G. Howe, 2019-02-21 The years 1780 to 1820 have long been seen as the Golden Age of the English satirical print This period witnessed a number of changes in style which had far reaching consequences including an increase in the effectiveness of the caricature as visual propaganda William Pitt the Younger and Charles James Fox were the leading politicians of the age continuing a family rivalry begun by their fathers They were amongst the most caricatured men of their time and became emblems of the two sides of the political debate whilst gathering personal followings based upon personality rather than filial or political patronage Fox and Pitt the Younger came to represent a more modern notion of the party leader in an age before formalized political parties and structures Neil Howe here shows how stock images came to the fore and examines the central role they played within the visual representation of politicians during the late eighteenth century His book also chronicles how the biggest political rivalry of the age played out within contemporary caricature from the emergence of Fox and Pitt as big political beasts in the wake of the American Revolution through the East India Bill Crisis Regency Crisis and French Revolution to the death of both men in 1806 Catalogue of the Scottish National Portrait Gallery ... London's National Portrait Gallery *The Face of Britain* weaves together an account of their composition framed by their particular moment of creation and in the process unveils a collective portrait of nation and its history. Portraits, Schama writes, have always been made with an eye to posterity. Commissioned to paint Winston Churchill in 1954, Graham Sutherland struggled with how to capture the savior of Great Britain honestly and humanely. Schama calls the portrait initially damned, the most powerful image of a Great Briton ever executed. Annie Leibovitz's photograph of a nude John Lennon kissing Yoko Ono, taken five hours before his murder, bears a weight of poignancy she could not possibly have anticipated. Hans Holbein's preparatory sketch for a portrait of Henry VIII depicts an unstoppable engine of dynastic generation. Here are expressions from across the centuries of normalcy and heroism, beauty and disfigurement, aristocracy and deprivation, the familiar and the obscure, the faces of courtesans, warriors, workers, activists, playwrights, the high and mighty as well as pub crawlers. Linking them is Schama's vibrant exploration of how their connective power emerges from the dynamic between subject and artist, work and viewer, time and place. Schama's compelling analysis and impassioned evocation of these works create an unforgettable verbal mosaic that at once reveals and transforms the images he places before us. Lavishly illustrated and written with the storytelling brio that is Schama's trademark, *The Face of Britain* invites us to look at a nation's visual legacies and find its reflection.

The national portrait gallery of illustrious and eminent personages, chiefly of the nineteenth century William Cooke Taylor, 1846 **Twenty-five Years of the National Art-Collections Fund, 1903-1928**

National Art-Collections Fund (Great Britain), Dugald Sutherland MacColl, 1928 *RMS Queen Mary* David Ellery, 2023-11-30. Probably the most famous and certainly one of the best loved ships in the world, the Cunard transatlantic liner RMS Queen Mary has now been preserved at Long Beach, California, as a floating hotel and tourist attraction for more than fifty years, comfortably longer than her 31-year career as an ocean liner. Laid down in 1930, Queen Mary's construction was severely delayed by the Great Depression. Eventually completed in 1936, the ship was an instant success, capturing the famous Blue Riband for the fastest crossing of the Atlantic later that year and regaining it in 1938. During the Second World War, she served as a troop ship, carrying a total of 810,730 troops and also setting the record for the most individuals carried in a single voyage, 16,683, which stands to this day. By the time she ceased passenger service in 1967, superseded by the airliner as the preferred mode for international travel, Queen Mary had carried nearly three million people, from royalty, politicians, and film stars to emigrants and cruise passengers. After her sale to the city of Long Beach, she underwent a major conversion for her new life as a visitor attraction, a role she has continued ever since. During this time, however, her story has been far from straightforward, with controversies over management, funding, and even the structural integrity of the very ship itself. She now remains the only 1930s superliner left in the world. The original edition of *RMS Queen Mary: The World's Favourite Liner* was published in 1994. This new and expanded edition has been completely revised and brought up to date to describe the ship's last twenty-five years and it incorporates a wealth of new photography. Lavishly produced and stunningly

illustrated throughout with views of the ship under construction at sea in her heyday and at rest in Long Beach it will appeal to all ocean liner enthusiasts and those more general readers fascinated by the heyday of transatlantic travel The Sphere
