reconsider everything you've read up until now about conventional healing. The new frequencies of healing described by Dr. Pearl transcend technique entirely and bring you to levels beyond those previously accessible to anyone anywhere. This book takes you on Dr. Pearl's journey from the discovery of his ability to facilitate healings to his well-deserved reputation as the instrument through which this process is being introduced to the world. But most important, *The Reconnection* reveals methods you can use to personally master these new healing energies.

**Beyond Therapy, Beyond Science** Schaef, Anne Wilson Schaef, 1994-06-01. With candor, compassion, and insight, Schaef convincingly explores and exposes the unspoken limitations of the scientific paradigm upon which this society is built and the frightening implications of a psychotherapy that is derived from that paradigm. She persuasively demonstrates that the field of psychotherapy as we know it not only cannot work, it works against us, supporting personal and societal addictions. She presents a new approach for healing the whole person that emerges from and supports a new scientific paradigm, one that allows us to not only heal ourselves but heal the planet as well.

**Science Confirms Reconnective Healing** Konstantin G. Korotkov, 2011-12-21. This book describes results of different experiments and clinical trials exploring the effects of Reconnective Healing. Experiments during three years demonstrated that sessions of Reconnection Healing had statistically significant positive influence on the functional state, humoral activity, physical condition, and reaction to loading for the group of people both immediately and in 10 days after the influence. This signifies a long-lasting effect of Reconnection Healing and its significance for people's health and well-being. Reconnective Healing does not invoke a relaxation response in the person but decreases both sympathetic and parasympathetic stimulation of the autonomic nervous system as observed when a person is in a state of emotional detachment, inner quiet, and heightened awareness of the flow of subtle energy. These physiological responses are compatible with the Reconnective Healing principle of sensing and kinesthetically interacting with energy fields as well as passively allowing the energy to flow through the body. One special effect of Reconnective Healing is structurization of Space in the auditorium, which affects all people present.

**Healing Our Deepest Wounds** Stanislav Grof, 2012. Dr. Grof's consciousness research over the last five decades has shown that the deepest roots of trauma often lie in experiences from birth or in events from human history that have not yet been resolved and are still active in the collective unconscious. This unresolved personal or collective history then expresses through an individual or group that has some connection to the earlier events. Traditional therapeutic approaches which focus only on events in the personal biography or tranquilizing medications do not access or heal these deeper wounds in the human psyche. From a more general perspective, Dr. Grof examines the broad problems of violence and greed in society and finds that the widespread fear and aggression between individuals and groups may also originate in large part from the unconscious acting out of unresolved historical traumas from the collective unconscious. The message of Dr. Grof and this book is, however, a hopeful one: there are approaches to therapy which utilize a specific non-ordinary state of consciousness which enables individuals, with support, to access and heal these deeper levels of trauma from

the personal and collective unconscious He has named this state of consciousness Holotropic a composite word which means oriented toward wholeness or moving in the direction of wholeness from the Greek holos whole and trepo trepein moving toward or in the direction of something Dr Grof describes various approaches to achieving this Holotropic state and using it for healing with his focus on Holotropic Breathwork which he developed with his partner Christina and psychedelic therapy which he pioneered in the 1950s and which is now experiencing a renaissance of clinical research for treatment of addictions and PTSD
