To lay out the methodological and theoretical foundations for their study editors Olena Hankivisky Marina Morrow and Colleen Varcoe bring together an interdisciplinary group of scholars and practitioners from economics anthropology sociology nursing political studies women s studies and psychology Contributors draw on the rich history of the Canadian women's health movement providing analysis of that history and of the emergent theory policy and practice Aimed at undergraduate and graduate students as well as practitioners the collection adopts an intersectional approach looking closely at social factors such as gender race ethnicity class sexuality and gender identity and analysing how they relate both to each other and to women s health Connections between the social economic and cultural contexts of women's lives and their physical spiritual and mental well being are a primary focus Providing a much needed resource for teachers students and practitioners of women s health in Canada this comprehensive volume makes an Enjoying the Interval: Murray Enkin: A Life Kerreen M. Reiger, 2022-08-31 important contribution to the literature Anyone who has enjoyed the great happiness and intimacy of a family centred birth and any midwife or health professional who has attended one owes a debt of gratitude to internationally known Canadian doctor researcher and medical reformer Murray Enkin Enjoying the Interval takes on the fascinating joyful task of exploring Dr Enkin's identity and achievements along with the social context that shaped them It offers a critical assessment of the ongoing challenges in maternity care the field to which Enkin devoted his life but it is also the story of an immigrant Jewish family s contribution to Canadian society and the wider world Using archival sources and interviews the book traces Enkin s story from his birth in 1924 through his early young married life education and medical practice to his passionate championing of the emerging childbirth reform

movement and its influence Interweaving the personal and professional to provide insight into the man the times and the causes that shaped him it not only recognises Enkin's distinctive social contribution but also that of his family and colleagues It chronicles the highly personable Enkin's days as a med student awestruck by the courage and beauty of women in labour to his joyful life as a husband and father to his international impact as a practitioner academic and researcher and as an inveterate traveller Scholarly yet accessible it will prove of interest to professional and lay readers alike Enjoying the Interval is an account of an important social movement that shook the medical establishment but it s also a love story a travelogue and an entertaining portrait of a complex man who helped to change the world for the better Mennonite Women in Canada Marlene Epp, 2008 Marlene Epp explores women s roles as prescribed and as lived within the contexts of immigration and settlement household and family church and organizational life work and education and in response to social trends and events She questions how Mennonites dictate women s place within the church family and community and how women collectively and individually actually behave Epp found that in virtually all aspects of women s lives there exists a contradiction between behavioural ideals and practicalities She also found that their responses to dictates about their proper place ranged from acceptance to rebellion and almost always unsettled a clear delineation of their roles Using diaries oral histories church histories genealogies and memoirs Epp has painstakingly pieced together a rich and fascinating story of Canadian Mennonite women that deserves to be read by women and men everywhere R sum de l diteur Remote and Rural North, 1800-2000 J T H Connor, Stephen Curtis, 2015-10-06 This volume of thirteen essays focuses on the health and treatment of the peoples of northern Europe and North America over the course of the nineteenth and twentieth Complementary, Alternative, and Traditional Medicine Costanza Torri Jennie M. Health, and Nation Georgina D. Feldberg, 2003 This book examines North American women's engagement with their health systems and asks to what extent national citizenship has shaped women s health Authors provide a much needed analysis of the dynamic decades after 1945 when both Canada and the United States began using federal funds to expand health care access and biomedical research and authority reached new heights Midwest **Taking Medicine** Kristin

Burnett,2011-07-01 The buffalo hunter the medicine man and the missionary continue to dominate the history of the North American west even though historians have recognized women's role as both colonizer and colonized since the 1980s Kristin Burnett helps to correct this imbalance by investigating the convergence of Aboriginal and settler therapeutic regimes in the Treaty 7 region from the perspective of women Although the imperial eye focused on medicine men Aboriginal women played important roles as healers and caregivers and the knowledge and healing work of both Aboriginal and settler women brought them into contact But as settlement increased and the colonial regime hardened informal encounters in domestic spaces gave way to more formal one sided interactions in settler run hospitals and nursing stations By revealing Aboriginal and settler women's contributions to the development of health care in southern Alberta Taking Medicine challenges traditional understandings of colonial medicine and nursing in the contact zone
