Reclaiming Capital Democratic Initiatives Community Development:

Reclaiming Capital Christopher Gunn, Hazel Gunn, 2018-08-06 Towns without nationally advertised fast food restaurants often eagerly await the day when the golden arches sprout next door to the local car dealership But what really happens to a community with the arrival of the uni burger Christopher Gunn and Hazel Dayton Gunn demonstrate that perhaps three quarters of the money a community spends at its burger emporium will leave the area Poor communities remain poor they assert because local capital tends to be drained off to financial centers corporate accounts and stockholders portfolios In keeping with ecologists injunction to think globally and act locally this imaginative book documents ways in which communities have counteracted constraints of the capitalist economic system and succeeded in promoting democratic control of their resources Taking as one example the local impact of a new McDonald s restaurant Gunn and Gunn first illustrate how capital potentially available for community development may be identified They then explore a variety of alternative institutions credit unions nonprofit corporations and consumers and workers cooperatives among others that serve to attract and retain resources foster growth and extend public control over the development process The authors also consider how grassroots activism for social change may be integrated with more conventional political practice Reclaiming Capital will be a vital resource for activists elected officials and others concerned with urban and regional planning

Getting Past Capitalism Cynthia

Kaufman, 2012-08-24 *Getting Past Capitalism* begins with a critique of the impacts of capitalism on human society and the environment. It looks in new ways at what capitalism is and at how it is reproduced. That investigation opens the door to fresh ways of looking at how to challenge it. Cynthia Kaufman looks at some fundamental questions about how capitalism comes to look like a system that is unbeatable and how people come to have desires that work to reinforce capitalism. Kaufman uses this analysis to develop ideas about how to challenge capitalism. She argues that rather than looking for the fulcrum point in a system that will make it able to be overthrown, we should try to understand what kinds of practices open more spaces for stopping the reproduction of capitalist processes and what kinds of structures need to be developed to make capitalism a less important part of our world. *Getting Past Capitalism* includes a critique of capitalism and presentation of alternatives to capitalism, many of which already exist. It explores strategies for developing and strengthening those alternatives.

Economic Representations David F. Ruccio, 2008-05-16 Why is there such a proliferation of economic discourses in literary theory, cultural studies, anti-sweatshop debates, popular music, and other areas outside the official discipline of economics? How is the economy represented in different ways by economists and non-economists? In this volume, scholars from a wide variety of disciplines and countries

The University as Urban Developer: Case Studies and Analysis David C.

Perry, Wim Wiewel, 2015-02-24 Integrating topics in urban development, real estate, higher education, administration, urban design, and campus landscape architecture, this is the first book to explore the role of the university as developer. Accessible and clearly written, and including contributions from authorities in a wide range of related areas, it offers a rich array of case studies and analyses that clarify the important roles that universities play in the growth and development of cities. The cases describe a host of university practices, community responses, and policy initiatives surrounding university real estate development. Through a careful blending of academic analysis and practical hands-on administrative and political information, the book charts new ground in the study of the university and the city.

Integrated Activism Alexis Zeigler, 2013-08-13

How do peak oil, climate change, and the limits of growth affect abortion rights, income equality, and civil liberty? In this impassioned treatise, author and activist Alexis Zeigler reveals the hidden connections between ecology, economics, politics, and social justice, and shows us how to use these connections to effect real, long-lasting change. Most activist movements, says Zeigler, suffer from a kind of tunnel vision in which the true causes and resulting side effects of the desired change are left unexamined, rendering the movements shortsighted and unaware of their own long-term fallout. We cannot effectively address our problems in isolation or with ecological blinders on. Instead, we must integrate our activism and ensure that all strategies and actions take into account the historically demonstrated fact that a society's environmental resources ultimately define its level of freedom, fairness, and financial equity. Packed with surprising facts and eye-opening arguments, *Integrated Activism* is a must-read not only for every serious activist but also for anyone looking for a solid, creditable philosophy and approach to

building a fairer freer more sustainable future **Going Local** Michael Shuman,2013-06-17 National drug chains squeeze local pharmacies out of business while corporate downsizing ships jobs overseas All across America communities large and small are losing control of their economies to outside interests Going Local shows how some cities and towns are fighting back Refusing to be overcome by Wal Marts and layoffs they are taking over abandoned factories switching to local produce and manufactured goods and pushing banks to loan money to local citizens Shuman details how dozens of communities are recapturing their own economies with these new strategies investing not in outsiders but in locally owned businesses
