Negotiating Arms Control Missed Opportunities And Limited Successes:

Historical Dictionary of Arms Control and Disarmament Jeffrey A. Larsen, James M. Smith, 2005-03-25 Historical Dictionary of Arms Control and Disarmament also provides information that is comprehensible to all readers Jeffrey A Larsen and James M Smith present a context for the broader range of international relations at a given point in time extending the utility of the dictionary beyond just a narrow examination of arms control BOOK JACKET

Negotiating Arms Control Kenneth W. Thompson, 1991-04-15 This is a book of contrasts Its contributors include both arms control negotiators and their critics Its content spans questions about the need for nuclear weapons and the urgency of arms limitation The authors are Republicans and Democrats One group emphasizes successes in the unending task of limiting weaponry while another points to the continuing use of nuclear weapons in establishing strategic stability and nuclear deterrence The virtue of a multi authored volume such as this one is that it helps readers understand apart from the misconceptions that partisan politics and thirty second sound bites foster the realities of the arms control process and negotiations leading to such agreements The analysis of differing approaches to negotiations Soviet and American is one of the unique aspects of this collection of essays It is surprising that not more has been written on the actual process and differing styles of arms negotiations The intent of the contributors is to help fill the void in these aspects of the arms limitation literature Negotiating Arms Control

Thompson, 1993 Attitudes towards arms control have undergone a shift from those that prevailed in the interwar period In the 1920s and 1930s several nations particularly the United States Britain and Japan met to negotiate limits to the arms race Often they approached such negotiations as allies or foes of particular nations and much was written about the alignment and realignment of nations This work examines the alliances that have affected the result of negotiations in the Cold War and post Cold War era Success and Failure in Arms Control Negotiations April Carter, 1989 Governments have been negotiating about disarmament or more limited forms of arms control for forty years Despite these negotiations weapons of increasing deadliness and sophistication continue to be developed Through the use of case studies of particular negotiations

Partial and Comprehensive Test Ban SALT I and II INF and START and MBFR CFE the book explores both the reasons for success and the obstacles leading to failure and assesses the importance of different types of explanation Dr Carter not only analyses the reasons why negotiations fail she also examines the conditions under which they are likely to succeed The result is a balanced comprehensive treatment of the problems and prospects for arms control

Multilateral Negotiations Fen Osler Hampson, Michael Hart, 1999-04-05 Political scientist Fen Osler Hampson with the assistance of trade specialist Michael Hart studies the component parts of the multilateral negotiation process to identify those factors making for success or failure The authors argue that multilateral negotiation is in essence a coalition building enterprise involving states nonstate actors and international organizations Among the questions they raise are How do issues get to the table in multilateral negotiations Who sits at the table and who composes the tiers of relevant stakeholders What are the procedures for managing complexity What are the obstacles strategic and psychological to reaching agreement Ranging from the 1963 Test Ban Treaty to the Climate Change Convention 1992 and the completion of the Uruguay Round of GATT 1993 individual case studies include discussions on security environmental and economic issues Of particular interest is the attention given to nongovernmental actors such as scientists and environmental groups like Greenpeace International in prenegotiation and negotiation phases
