Armando Lara-Millán,2021 Whenever the topic of large jails and public hospitals in urban America is raised a single idea
comes to mind It is widely believed that because we as a society have dis invested from public health the sick and poor now
find themselves within the purview of criminal justice institutions In *Redistributing the Poor* ethnographer and historical
sociologist Armando Lara Mill n takes us into the day to day operations of running the largest hospital and jail system in the
world and argues that such received wisdom is a drastic mischaracterization of the way that states govern urban poverty at

the turn of the 21st century Rather than focus on our underinvestment of health and overinvestment of criminal justice his idea of redistributing the poor draws attention to how state agencies circulate people between different institutional spaces in such a way that generates revenue for some agencies cuts costs for others and projects illusions that services have been legally rendered By centering the state s use of redistribution Lara Mill n shows how certain forms of social suffering the premature death of mainly poor people of color are not a result of the state s failure to act but instead the necessary outcome of so called successful policy
