Reclaiming Heimat Trauma And Mourning In Memoirs By Jewish Austrian Reemigres:

Survivors of Nazi Persecution Suzanne Bardgett, Christine Schmidt, Dan Stone, 2024-12-28 This volume contains thirteen selected papers from the seventh international Beyond Camps and Forced Labour conference held in London in January 2023. The geographical and methodological scope of the chapters ranging from postwar trials to survivors memoirs and former classmates letters from Greece to the Soviet Union France to Croatia indicates both the range encompassed by Holocaust Studies focus on the immediate postwar period and the expansion and flourishing of the discipline. The book examines the experiences of forced labourers postwar struggles to obtain restitution for stolen property the political and cultural activities of displaced persons trials of perpetrators and the emergence of survivors collective memory. With chapters on non Jewish forced labourers Roma and the care of Black youngsters by a noted Jewish refugee the book speaks to the international dimensions of the Holocaust and its effects and shows how postwar responses to the Nazi crimes shaped the world after 1945. The vast range of groups affected by the Nazis crimes found its echo in the postwar responses of many different constituencies and this volume highlights on the basis of cutting edge historical research why the turn to the aftermath of World War II and the Holocaust is so important a part of Holocaust Studies. *Reclaiming Heimat* Jacqueline Vansant, 2001 As a result their individual life stories reflect group experiences that are notably different from the collective memories of the general Austrian population. **Environments of Exile** Swen Steinberg, Helga Schreckenberger, 2024-12-09 Forced migration always takes place within specific cultural social political and spatial environments. This volume focuses on the interaction between those forced to migrate and their environments in the contexts of escape and exile from Nazi occupied Europe. Forced emigration from Nazi Germany was a global phenomenon that took refugees to regions they often knew very little about. Not only did they have to adapt to foreign cultures but also to unfamiliar natural environments that often exposed them to severe temperature conditions droughts rainy seasons and diseases. While some refugees prepared for the natural conditions of their exile destination others acquired environmental knowledge at their host countries or were able to adapt prior knowledge to the new environment. Consequently specific knowledge about the environment had a large influence on the forced migration experience. **Index to Jewish Periodicals**, 2005 An author and subject index to selected and American Anglo Jewish journals of general and scholarly interests. *American Book Publishing Record*, 2002.
