Comparative and Global Framing of Enslavement Stephan Conermann, Youval Rotman, Ehud R. Toledano, Rachel Zelnick-Abramovitz, 2023-09-05 The study of enslavement has become urgent over the last two decades Social scientists legal scholars human rights activists and historians who study forms of enslavement in both modern and historical societies have sought and often achieved common conceptual grounds thus forging a new perspective that comprises historical and contemporary forms of slavery What could certainly be termed a turn in the study of slavery has also intensified awareness of enslavement as a global phenomenon inviting a comparative trans regional approach across time space divides Though different aspects of enslavement in different societies and eras are discussed each of the volume s three parts contributes to and has benefitted from a global perspective of enslavement The chapters in Part One propose to structure the global examination of the theoretical ideological and methodological aspects of the global local and glocal Part Two Regional and Trans regional Perspectives of the Global presents through analyses of historical case studies the link between connectivity and mobility as a fundamental aspect of the globalization of enslavement Finally Part Three deals with personal points of view regarding the global local and glocal Grosso modo the contributors do not only present their case studies but attempt to demonstrate what insights and added value explanations they gain from positioning their work vis vis a broader big picture

suggests that the artefacts created in fieldwork offices libraries laboratories museums and other places and experiences beyond the important fact that these places and situations involved actors other than the anthropologists themselves have been different things during their troubled existence The book seeks to make these differences apparent highlighting rather than concealing the relationships between partial modes of making and being Afro as a subject of science If the artefacts created in a variety of situations have been different things we should ask what sort of things they were and how the actors involved in their creation sought to make them meaningful The book foregrounds these discontinuous and ever changing contours

Black Labor, White Sugar Philip A. Howard,2015-06-15 Early in the twentieth century the Cuban sugarcane industry faced a labor crisis when Cuban and European workers balked at the inhumane conditions they endured in the cane fields Rather than reforming their practices sugar companies gained permission from the Cuban government to import thousands of black workers from other Caribbean colonies primarily Haiti and Jamaica Black Labor White Sugar illuminates the story of these immigrants their exploitation by the sugarcane companies and the strategies they used to fight back Philip A Howard traces the socioeconomic and political circumstances in Haiti and Jamaica that led men to leave their homelands to cut load and haul sugarcane in Cuba Once there the field workers or braceros were subject to marginalization and even violence from the sugar companies which used structures of race ethnicity color and class to subjugate these laborers Howard argues that braceros drew on their cultural identities from concepts of home and family to spiritual worldviews to interpret and contest their experiences in Cuba They also fought against their exploitation in more overt ways As labor conditions worsened in response to falling sugar prices the principles of anarcho syndicalism converged with the Pan African philosophy of Marcus Garvey to foster the evolution of a protest culture among black Caribbean laborers By the mid 1920s this identity encouraged many braceros to participate in strikes that sought to improve wages as well as living and working conditions The first full length exploration of Haitian and Jamaican workers in the Cuban sugarcane industry Black Labor White Sugar examines the industry's abuse of thousands of black Caribbean immigrants and the braceros answering struggle for power and self definition

Constructing the Spanish Empire in Havana Evelyn Jennings, 2020-12-16 Constructing the Spanish Empire in Havana examines the political economy surrounding the use of enslaved laborers in the capital of Spanish imperial Cuba from 1762 to 1835 In this first book length exploration of state slavery on the island Evelyn P Jennings demonstrates that the Spanish state s policies and practices in the ownership and employment of enslaved workers after 1762 served as a bridge from an economy based on imperial service to a rapidly expanding plantation economy in the nineteenth century The Spanish state had owned and exploited enslaved workers in Cuba since the early 1500s After the humiliating yearlong British occupation of Havana beginning in 1762 however the Spanish Crown redoubled its efforts to purchase and maintain thousands of royal slaves to prepare Havana for what officials believed would be the imminent renewal of war with England Jennings shows that the composition of workforces assigned to public projects depended on the availability of enslaved workers in various interconnected labor markets within Cuba within the Spanish empire and in the Atlantic world Moreover the site of enslavement the work required and the importance of that work according to imperial priorities influenced the treatment and relative autonomy of those laborers as well as the likelihood they would achieve freedom As plantation production for export purposes emerged as the most dynamic sector of Cuba s economy by 1810 the Atlantic networks used to obtain enslaved workers showed increasing strain British abolitionism exerted additional pressure on the slave trade To offset the loss of access to enslaved laborers colonial officials expanded the state s authority to sentence deserters vagrants and fugitives both enslaved and free to labor in public works such as civil construction road building and the creation of Havana s defensive forts State efforts in this area demonstrate the deep roots of state enslavement and forced labor in nineteenth century Spanish colonialism and in capitalist development in the Atlantic world Constructing the Spanish Empire in Havana places the processes of building and sustaining the Spanish empire in the imperial hub of Havana in a comparative perspective with other sites of empire building in the Atlantic world Furthermore it considers the human costs of reproducing the Spanish empire in a major Caribbean port the state s role in shaping the institution of slavery and the experiences of enslaved and other coerced laborers both before and after the beginning of Cuba s sugar boom in the early nineteenth century

Slavery Unseen Lamonte Aidoo, 2018-03-15 In Slavery Unseen Lamonte Aidoo upends the narrative of Brazil as a racial democracy showing how the myth of racial democracy elides the history of sexual violence patriarchal terror and exploitation of slaves Drawing on sources ranging from inquisition trial documents to travel accounts and literature Aidoo demonstrates how interracial and same sex sexual violence operated as a key mechanism of the production and perpetuation of slavery as well as racial and gender inequality The myth of racial democracy Aidoo contends does not stem from or reflect racial progress rather it is an antiblack apparatus that upholds and protects the heteronormative white patriarchy throughout Brazil s past and on into the present
