Zen and the Art of Subtraction is a three-part masterwork arising from the author's thirty-five year journey to overcome cultural conditioning and achieve the ultimate transformation living on light and oxygen. Ashoka Annamaya Ishaya shares an intimate look into how she discovered tantric and Taoist practices for cultivating immortality and integrated them into her life. She follows up this first-person account with a teaching guide distilling knowledge and practices aimed at readers on their own transformative path toward achieving your immortal jing cycle. Ishaya believes that if a critical mass of humans commit to the process of sustainable immortality, we can affect the evolution of our entire species. Ishaya pursues an illuminating range of questions: Are we as a species destined to be enlightened? Can we apply mindfulness skills to evolve our physiology? How can our health care system better support the maturation of our species? Can we become an immortal species? The treatise concludes with a scholarly overview of noted prophets from varied traditions and times who have taught and fostered transformation of consciousness and sustainability of culture. **A Forest of Ideas** BLAKE PARKER, 2014-08-14

Blake Parker worked on this series of writings in the last year of his life while he lived with a terminal diagnosis of cancer. It is a mixture of poetry, dialogues, book reports, and short essays formed as a sort of shorthand to a number of concepts primarily from sociology and anthropology which he saw as useful if not actually essential for understanding symbolic interpretation and the essence of the therapeutic process within a social and cultural context. He designed the psychoanalytic and therapeutic diagrams to clarify concepts and as teaching aids for art therapy students and therapists. Blake uses a phenomenological understanding of metaphor in order to throw light upon the process of social construction, creativity, and conceptions of mysticism or spirituality. The book includes some of his personal reflections regarding death, dying, creativity, and the meaning of life. The notes are essentially a hermeneutic of mysticism, a moving from the parts to the whole and the whole to the parts. It is a forest of ideas and ramblings in interpretive frameworks that emerged and is presented in a circular spiral. *Will Yoga & Meditation Really Change My Life?* Stephen Cope, 2025-04-08

The Journal of Transpersonal Psychology ,2008 *The Sacred Cauldron* Lionel Corbett,2011 At a time when psychotherapy seems to be a purely secular pursuit with no connection to the sacred The Sacred Cauldron makes the startling claim that for both participants psychotherapeutic work is actually a spiritual discipline in its own right The psyche manifests the sacred and provides the transpersonal field within which the work of therapy is carried out This book demonstrates some of the ways in which a spiritual sensibility can inform the technical aspects of psychotherapy The Sacred Cauldron is truly a book to be read by both therapists and non therapists for it offers a thoughtful intelligent sensitive passage through the spiritual quarrels and complexities of our time and addresses our common summons which is to treat the life of the spirit with the respect the gravity and the centrality it deserves This book is instructive to all for Corbett not only marshals a wealth of scholarship and clinical experience but also expresses challenging insights through a calm reasonable and commonsense appeal After this book the reader will be more thoughtful more considered more sophisticated more appreciative of the importance of therapy as a vehicle for healing and for engaging the numinous James Hollis Ph D Jungian analyst and author of What Matters Most Living a More Considered Life Dr Lionel Corbett trained in medicine and psychiatry in England and as a Jungian analyst at the C G Jung Institute of Chicago He is currently on the core faculty of Pacifica Graduate Institute in Santa Barbara California and the author of The Religious Function of the Psyche and Psyche and the Sacred as well as various professional articles His main interest is in the religious function of the psyche and the ways in which this function expresses itself through the structures of personality

Comparative Theories of Nonduality Milton Scarborough, 2011-10-20 It is a commonplace that while Asia is nondualistic the West because of its uncritical reliance on Greek derived intellectual standards is dualistic Dualism is a deep seated habit of thinking and acting in all spheres of life through the prism of binary opposites leads to paralyzing practical and theoretical difficulties Asia can provide no assistance for the foreseeable future because the West finds Asian nondualism especially that of Mahayana Buddhism too alien and nihilistic On the other hand postmodern thought which purports to deliver us from the dualisms embedded in modernity turns out to be merely a pseudo postmodernism This book s novel idea is that the West already contains within one of its more marginalized roots that of ancient Hebrew culture a pre philosophical form of nondualism which makes possible a new form of nondualism one to which the West can subscribe This new nondualism inspired by Buddhism but not identical to it is an epistemological ontological metaphysical and praxical middle way both for the West and also between East and West
