The book cover features a large, dark silhouette of a man's head in profile, facing right. Inside the head, a man in a dark suit stands on a dark, reflective surface, looking out over a vast, hazy landscape under a cloudy sky. The man's reflection is visible in the water. The title 'RECLAIMING MEN'S SPIRITUALITY' is written in white, bold, sans-serif capital letters across the middle of the head silhouette.

Reclaiming Spirituality:

Reclaiming Spirituality Diarmuid Ó Murchú, 1998 In this thought provoking and rambunctious follow up to Quantum Theology English priest and social psychologist Diarmuid O Murchu celebrates the spiritual renaissance of our time as an alternative to religious fanaticism and religious indifference He sees this phenomenon as part of the evolving spiritual story of humankind stretching back 70 000 years The spirituality that is appealing to seekers today embodies global inclusive co operative egalitarian and feminine values O Murchu outlines its linkage of the new cosmology with a respect for the natural world through the spirituality of native peoples He points out its embrace of pre patriarchal values of relatedness passion feeling imagination and justice Two other accents of this new paradigm are its emphasis upon the erotic power of spirituality and its reappropriation of the shadow in all its diverse dimensions Only time will tell what new permutations this global spirituality will take O Murchu has done a fine job mapping out its contemporary lineaments *Reclaiming Spirituality*

Diarmuid O. Murchú, 2007 **The New Spirituality** Gordon Lynch, 2007-04-27 Much attention has been given in recent writings about religion to fundamentalism and the religious right But less attention has been given to their opposite the emergence of a new generation of progressive religious thinkers and organisations on the religious left The New Spirituality is one of the first books to give a comprehensive and authoritative account of this burgeoning progressive religious movement It offers a clear and engaging analysis of the cultural roots key ideas and organisational structures of this new faith assessing its significance in the changing moral and religious landscape of contemporary western society Gordon Lynch argues that we are witnessing the rise of a new religious ideology which reveres the natural world connects religious faith with novel scientific theories and has a forward looking agenda for society s transformation The New Spirituality will be essential reading for students attempting to understand the shape of religious belief in the twenty first century
