Bibliografía cronológica de la lingüística, la gramática y la lexicografía del español (BICRES V) Miguel Ángel Esparza Torres, Hans-Josef Niederehe, 2015-10-15. Since the publication of the still very valuable *Biblioteca histórica de la filología* by Cipriano Muñoz y Manzano conde de la Viña, Madrid 1893, our knowledge of the history of the study of the Spanish language has grown considerably and most manuscript and secondary sources had never been tapped before. Hans Josef Niederehe of the University of Trier courageously undertook the task to bring together any available bibliographical information together with much more recent research findings scattered in libraries, journals and other places. The resulting *Bibliografía cronológica de la lingüística, la gramática y la lexicografía del español*. Desde los principios hasta el año 1600 BICRES began appearing in 1994. BICRES I covered the period from the early beginnings to 1600 followed by BICRES II 1601-1700, BICRES III 1701-1800 and together with Miguel Ángel Esparza Torres of Madrid there followed BICRES IV 1801 to 1860. Now the fifth volume has become available covering the years from 1861 to 1899. Access to the bibliographical information of altogether 5,272 titles is facilitated by several detailed indexes such as a short title index, a listing of printers, publishers and places of production and an author index. More than twenty years of research in the major libraries of Spain and other European countries have gone into this unique work. Relative sources of the Americas have also been covered, making it an exhaustive source for any serious scholar of any possible aspect of the Spanish language. *Two Armies on the Rio Grande* Douglas A. Murphy, 2014-11-07. Winner Clotilde P. García Tejano Book Prize. The opening campaign of the US Mexican War transformed the map of each nation and shaped the course of conflict. Armed with a broad range of Mexican military documents and previously unknown US sources, Douglas Murphy provides the first balanced view of early battles such as Palo Alto and Resaca de la Palma. He reassesses previously covered territory and also poses new questions: Why did Mexico establish its defenses south of the Rio Grande while claiming territory north of the river? What was Mexico's strategy in the campaign against the United States? What factors most affected Mexico's defeat? In confronting these questions, Murphy shows that the campaign was a complex chess match with undercurrents of political intrigue, economic motivations and personal animosities as much as military action. *Two Armies on the Rio Grande* will transform our understanding of the US Mexican War. *Naval Documents of the American Revolution* United States. Naval History Division, 1964. *Naval Documents of the American Revolution: American theater: June 1, 1778-August 15, 1778; European theater: June 1, 1778-August 15, 1778* United States.

Naval History Division,1964 In the tradition of the preceding volumes the first of which was published in 1964 this work synthesizes edited documents including correspondence ship logs muster rolls orders and newspaper accounts that provide a comprehensive understanding of the war at sea in the spring of 1778 The editors organize this wide array of texts chronologically by theater and incorporate French Italian and Spanish transcriptions with English translations throughout
