Sensational Religion Sally Promey, 2014-06-24 The result of a collaborative multiyear project this groundbreaking book explores the interpretive worlds that inform religious practice and derive from sensory phenomena Under the rubric of making sense the studies assembled here ask How have people used and valued sensory data How have they shaped their material and immaterial worlds to encourage or discourage certain kinds or patterns of sensory experience How have they framed the sensual capacities of images and objects to license a range of behaviors including iconoclasm censorship and accusations of blasphemy or sacrilege Exposing the dematerialization of religion embedded in secularization theory editor Sally Promey proposes a fundamental reorientation in understanding the personal social political and cultural work accomplished in religion's sensory and material practice *Sensational Religion* refocuses scholarly attention on the robust material entanglements often discounted by modernity's metaphysic and on their inextricable connections to human bodies behaviors affects and beliefs *Byzantine Media Subjects* Glenn A. Peers, 2024-06-15 *Byzantine Media Subjects* invites readers into a world replete with images icons frescoes and mosaics filling places of worship politics and community Glenn Peers asks readers to think themselves into a world where representation reigned and humans followed and indeed were formed Interrogating the fundamental role of representation in the making of the Byzantine human Peers argues that Byzantine culture was already posthuman The Byzantine experience reveals the extent to which media like icons manuscripts music animals and mirrors fundamentally determine humans In the Byzantine world representation as such was deeply persuasive even coercive it had the power to affect human relationships produce conflict and form self-perception Media studies has made its subject the modern world but this book argues for media having made historical subjects Here it is shown that media long ago also made Byzantine humans defining them molding them mediating their relationship to time to nature to God and to themselves **Select Works** George Gordon Byron Baron Byron, 1837 **The Viewer and the**

Printed Image in Late Medieval Europe David S. Areford, 2017-07-05 Structured around in-depth and interconnected case studies and driven by a methodology of material contextual and iconographic analysis this book argues that early European single-sheet prints in both the north and south are best understood as highly accessible objects shaped and framed by individual viewers Author David Areford offers a synthetic historical narrative of early prints that stresses their unusual material nature as well as their accessibility to a variety of viewers both lay and monastic This volume represents a shift in the study of the early printed image one that mirrors the widespread movement in art history away from issues of production

style and the artist toward issues of reception function and the viewer Areford's approach is intensely grounded in the object especially the unacknowledged material complexity of the print as a portable malleable and accessible image that depended on a response that was not only visual but often physical emotional and psychological Recognizing that early prints were not primarily designed for aesthetic appreciation the author analyzes how their meanings stemmed from specific functions involving private devotion protection indulgences the cult of saints pilgrimage exorcism the art of memory and anti Semitic propaganda Although the medium's first century was clearly transitional and experimental Areford explores how its potential to impact viewers in new ways both positive and negative was quickly realized

Icons of Space Jelena Bogdanović, 2021-07-26 Icons of Space Advances in Hierotopy brings together important scholars of Byzantine religion art and architecture to honour the work of renowned art historian Alexei Lidov As well as his numerous publications Lidov is well known for developing the concept of hierotopy an innovative approach for studying the creation of sacred spaces Hierotopy and the related concepts of spatial icons and image paradigms emphasize fundamental questions about icons including what defines them as structures spaces and experiences Chapters in this volume engage with the overarching theme of icons of space by employing contrasting and complementing methods of hierotopy with more traditional approaches such as iconography Examinations of icons have traditionally been positioned within strictly historical theological socio economic political and art history domains but this volume poses epistemological questions about the creation of sacred spaces that are instead inclusive of multi layered iconic ideas and the lived experiences of the creators and beholders of such spaces This book contributes to image theory and theories of architecture and sacred space Simultaneously it moves beyond colonial studies that predominantly focus on questions of religion and politics as expressions of privileged knowledge and power This book will appeal to scholars and students of Byzantine history as well as those interested in hierotopy and art history

Equilibrium of Eternity's Playground Andrew Lennard, 2021-02-15 The transcendental truth had always been hidden from the spiritual being Even

among the enigma of supernatural existence the celestial contradictions of the consecrated cosmos were concealed from the Archangel and Seraphim But the days of a duplicitous divine design were numbered Infinity's lies are about to come to an end The mutiny of three malevolent malcontents are ready to destroy the Deity's deceit as Parrish May and Ecole's insurrection ignites the flames of divine dissidence in heaven and earth releasing an angelic apocalypse But can the three subversive seraphs rebellion alter the numinous nebula of creation with their seditious symmetry Or will the inviolable equilibrium of eternity's playground come to a bitter end

The Religious Figural Imagery of Byzantine Lead Seals I John A. Cotsonis, 2020-03-17 The articles republished in this volume are ground breaking studies that employ a large body of religious figural imagery of Byzantine lead seals ranging from the 6th to the 15th century A number of the studies present tables charts and graphs in their analysis of iconographic trends and changing popularity of saintly figures over time And since many of the seals bear inscriptions that include the names titles or offices of their owners information often not given for the patrons of sacred images in other media these diminutive objects permit an investigation into the social use of sacred imagery through the various sectors of Byzantine culture the civil ecclesiastical and military administrations The religious figural imagery of the lead seals accompanied by their owners identifying inscriptions offers a means of investigating both the broader visual piety of the Byzantine world and the intimate realm of their owners personal devotions Other studies in this volume are devoted to rare or previously unknown sacred images that demonstrate the value of the iconography of Byzantine lead seals for Byzantine studies in general This volume includes studies dedicated to the image of Christ primarily found on imperial seals various images of the Virgin and narrative or Christological scenes A companion volume presents various articles focusing on sphragistic images of saints and on the religious imagery of Byzantine seals as a means of investigating the personal piety of seal owners as well as the wider realm of the visual piety and religious devotions of Byzantine culture at all levels CS1085

Welcoming Finitude Christina M. Gschwandtner, 2019-10-01 What does it mean to experience and engage in religious ritual How does liturgy structure time and space How do our bodies move within liturgy and what impact does it have on our senses How does the experience of ritual affect us and shape our emotions or dispositions How is liturgy experienced as a communal event and how does it form the identity of those who participate in it *Welcoming Finitude* explores these broader questions about religious experience by focusing on the manifestation of liturgical experience in the Eastern Christian tradition Drawing on the methodological tools of contemporary phenomenology and on insights from liturgical theology the book constitutes a philosophical exploration of Orthodox liturgical experience

Select Reviews, and Spirit of the Foreign Magazines Enos Bronson, 1809 ***The Living Icon in Byzantium and Italy*** Paroma Chatterjee, 2014-03-17 This is the first book to explore the emergence and function of a novel pictorial format in the Middle Ages the vita icon which displayed the magnified portrait of a saint framed by scenes from his or her life The vita icon was used for depicting the most popular figures in the Orthodox calendar and in the Latin West was deployed most

vigorously in the service of Francis of Assisi This book offers a compelling account of how this type of image embodied and challenged the prevailing structures of vision representation and sanctity in Byzantium and among the Franciscans in Italy between the eleventh and thirteenth centuries Paroma Chatterjee uncovers the complexities of the philosophical and theological issues that had long engaged both the medieval East and West such as the fraught relations between words and images relics and icons a representation and its subject and the very nature of holy presence
