Alkhateeb,2014-01-09 Islam has been one of the most powerful religious social and political forces in history Over the last 1400 years from origins in Arabia a succession of Muslim polities and later empires expanded to control territories and peoples that ultimately stretched from southern France to East Africa to South East Asia Yet many of the contributions of Muslim thinkers scientists and theologians not to mention rulers statesmen and soldiers have been occluded This book rescues from oblivion and neglect some of these personalities and institutions while offering the reader a new narrative of this lost Islamic history The Umayyads Abbasids and Ottomans feature in the story as do Muslim Spain the savannah kingdoms of West Africa and the Mughal Empire along with the later European colonization of Muslim lands and the development of modern nation states in the Muslim world Throughout the impact of Islamic belief on scientific advancement social structures and cultural development is given due prominence and the text is complemented by portraits of key personalities inventions and little known historical nuggets The history of Islam and of the world s Muslims brings together diverse peoples geographies and states all interwoven into one narrative that begins with Muhammad and continues to this day **Encounters: Medieval Islamic History in 50 Objects** Marcus Milwright,2025-10-27

This book consists of fifty case studies and offers an innovative approach to the study of Medieval Islamic history concentrating on the analysis of physical objects from the seventh to the eighteenth centuries and across most of the regions that make up the pre Modern Islamic world These include a wide range of objects from portable items like coins vessels and books to major constructions including mosques tombs castles dams and canal systems The central argument is that the interdisciplinary study of physical objects provides invaluable perspectives that can deepen or challenge the evidence in the written record Object based study can also shed light on the lives of social groups who are seldom discussed in Islamic texts written before the modern period To demonstrate these points each case study focusses on a single object or small group of related objects The case studies

combine close analysis of the material and visual characteristics with a discussion of the wider context in which such objects were commissioned made used adapted and exchanged The book is intended as an introduction to the historical study of Islamic objects employing perspectives from the fields of art history archaeology numismatics ethnography and epigraphy Written with a minimum of technical language and supported by a critical introduction an extensive glossary a timeline and guide for further reading the book is aimed at students and general readers who are interested in the political economic social cultural religious and intellectual histories of the Islamic world

God in Islamic Theology Mehmet Ozalp, 2023-05-15 Theology is a rational endeavor to understand everything about God from within a faith tradition and its scriptures and in response to problems posed by the conditions of a particular time and place God in Islamic Theology Tawhid in Classical Islamic Theology and Said Nursi s Risale i Nur engages and gleans classical and contemporary understandings on the central tenets of God in Islam The book makes a substantive contribution to Islamic Studies in four main ways First it grasps and justifies the use of the language and genre of theology in relation to scholarly efforts to relate Qur anic teachings about God to human understanding The development of Islamic theology and its evolving scope are explored to produce a fresh framework in the study of Islamic theology Second it directly addresses some of the challenges facing Islam including its multi layered theological positions and how these influence its internal coherence and its external relations especially with Abrahamic faith traditions and Western philosophy generally Third presenting a new understanding of Islamic epistemology it drives to the prime essential of Islamic theology in its attempting to prove the existence oneness and relatability of God Fourth it highlights and justifies the place of Said Nursi as an informed and theologically rigorous contemporary source in Islamic theology

The Muslim Majority Robin Hadaway, 2021-09-15 More than 70 percent of Muslims worldwide practice folk Islam a syncretistic mix of theologically orthodox Islam and traditional religious beliefs and practices The Muslim Majority is unlike many published works on evangelism to Muslims which argue for either apologetic or contextualized bridge approaches These approaches are often ineffective in reaching adherents of popular Islam Instead author and missiologist Robin Hadaway outlines a contextual approach that addresses the unique perspective of popular

Islam Hadaway explains the differences between folk Islam and orthodox Islam and explores best practices for reaching the vast majority of Muslims with the gospel of Jesus Christ Historical Dictionary of Islamic Fundamentalism Mathieu Guidère, 2017-09-20 After the rise of the Islamic State in the Middle East and the new geopolitical landscape in this region it is essential for the modern reader to understand the history that has allowed for and influenced these types of Islamic groups to form Historical Dictionary of Islamic Fundamentalism acts as a didactic resource that explains from the Islamic perspective the historical importance of the Islamic fundamentalist world This dictionary provides a comprehensive and thorough analysis of various groups events movements key figures and dogmas that have influenced contemporary Islamic fundamentalism A chronology spanning 600 years graphs of complex Islamic group associations and alliances and an Arabic to English glossary have all been included to facilitate a complete understanding of the nuances and generalities that have shaped this movement This second edition of Historical Dictionary of Islamic Fundamentalism also contains an introduction appendixes an extensive bibliography and more than 700 cross referenced entries on ideologies people events and movements of the 20th and 21st centuries **In Praise of Mixed Religion** William H. Harrison, 2014-05-01 When asked What religion do you follow the typical answer is to name a specific group or to respond None An increasing number of people however are intentionally combining elements from various religious heritages demonstrating that religions do not have firm boundaries nor are they purely distinct In Praise of Mixed Religion discusses the concept of syncretism the term for the mixing of religious perspectives The religious studies discipline has traditionally distinguished between two responses to syncretism a subjective view which treats syncretism as morally reprehensible and an objective view which treats it as a morally neutral phenomenon William Harrison adopts a third perspective the advocacy view which claims that mixing religions is a good and necessary process He cites countless examples such as Islam's transformative encounter with Greek thought from both history and recent years to show how religious traditions have gained theological and practical wisdom by borrowing key ideas beliefs and practices from outside their own movements By encouraging syncretism In Praise of Mixed Religion contests the hard boundaries between religious worldviews and presents a dramatic alternative for thinking and talking about religion
