Singapore Politics Under the People's Action Party Diane K. Mauzy,R. S. Milne,2002-09-11 A comprehensive overview of politics in Singapore since self governance The authors examine how this tiny island has developed into a global financial centre and an economic and social success under the leadership of the People s Action Party which has ruled continuously since 1959 The authors explore the nature of the Singaporean government as well as major issues such as ethnicity human rights and the development of civil society *The Rule of Law in Singapore* Li-ann Thio,2025-01-09 This book examines the operation of the rule of law in the non liberal democracy of Singapore The rule of law in Singapore has been both lauded for anchoring efficient and effective government and lambasted for being procedural and statist 21st century Singapore has experienced modest political liberalisation manifesting a paternal democracy where the governor governed relationship is evolving from a father knows best paternalistic mindset to a more consultative approach to governance where dialogue rather than diktat is the norm in a post deferential era The Singapore case study helps pluralise the rule of law as a universal principle which moderates power and may be variously implemented The book examines the reception of the rule of law within the Singapore legal order and how it interacts with constitutional principles like the separation of powers and democracy in the design of constitutional institutions and forging of structural and rights oriented judicial review It considers how the rule of law contoured by legal communitarianism sustains a managed democracy in relation to legislation governing internal security public assemblies religious harmony and online falsehoods It questions whether the chilling of political speech by strict laws on political defamation and contempt of court has been significantly defrosted by important developments which seek ordered liberty through a more calibrated form of review Lucid and engaging this book will be of interest to researchers working in constitutional law *American Government and the Vision of the Democrats* Mark Louis Latour,2007-04-26 This work is a comprehensive introduction to the most important issues facing American citizens and their government It addresses various interpretations of the proper role of government with a

view towards the Democrats re working of such integral issues as States rights Societal affluence and social needs Campaign finance reform Media Consolidation America s climbing debt ceiling China s military and political expansion Manufacturing s decline Job outsourcing The disappearance of pension plans The whittling away of America s middle class America s inadequate health care system Environmental degradation America s vanishing family farms

US-Singapore Relations, 1965-1975 Daniel Wei Boon Chua,2017-06-23 At the height of the Cold War in Southeast Asia the foreign relations between the United States and Singapore demonstrated the interplay between America s strategy of containment and Singapore s efforts at a non aligned foreign policy But there is a deeper story American involvement in the Vietnam War not only held back the spread of communism in Southeast Asia but also catalysed economic and strategic cooperation between the United States and Singapore The author argues that Singapore might not have achieved its success so rapidly without the support of the US As the war in Vietnam raged on Singapore became a critical refueling point also providing ship and aircraft repair for the US military Commercial and strategic support from the United States lifted Singapore out of the economic doom predicted for the city state after secession from Malaysia cessation of Indonesian trade during Konfrontasi and Britain s military withdrawal By considering the importance of the US s role in Singapore s nation building this book provides an important supplement to the well trodden narrative that attributes Singapore s success to good governance

Asianism and the Politics of Regional Consciousness in Singapore Leong Yew,2013-11-20 Over the last two decades Singapore has undergone a substantial degree of Asianization Apart from participating in the Asian values debate of the 1990s re visioning itself as New

Asia and a global Asian hub and establishing Asian identities for the commodities it consumes and produces Singapore has also repurposed its modernity cultures and ethos along similar regionalist precepts However even in recent times Singapore continues to vacillate ambivalently between identifying with and differentiating itself from Asia Responding to the challenges Singapore faces in coming to terms with its Asian identity this book examines the complex cultural social and political underpinnings that have shaped Singapore's mainstream discourse on Asia Indeed it argues that its legacy as a colonial port city the exigencies of managing the post independence nation state and the larger forces of imperialism and capitalism all contribute to its politics of Asianism Taking a thoroughly interdisciplinary approach that spans history cultural studies postcolonialism and cultural geography Leong Yew reveals how Asia has been used to narrate Singapore's beginnings revalidate Singaporean ethnic culture and to consolidate its practices of consumption and commodification This book will be welcomed by students and scholars working across a range of fields including Asian culture and society Asian politics cultural theory and postcolonial studies

The Politics of Failed Policies Sarah James, 2025-07-18 *The Politics of Failed Policies* examines the darker side of state autonomy and policy experimentation in our federal system policy failure While advances in statistics and computing promised the ability to evaluate the outcomes of state policies more precisely and accurately the path from information to responsive policy remains far from guaranteed especially given our highly polarized political climate Most of the existing scholarship focuses on individual characteristics that affect public officials likelihood of internalizing new information and refining their policy preferences In stark contrast author Sarah James takes a historical institutionalist approach and shows that the design resources and processes of state level research institutions can systematically influence when evidence can overcome confirmation bias and partisan preferences among elected state officials evaluating a policy This work contributes a more precise definition of a state's capacity for research that better explains political responses to policy failure The detailed case studies support a theory of policy feedback in which policy and institutional landscape can empower diffusely organized and disadvantaged policy opponents to overcome the power of the traditional winners in the American political economy *The Politics of Failed Policies* takes seriously that policy research and learning are not isolated from the caprices of party politics and yet I show that state politics and policymaking are not irrevocably beholden to the whims of partisan bickering While ideological battles pressure from well resourced interest groups and yes even elections remain formidable forces in American politics strategically designed state policies and institutions can lay a foundation for building a coalition to respond to actual policy outcomes Choices about policy and institutional design have long term effects on when how and why public officials feel pressured to acknowledge and respond to policy failure

American Government and Popular Discontent Steven E. Schier, Todd E. Eberly, 2013-07-18 Popular distrust and the entrenchment of government by professionals lie at the root of America's most pressing political problems How did U.S. politics get to this point Contemporary American politics got much of its shape from the transformations brought about from the 1950s to the 1980s Presidential and congressional behavior voting behavior public opinion public policy and federalism were all reconfigured during that time and many of those changes persist to this day and structure the political environment in the early twenty first century Throughout American history parties have been a reliable instrument for translating majority preferences into public policy From the 1950s to the 1980s a gradual antiparty realignment alongside the growth of professional government produced a new American political system of remarkable durability and remarkable dysfunction It is a system that is paradoxically stable despite witnessing frequent shifts in party control of the institutions of government at the state and national level Schier and Eberly's system level view of American politics demonstrates the disconnect between an increasingly polarized and partisan elite and an increasingly disaffected mass public **Breakthrough In Vocational**

And Technical Education, A: The Singapore Story Song Seng Law, 2014-12-04 There has been much international effort to improve or transform Vocational and Technical Education VTE However the outcomes often remain elusive VTE continues to be largely shunned by society as a sector of education for low achievers and academic failures A Breakthrough in VTE The Singapore Story shares the Singapore experience that was made possible through strategic planning organisational excellence innovation and ingenuity It is a compelling story of how the Institute of Technical Education ITE began to transform lives and change its image over a period of fifteen years 1992-2007 This book based on a first hand CEO account

vividly captures the sort of leadership policy choices fundamental principles and capabilities in the journey of transformation The details of the what when how and why are a valuable guide for leaders and practitioners in building quality and sustainable VTE systems which are responsive to social and economic needs American Democracy in Context John Anthony Maltese, Joseph A. Politics and Constitutions in Southeast Asia Marco Bunte, Björn Dressel, 2016-07-15 In recent years the constitutional landscape of Southeast Asia has changed tremendously Against a worldwide background of liberalization globalization and democratization states in the region have begun to alter their constitutions reinforcing human rights provisions and putting in place institutional safeguards such as constitutional courts and human rights commissions On closer examination however the picture is very complex with constitutional developments differing greatly between states This book explores a range of current constitutional developments in the different states of Southeast Asia through a distinct political lens Drawing on comparative and single case studies it considers various constitutional areas including constitution drafting human rights

legal safeguards and the continuing role of the military sets constitutional developments in the wider political and historical context of each country and makes comparisons both with Western democracies and with other developing regions The book concludes by assessing overall how far constitutional practices and trajectories are converging towards a liberal Western model or towards a distinctly Southeast Asian model
