Lost Continent:

The Lost Continent Charles J. Hyne,2022-09-26 A classic lost race story with all of the required elements a seductive empress a straight arrow hero battles escapes sorcery and earth shattering cataclysms Eminently readable and very entertaining without any profundity to distract a fan of Haggard Aubrey or Janvier style fantasy literature **The Lost Continent** Edgar Rice Burroughs,2005-11-01 I could not repress a sigh at the thought of the havoc war had wrought in this part of England at least Farther east nearer London we should find things very different There would be the civilization that two centuries must have wrought upon our English cousins as they had upon us There would be mighty cities cultivated fields happy people There we would be welcomed as long lost brothers There would we find a great nation anxious to learn of the world beyond their side of thirty as I had been anxious to learn of that which lay beyond our side of the dead line Edgar Rice Burroughs created one of the most iconic figures in American pop culture Tarzan of the Apes and it is impossible to overstate his influence on entire genres of popular literature in the decades after his enormously winning pulp novels stormed the public s imagination The Lost Continent is one of the rarest and least known of Burrough s thrilling science fiction adventure stories Since its first appearance in the February 1916 issue of All Around Magazine under the title Beyond Thirty it has languished in undeserved obscurity In the year 2137 global civilization has been in decline for nearly two centuries and war ruined Europe is but a distant memory practically a legend to the isolationist United States But one intrepid American traveler is about to rediscover the Old World which has become a startling and savage land in its solitude American novelist EDGAR RICE BURROUGHS 1875 1950 wrote dozens of adventure crime and science fiction novels that are still beloved today including Tarzan of the Apes 1912 At the Earth s Core 1914 A Princess of Mars 1917 The Land That TimeForgot 1924 and Pirates of Venus 1934 He is reputed to have been reading a comic book when he died **The Lost Continent** C. J. Cutcliffe Hyne,2023-05-17 The Lost Continent initially published as a serial in 1899 remains one of the enduring classics of the lost race genre In it we follow Deucalion a warrior priest on the lost continent of Atlantis as he tries to battle the influence of an egotistical upstart empress Featuring magic intrigue mythical monsters and fearsome combat on both land and sea the story is nothing if not a swashbuckling adventure The Lost Continent was very influential on pulp fiction of the subsequent decades and echoes of its style can be found in the work of Edgar Rice Burroughs Robert E Howard and others *The Lost Continent* Charles John Wright Hyne,2018-03-10 Lost Continents L. Sprague de Camp,2012-07-17 DIVLeading authority examines facts and fancies behind the Atlantis theme in history science and literature Sources include Plato Thomas More K T Frost and many other citations both famous and lesser known Related legends are also recounted and refuted and reports document attempts to prove the continent s existence including accounts of actual expeditions div *The Lost Continent of Mu* James Churchward,2007-08 This classic book on the theory of a lost continent in the Pacific imparts the fascinating travel stories and theories of James Churchward **The Lost Continent**

Shaver,1999 This book is Childress thorough examination of the early hollow earth stories of Richard Shaver and the fascination that fringe fantasy subjects such as lost continents UFOs and the hollow earth have had on people Shaver s rare 1948 book I Remember Lemuria is reprinted in its entirety and the book is packed with illustrations from Ray Palmer s Amazing Stories issues of the 1940s Childress discusses famous hollow earth books and delves deep into whatever reality may be behind the stories of tunnels underground **The Lost Continent** Charles Hyne,2018-03-07 The Lost Continent by Charles Hyne **The Lost Continent Annotated** Charles John Cutcliffe Wright Hyne,2021-04-17 The Story of Atlantis is a fantasy novel by C J Cutcliffe Hyne It is considered one of the classic fictional retellings of the story of the drowning of Atlantis combining elements of the myth told by Plato with the earlier Greek myth concerning the survival of a universal flood and restoration of the human race by Deucalion *Vanished Islands and Hidden Continents of the Pacific* Patrick D. Nunn,2008-10-31 Islands as well as entire

continents are reputed to have disappeared in many parts of the world Yet there is little information on this subject concerning its largest ocean the Pacific Over the years geologists have amassed data that point to the undeniable fact of islands having disappeared in the Pacific a phenomenon that the oral traditions of many groups of Pacific Islanders also highlight There are even a few instances where fragments of Pacific continents have disappeared becoming hidden from view rather than being submerged In this scientifically rigorous yet readily comprehensible account of the fascinating subject of vanished islands and hidden continents in the Pacific the author ranges far and wide from explanations of the region s ancient history to the meanings of island myths Using both original and up to date information he shows that there is real value in bringing together myths and the geological understanding of land movements A description of the Pacific Basin and the ups and downs of the land within its vast ocean is followed by chapters explaining how long before humans arrived in this part of the world islands and continents that no longer exist were once present A succinct account is given of human settlement of the region and the establishment of cultural contexts for the observation of occasional catastrophic earth surface changes and their encryption in folklore The author also addresses the persistent myths of a sunken continent in the Pacific which became widespread after European arrival and were subsequently incorporated into new age and pseudoscience explanations of our planet and its inhabitants Finally he presents original data and research on island disappearances witnessed by humans recorded in oral and written traditions and judged by geoscience to be authentic Examples are drawn from throughout the Pacific showing that not only have islands collapsed and even vanished within the past few hundred years but that they are also liable to do so in the future
