The Old French Fabliaux Anne Elizabeth Cobby, 2009. Concise accounts of editions and studies of the Old French fabliaux. The Old French fabliaux form a corpus of over 120 short comic verse narratives from the late twelfth to the early fourteenth centuries which has been the subject of very active work over the last thirty years building on continuous though less intensive interest over the previous century. There are many editions, a society and a journal devoted to fabliaux study but until now no bibliographical survey. The author of this analytical bibliography takes a wide view of the definition of the genre in French but does not include work primarily on Chaucerian fabliaux or those in other languages. Around 1 000 entries offer precise, well judged and well written accounts of work published in this area of study. From its first edition the purpose of Walford has been to identify and evaluate the widest possible range of reference materials. No rigid definition of reference is applied. In addition to the expected bibliographies, indexes, dictionaries, encyclopaedias and directories, a number of important textbooks and manuals of general practice are included. While the majority of the items are books, Walford is a guide to reference material. Thus periodical articles, microforms, online and CD ROM sources are all represented. In this volume a particular effort has been made to improve coverage of the latter two categories. **French XX Bibliography** Douglas W.
