adjustments that must be incorporated in a new reformed theology focuses on how creation seems to have been designed
using the scientific insight of the last fifty years and shows how the universe is an interactive system designed to bring
humanity into a complex environment It seeks to reconcile science with Christian faith Radcliffe demonstrates how science
and the continuing quest for knowledge are God given gifts from a Creator who designed the universe and enables human
beings creative efforts to modify some portion of His design Science rather than opposing religion provides mankind with a
vehicle to appreciate just how dynamic His creation is and the humans role within it The Congregationalist and Christian
