,2004 Dimensiones de la exclusión psicosocial. Pedro Enrique Rodríguez R,2021-07-16 Este libro es un intento por explorar algunas implicaciones teóricas y prácticas de la exclusión psicosocial en psicología Para ello toma como punto de partida una paradoja en la que siendo reconocida como el principal factor de riesgo en salud mental la atención a la exclusión psicosocial ha sido más bien periférica en la agenda de la disciplina lo que ofrece una oportunidad para explorar no solo su importancia prioritaria en la actualidad de los países de América Latina y el mundo sino también su potencial para repensar algunos importantes problemas teóricos y prácticos Para ello la primera parte explora diversos elementos de la tradición occidental ante la precariedad revisa aportes históricos y propone un conjunto de elementos para una formulación contemporánea de la exclusión psicosocial destacando sus posibles beneficios para la comprensión de un proceso mucho más dinámico y complejo que la mera noción de pobreza o carencia material En la segunda parte se presentan hallazgos investigativos en los que se pueden apreciar algunos de sus procesos psicológicos más relevantes tales como el papel decisivo de los vínculos como estructuradores de la experiencia así como las consecuencias subjetivas del sufrimiento y la inequidad También se analizan ciertas diferencias y similitudes en el funcionamiento y la respuesta a dispositivos de intervención con personas provenientes de contextos de plena inclusión El libro finaliza con la propuesta de un modelo de intervención que podrá ser de utilidad para el abordaje individual comunitario y social

**América Latina** Miguel Panadero Moya, Francisco Cebrián Abellán,1999 *Social Programmes, Poverty Eradication and Labour Inclusion* Laís Wendel Abramo, Simone Cecchini, Beatriz Morales,2019 Diverse social programmes including conditional cash transfer programmes labour and production inclusion programmes and social pensions are being implemented in Latin American and Caribbean countries with the aim of ending poverty and reducing inequalities throughout the life cycle This book offers an up to date analysis of these programmes and the way they relate to labour inclusion and analyses ongoing debates regarding the possible incentives and disincentives they create in terms of the labour supply formalization and child labour among the target population Considering that poverty is a structural problem of highly unequal societies the thesis that poverty is due to a lack of effort on the part of the poor is argued to be an expression of the strong prejudice against those living in poverty the great majority of whom work or are actively seeking employment but are hampered by the large decent work deficits existing in the region From an integrated and rights based perspective public policies should simultaneously address the twofold challenge of social and labour inclusion in order to achieve basic thresholds of well being by ensuring income universal access to good quality social services and opportunities for decent work
