Reclaiming Morality In America:

Reclaiming Morality in America William P. Murchison, 1994 Murchison argues that a religious reawakening is needed to cure such problems as drug abuse violent crime and domestic violence **My Concerns for America** Herbert W. Byrne, 2008-10 Since 1960 vast changes have taken place in our country During that period cultural changes were numerous some good and some bad This work refers to changes that give cause for grave concern including increase in crime child abuse abortion and disturbing developments in government all described and suggested solutions for them made Herbert W Byrne Ed D has worked in Christian ministry for over forty years serving as Pastor Evangelist classroom teacher and Sunday School lecturer in over thirty different denominations in the United States and Canada He is the author of more than twelve books in the field of Christian Education *Why Conservatives Tell Stories and Liberals Don't* David M Ricci, 2015-12-03 Why do conservatives tell stories Because it helps them win elections and assail liberal policies like health care reform and economic stimulus Why is important but the what and the how behind the stories that conservatives tell are equally interesting and in this new book David Ricci reveals all He shows how conservative activists and candidates tell many tales that come together to project a large scale story a cultural narrative a vision of what America is and what it should do to prosper socially economically and politically Liberals by contrast tend to look for theories rather than stories for mathematical explanations rather than theological axioms for data rather than anecdotes and for statistics rather than homilies The difference is paradoxical Liberals are unlikely to fashion sweeping narratives that capture the public's attention and commitment Yet conservatives may tell attractive stories like the ones that got us into Iraq that momentarily capture voter support but end up costing the country more than it can afford Get Off My Honor! Hans Zeiger, 2005 A Boy Scout defends the honor of the stalwart organization from the cultural onslaught threatening it America's Future , 1994

Politicians and Other Moral Amateurs William Murchison, 2016-04 William Murchison comments on Washington politicians public figures and other topics from a Main Street USA viewpoint He is a nationally syndicated opinion columnist for Creators Syndicate This is a collection of the very best of William Murchison from 2014 *How to Interpret History* Ron Hayhurst, 2007-11 History is indeed a mystery Even the Bible refers to history this way Differing interpretations of historical events abound as the past is subjected to scrutiny by archeologists anthropologists theologians educators historians politicians authors and film directors not to mention each of us as individuals All of this contributes to the mystery already inherent in the events But once we know what to look for in the pages of history it's a different story For those who find history confusing *How to Interpret History* is offered as relief This handbook offers a biblical framework of revealed and intended principles for interpreting history It seeks to answer the common criticism that we often cannot see the forest for the many trees Furthermore the principles offered here will help the reader interpret the economic political and cultural globalization that is occurring before our very eyes So much of the typical storyline of history seems far removed and totally

unrelated to that of the Bible Does this mean there is no connection Is the Bible storyline irrelevant Do we really believe God is providentially involved in human affairs Is God in control of the events that are happening in the world Are His purposes discoverable Are we sure God the Creator of all things intends for us to unravel the tapestry of history If so what tools do we have to discover the answers to these questions This handbook seeks to show the inseparable nature of interpretation and definition of history provide common viewpoints to the historical record identify power groups discuss the will and purpose of God in history explore five biblical principles for interpreting history and offer four essentials to good government demonstrated in history You will find this reading experience to be a doorway to understanding history modern politics nation making and the Bible Enjoy the adventure of discovery within these pages *Imagining America at War* Cynthia Weber, 2020-07-24 Ten films released between 9 11 and Gulf War II reflect raging debates about US foreign policy and what it means to be an American Tracing the portrayal of America in the films Pearl Harbor World War II We Were Soldiers and The Quiet American the Vietnam War Behind Enemy Lines Black Hawk Down and Kandahar episodes of humanitarian intervention Collateral Damage and In the Bedroom vengeance in response to loss Minority Report futurist pre emptive justice and Fahrenheit 9 11 an explicit critique of Bush s entire war on terror Cynthia Weber presents a stimulating new study of how Americans construct their identity and the moral values that inform their foreign policy This is not just another book about post 9 11 America It introduces the concept of moral grammars of war and explains how they are articulated Many Americans asked in the wake of 9 11 not only why do they hate us but what does it mean to be a moral America n and how might such an America n act morally in contemporary international politics This text explores how these questions were answered at the intersections of official US foreign policy and post 9 11 popular films It also details US foreign policy formation in relation to traditional US narratives about US identity who we think we were are who we wish we d never been who we really are and who we might become as well as in relation to their foundations in nationalist discourses of gender and sexuality This book will be of great interest to students of American Studies US Foreign Policy Contemporary US History Cultural Studies Gender and Sexuality Studies and Film Studies **From Darkness to Light** Berdj Kenadjian, 2006 From Darkness to Light is the true story of how two little known men guided by unseen celestial forces confronted and overcame overwhelming obstacles to create a new understanding of the root causes of world disorder and its bitter fruit of widespread anxiety *America on the Cusp of God'S Grace* Dennis G. Hurst, 2010-11-12 America on the Cusp of Gods Grace issues a rousing call for true Bible believing patriots to save America by reverting back to the august principles of our Founding Fathers With simple straightforward language Dennis G Hurst digs deep into the ideas and beliefs upon which the Republic was founded and then juxtaposes them with the sobering reality of today Hurst provides a history of the beginning of America from its seventeenth century colonies based on religious freedom to the Revolutionary Wars stunning impact on the world and to the Constitutional Conventions innovative ideas Hurst shows how faith in God guided the Founders during every

step of the process and compares and contrasts this history with the present state of American culture In addition he looks at the damaging effects of Islam on the United States and how it has brought about a decisive polarizing effect on ideologies today But Hurst doesnt stop with mere commentary and historical scholarship Instead he offers a blueprint for how God loving American citizens begin a revival in their country This includes a return to character leadership and integrity plus a steady focus on Christ True believers were this countrys founders true believers were its sustainers and true believers will be its rescuers even an America on the Cusp of Gods Grace

America's Education Deficit and the War on Youth Henry A. Giroux, 2013-04 America s latest war according to renowned social critic Henry Giroux is a war on youth While this may seem counterintuitive in our youth obsessed culture Giroux lays bare the grim reality of how our educational social and economic institutions continually fail young people Their systemic failure is the result of what Giroux identifies as four fundamentalisms market deregulation patriotic and religious fervor the instrumentalization of education and the militarization of society We see the consequences most plainly in the decaying education system schools are increasingly designed to churn out drone like future employees imbued with authoritarian values inured to violence and destined to serve the market And those are the lucky ones Young people who don t conform to cultural and economic discipline are left to navigate the neoliberal landscape on their own if they are black or brown they are likely to become ensnared by a harsh penal system Giroux sets his sights on the war on youth and takes it apart examining how a lack of access to quality education unemployment the repression of dissent a culture of violence and the discipline of the market work together to shape the dismal experiences of so many young people He urges critical educators to unite with students and workers in rebellion to form a new pedagogy and to build a new democratic society from the ground up Here is a book you won t soon forget and a call that grows more urgent by the day

Church,1995 **Reclaiming American Virtue** Barbara J. Keys Keys,2014-02-17 The American commitment to promoting human rights abroad emerged in the 1970s as a surprising response to national trauma In this provocative history Barbara Keys situates this novel enthusiasm as a reaction to the profound challenge of the Vietnam War and its aftermath Instead of looking inward for renewal Americans on the right and the left looked outward for ways to restore America's moral leadership Conservatives took up the language of Soviet dissidents to resuscitate the Cold War while liberals sought to dissociate from brutally repressive allies like Chile and South Korea When Jimmy Carter in 1977 made human rights a central tenet of American foreign policy his administration struggled to reconcile these conflicting visions Yet liberals and conservatives both saw human rights as a way of moving from guilt to pride Less a critique of American power than a rehabilitation of it human rights functioned for Americans as a sleight of hand that occluded from view much of America's recent past and confined the lessons of Vietnam to narrow parameters From world's judge to world's policeman was a small step and American intervention in the name of human rights would be a cause both liberals and conservatives could embrace

The Empty Church Thomas Reeves,1998-01-07 At a time when Americans are searching for spiritual and moral renewal millions of parishioners are abandoning the churches that once embodied the very values they seek The Empty Church offers the first cogent explanation of why this has occurred and tells what can be done about it Spiral Dynamics Prof. Don

Edward Beck,Christopher C. Cowan,2014-12-05 Spiral Dynamics introduces a new model for plotting the enormous economic and commercial shifts that are making contemporary business practice so complex and apparently fragmented Focusing on cutting edge leadership management systems processes procedures and techniques the authors synthesize changes such as Increasing cultural diversity Powerful new social responsibility initiatives The arrival of a truly global marketplace This is an inspiring book for managers consultants strategists and leaders planning for success in the business world in the 21st century

Do Ask, Do Tell Bill Boushka,2000-06-30 The original Bill of Rights sponsored largely by James Madison is now

about 210 years old Reinforced by the Fourteenth Amendment which eventually applied many of its provisions to the states it has served us well It is time to re evaluate our fundamental constitutional rights and to seriously consider their major renovation This is my central proposal Are we ready to trust ourselves as individuals with the personal responsibilities that go with rights When government defines personal moral values we tend to take less account for not only our own actions but also our own underlying values for those spiritual yearnings that make us all unique people who we are We tend to lose interest in speaking for ourselves and tend to leave moral judgments to experts who get paid to pass judgment on all of us I discuss a philosophy often called libertarianism of extremely restricted government I present it from the personal perspective of a gay man who grew up in a period of enormous change and migration toward cultural individualism My argument is intended for everyone but I provide my own detailed perspectives on many issues The parallel between draft deferments during the Vietnam era and the gays in the military battle today How close the gay community as we know it came to total catastrophe during the early days of AIDS crisis What the family values debate is really all about Volunteerism and social obligations and how both military service and parenting fit into these What discrimination is really all about How the Dont Tell mentality interferes with political and social debate in many areas Why equal rights for gays is important for everybody A science of personal growth and why libertarianism is good for personal growth **The Liberating Law** Beacon

Hill,1998-05-11 Discover true freedom in Christ through His unchanging law This study helps us understand using both the Old and New Testaments that the Ten Commandments are not words of condemnation but words of true liberation

Thomas Aquinas on Virtue Thomas M. Osborne Jr,2022-06-23 Thomas Aquinas produced a voluminous body of work on moral theory and much of that work is on virtue particularly the status and value of the virtues as principles of virtuous acts and the way in which a moral life can be organized around them schematically Thomas Osborne presents Aquinas s account of virtue in its historical philosophical and theological contexts to show the reader what Aquinas himself wished to teach about virtue His discussion makes the complexities of Aquinas s moral thought accessible to readers despite the differences between Thomas s texts themselves and the distance between our background assumptions and his The book will be valuable for scholars and students in ethics medieval philosophy and theology
