Rodriguez,2000-04-20 Anywhere we look around ourselves we see that there is aggression in one or another way Even within ourselves as well whether we admit it or not Why is it so We live in the so called modern world where everyday we discover new ways for easing our way of life hoping for better life but it the aggression is still there We even make up new philosophies for that matter but we see that there s no way out What causes a man to be so aggressive to have that impulse for aggression whether it be toward his neighbor or nature Some say that it s something natural other say that it s because of economic reasons We love the nature we admire it because she gives us all that we need for us to live We love each other raise children who come in this world because of that love But it the aggression is still there though we despise it It seems that we are somehow unaware of our unconsciousness of acting toward man or the nature in aggressive way And the author of this book discovers something new gives us a new point of view and says that the aggression comes FROM THE SUBCONSCIOUS CONFLICT BETWEEN LIFE AND DEATH WITHIN MAN HIMSELF In this book which goes beyond boundaries of our material world you ll discover the reasons why we are so aggressive and the ways and means how to get rid of it and start to live a life full of humanity
