It features several prominent, concentric, circular ripples or rings, similar to those found in a pond or on a weathered rock face. The colors range from light tan to dark brown, with the ripples creating a sense of depth and texture. The lighting is dramatic, with strong highlights and deep shadows.

science and how to apply it in daily life to access one's personal power and inner knowledge. Anyone who has tried to study the Yoga Sutras without a guide can attest to how difficult it is to understand them. Within the text Swamiji mentions that even after studying the Yoga Sutras many times in his youth he did not understand them until he was taught by authentic yoga masters. Swamiji has shared the precious knowledge he was given to assist those who are sincerely on the spiritual path to more easily understand the sutras and especially their practical aspects. Hopefully this volume will serve to clarify the true meaning of the Yoga Sutras and will serve as a guide to those persons who have the courage to embark on the sacred journey of self transformation to reach its limitless and unfathomable goal of the highest state of consciousness. The final reality is silence. Aude sapere Dare to be wise. *Flight of the Feathered Serpent* Peter Balin, 1978. Guide to the Xultun Mayan Tarot Deck. Peter Balin the painter of the Xultun Tarot deck has written a book about the tarot and the Maya Indians view of the world. Although the approach is new and deals with American knowledge it will serve all Tarot decks regardless of their origin. The reader journeys with the Fool towards the impeccability of the sorcerer with each step along the way clearly defined. The graphics alone are so spellbinding that even if you are not interested in the Mayas or the tarot there is something in this book for you.
