Gilgamesh, Enkidu, and the Netherworld and the Sumerian Gilgamesh Cycle Alhena Gadotti, 2014-08-08

Alhena Gadotti offers a much needed new edition of the Sumerian composition Gilgamesh Enkidu and the Netherworld last published by Aaron Shaffer in his 1963 doctoral dissertation Since then several new manuscripts have come to light prompting not only a new edition of the text but also a re examination of the composition In this book Gadotti argues that Gilgamesh Enkidu and the Netherworld was the first not the last of the Sumerian stories about Gilgamesh She also suggests that a Sumerian Gilgamesh Cycle currently only attested in old Babylonian manuscripts ca 18th century BCE was in fact developed during the Ur III period ca 2100 2000 BCE Providing a new way to look at the Sumerian Gilgamesh stories this book is relevant not only to scholars of the ancient Near East but also to anyone interested in epic and epic cycle The Enigmatic Netherworld Books of the Solar-Osirian Unity John Coleman Darnell, 2004 In Egypt from the Old to the New Kingdom enigmatic texts were created on the basis of non standardized lists of characters and phonetic signs the exact principles of which are still unclear to this day For the first time this study examines in detail the three most comprehensive known inscription texts from the New Kingdom which were discovered in the tombs of Tutenchamun Ramses VI and Ramses IX Darnell shows that these three texts have a theological iconographic and formal connection and calls them collectively the Book of the Solar Osirian Unity Differentiated and lively he presents the content and theological peculiarities of these texts that deal with the afterlife with each other and in relation to other enigmatic texts of the new as well as the Middle and Old Kingdom

Primitive Conceptions of Death and the Nether World in the Old Testament Nicholas J. Tromp, 1969 This study intends to show how the application of the fruits of Ugaritic scholarship can make a valuable contribution to the study of Israelite conceptions about Death and the Hereafter In the first place this contribution is of a linguistic nature it attempts to use the results of philological research on the Ugaritic texts and its application to biblical literature Secondly it tries to obtain a better perspective of Israelite views on Death and the Beyond with the help of conceptions found in these texts This study is limited to mythical motives This limitation implies that the theme treated is Death and Sheol as the Israelite eschata The problems of immortality and resurrection are not discussed

The Sungod's Journey Through the Netherworld Andreas Schweizer, 2010 Schweizer guides the reader through the Amduat offering a psychological interpretation of its principal textual and iconographic elements He draws on Jungian archetypes to identify similar expressions about the afterlife in other world cultures

Reading the Way to the Netherworld Ilinca Tanaseanu-Döbler, Gabriela Ryser, 2016-12-05 The volume focuses on the various representations of the Beyond in later Antiquity a period of intense interaction and competition between various religious traditions and ideals of education The concepts and images clustering around the Beyond form a crucial focal point for understanding the dynamics of religion and education in later Antiquity Although Christianity gradually supersedes the pagan traditions the literary representations of the Beyond derived from classical literature and transmitted through the texts read at school show a remarkable persistence they influence Christian late antique writers and are still alive in medieval literature of the East and West A specifically Christian Beyond develops only

gradually and coexists subsequently with pagan ideas which in turn vary according to the respective literary and philosophical contexts Thus the various conceptualisations of the great existential unknown serves here as a point of reference for mirroring the changes and continuities in Imperial and Late Antique religion education and culture and opening up further perspectives into the Medieval world
