I was saved from the ovens to be a messenger from the dead to the living Swarzensky became one of the most important moral and ethical forces in mid America in the second half of the 20th Century Rabbi Swarsensky was a bridge Builder and at the forefront of Judeo Christian dialogue He was called An Apostle to the Gentiles and although thoroughly Jewish The finest Christian in Madison He was involved in the civil rights struggle in the 1960 s a mitigating force in the threatened anarchy surrounding anti Vietnam protests on college campuses that threatened to engulf the entire nation According to Rabbi Swarsensky A Mensch is a complete person both human and humane Rabbi was a Mensch

Dadoyan, 2017-09-08 In the second of a three volume work Seta B Dadoyan explores the Armenian condition from the 970s to the end of the fourteenth century This period marked the gradual loss of semi autonomy on the traditional mainland and the rise of Armenian power of diverging patterns in southeastern Asia Minor north Syria Cilicia and Egypt Dadoyan s premise is that if Armenians and Armenia have always been located in the Middle East and the Islamic world then their history is also a natural part of that region and its peoples She observes that the Armenian experience has been too complicated to be defined by simplistic constructs centered on the idea of a heroic yet victimized nation She notes that a certain politics of historical writing supported by a culture of authority has focused sharply on episodes and in particular on the genocide For her sources Dadoyan has used all available and relevant primary and secondary Armenian sources as well as primary Arab texts and sources This book will stimulate re evaluation of the period and re conceptualizing Armenian and Middle Eastern histories
