Mauricette Fournier,2019-01-17 If as a corollary of urbanization many artists seized as early as the nineteenth century and most of the twentieth century the city as object and scene of their reflection on a world under construction it was not the same for rural areas Generally speaking until recently the countryside s representations have been shaped by the writings of a ruling class However in recent decades alongside the country novels or terroir novels that follow in line with the rustic current initiated in the nineteenth century more demanding literary productions have emerged These writings often fed by the sense of loss and the end of a certain agricultural lifestyle are also exploring the contemporary reconstructions of rural areas little publicized They redefine a new regionality less militant and certainly less connoted in its nostalgic link to the land This book revisits rural areas and their representations in contemporary writing in both popular and high culture in order to draw a global landscape of current rural areas and new regionalities **Kouchibouguac** Ronald Rudin,2016-01-01 In
