Lewis, 2014-01-14 Central Europe here Poland the German Democratic Republic Czechoslovakia and Hungary is at the centre of international attention since the Soviet collapse An understanding of its postwar history is critical to an appreciation of the challenges facing its present rulers. This is an engrossing account of the installation development operation and eventual downfall of its very different communist regimes and the transition to the freedoms and uncertainties of the post Soviet world The book covers political economic social and cultural change emphasising the crucial relationships with the USSR throughout Going Over Beth Kephart, 2014-04-01 It is February 1983 and Berlin is a divided city with a miles long barricade separating east from west But the city isn t the only thing that is divided Ada lives among the rebels punkers and immigrants of Kreuzberg in West Berlin Stefan lives in East Berlin in a faceless apartment bunker of Friedrichshain Bound by love and separated by circumstance their only chance for a life together lies in a high risk escape But will Stefan find the courage to leap Or will forces beyond his control stand in his way National Book Award finalist Beth Kephart presents a story of daring and sacrifice and love that will not wait of Berlin Brian Ladd, 2018-05-01 Written in a clear and elegant style The Ghosts of Berlin is a superb guide to this process of urban self definition both past and present The Wall Street Journal In the twenty years since its original publication The Ghosts of Berlin has become a classic an unparalleled guide to understanding the presence of history in our built environment especially in a space as historically contested and emotionally fraught as Berlin Brian Ladd examines the ongoing conflicts radiating from the remarkable fusion of architecture history and national identity in Berlin Returning to the city frequently Ladd continues to survey the urban landscape traversing its ruins contemplating its buildings and memorials and carefully deconstructing the public debates and political controversies emerging from its past With erudition insight and restraint Brian Ladd carries off the dangerous task of analyzing architecture and urbanism in Berlin in terms of its horrific political past He convincingly argues that architecture embodies ideological meaning more powerfully than other artifacts of a society The New York Times Book Review Ladd examines the conflicts radiating from Berlin's remarkable fusion of architecture history and national identity History Today His history of Berlin's architectural successes and failures reads entertainingly like a detective novel The New Republic Ladd's balanced sensitive chronicle of the Berlin's traumatized topography brings the past into focus Harvard Design Magazine **Beaten But Not Defeated** Merilyn Moos, 2014-10-31 Siegi Moos an anti Nazi and active member of the German Communist Party escaped Germany in 1933 and exiled in Britain sought another route to the transformation of capitalism This biography charts Siegi s life starting in Germany when he witnessed the Bavarian uprisings of 1918 19 and moving to the later rise of the extreme right We follow his progress in Berlin as a committed Communist and an active anti Nazi in the well organised Red Front before much of the German

Communist party KPD took the Nazis seriously and his deep involvement in the Free Thinkers and in agit prop theatre The book also describes Siegi's life as an exile the loss of family comrades his first language and ultimately his earlier political beliefs Against a background of the loneliness of exile the political and the personal became indissolubly intertwined when Siegi s wife Lotte had a relationship with an Irish Soviet spy Lastly we look into Siegi s time as a research worker at the prestigious Oxford Institute of Statistics at Oxford University from 1938 becoming an economic advisor under the Labour Prime Minister Wilson 1966 1970 and how finally after retirement he returned to writing The New Germany in the East Christopher Flockton, Eva Kolinsky, Rosalind M. O. Pritchard, 2000 Produced with the International Peace Academy in New York this volume focuses largely on the conflicts of the 1990s and future projects examining multifacteted issues involved in conflict management suggesting new approaches and tools for future conflict management Means and Methods of the MfS in the GDR Nessim Ghouas, 2004 White Eagle, Black Eagle Robert Parkin, 2023-06-09 Studying the German Polish ethnic relations this book analyses the people and region through their respective borderlands migration official cooperation and unofficial suspicions across the border The main conclusion is that while officialdom is generally keen to develop cross border ties which ordinary people do take advantage of these tend to be much more sceptical of the potential impact to their lives in what remains an economically depressed area despite cross border cooperation **Checkpoint Charlie** Iain MacGregor, 2020-11-10 A constantly captivating well having been possible for several decades researched and often moving The Wall Street Journal history of Checkpoint Charlie the famous military gate on the border of East and West Berlin where the United States confronted the USSR during the Cold War In the early 1960s East Germany committed a billion dollars to the creation of the Berlin Wall an eleven foot high barrier that consisted of seventy nine miles of fencing 300 watchtowers 250 guard dog runs twenty bunkers and was operated around the clock by guards who shot to kill Over the next twenty eight years at least five thousand people attempt to smash through it swim across it tunnel under it or fly over it In 1989 the East German leadership buckled in the face of a civil revolt that culminated in half a million East Berliners demanding an end to the ban on free movement The world's media flocked to capture the moment which perhaps more than any other signaled the end of the Cold War Checkpoint Charlie had been the epicenter of global conflict for nearly three decades Now in capturing the essence of the old Cold War MacGregor may just have helped us to understand a bit more about the new one The Times London the mistrust oppression paranoia and fear that gripped the world throughout this period Checkpoint Charlie is about the nerve wracking confrontation between the West and USSR highlighting such important global figures as Eisenhower Stalin JFK Nikita Khrushchev Mao Zedung Nixon Reagan and other politicians of the period He also includes never before heard interviews with the men who built and dismantled the Wall children who crossed it relatives and friends who lost loved ones trying to escape over it military policemen and soldiers who guarded the checkpoints CIA MI6 and Stasi operatives who oversaw operations across its borders politicians whose ambitions shaped it

journalists who recorded its story and many more whose living memories contributed to the full story of Checkpoint Charlie <u>Ibss: Political Science: 1992</u> British Library of Political and Economic Science, 1993 The IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge of the social sciences The Workers' and Peasants' State Patrick Major, Jonathan Osmond, 2002 Medical histories of Belgium reshapes Belgian history of medicine by bringing together a new generation of scholars Going beyond a chronological narrative the book offers new insights by questioning classic themes of the history of medicine physicians institutions and the nation state While retracing specific Belgian characteristics it also engages with broader European developments in the nineteenth and twentieth centuries Medical histories of Belgium will appeal to Historians of Belgium in various subfields especially cultural history and political history and medical historians and medical practitioners seeking the historical context of their activities The Poet's Role Ruth J. Owen, 2021-10-18 This study of contemporary German poetry represents the first attempt to examine comprehensively and at some length the lyric response to the unification period It sets out to investigate by means of close textual analysis whether the German Wende was also a turning point for poetry exploring how GDR poets responded both to the revolutionary events of 1989 and subsequently to the new united Germany An introductory chapter considers what is distinct about poetry as a genre especially under censorship or amid historic change as well as outlining the post unification Literaturstreit The following chapter offers a survey of the poet's role in the GDR from 1949 until 1989 Two central chapters then gather the poetry of the Wende and unification as a corpus of work and characterize it through the elucidation of recurring themes motifs and techniques The volume strikes a balance between giving a general overview of poetry written in 1989 1996 and focusing on individual poets whose work is particularly compelling After identifying broad trends across a wide range of individual poems collections and anthologies single chapters therefore examine in greater depth the work of Volker Braun and Durs Gr nbein The concluding chapter addresses the issue of a separate GDR literature Finally an extensive structured bibliography is provided covering the poetry literary criticism and cultural history of the period Bending Spines Randall L. Bytwerk, 2012-01-01 Why do totalitarian propaganda such as those created in Nazi Germany and the former German Democratic Republic initially succeed and why do they ultimately fail Outside observers often make two serious mistakes when they interpret the propaganda of this time First they assume the propaganda worked largely because they were supported by a police state that people cheered Hitler and Honecker because they feared the consequences of not doing so Second they assume that propaganda really succeeded in persuading most of the citizenry that the Nuremberg rallies were a reflection of how most Germans thought or that most East Germans were convinced Marxist Leninists Subsequently World War II Allies feared that rooting out Nazism would be a very difficult task No leading scholar or politician in the West expected East Germany to collapse nearly as rapidly as it did Effective propaganda depends on a full range of persuasive methods from the gentlest suggestion

to overt violence which the dictatorships of the twentieth century understood well In many ways modern totalitarian movements present worldviews that are religious in nature Nazism and Marxism Leninism presented themselves as explanations for all of life culture morality science history and recreation They provided people with reasons for accepting the status quo Bending Spines examines the full range of persuasive techniques used by Nazi Germany and the German Democratic Republic and concludes that both systems failed in part because they expected more of their propaganda than it was able to deliver *Music and International History in the Twentieth Century* Jessica C. E. Gienow-Hecht,2015-04-01 Bringing together scholars from the fields of musicology and international history this book investigates the significance of music to foreign relations and how it affected the interaction of nations since the late 19th century For more than a century both state and non state actors have sought to employ sound and harmony to influence allies and enemies resolve conflicts and export their own culture around the world This book asks how we can understand music as an instrument of power and influence and how the cultural encounters fostered by music changes our ideas about international history
