Reconsidering Drugs NA NA,2000-01-01 Lawrence Driscoll's fresh examination of the meaning of drugs from the Victorians to the present asks us to listen to historical and current voices whose positions on drugs are at variance with our truths Driscoll draws on the work of figures as diverse as William Burroughs Sigmund Freud Conan Doyle and Anna Kavan to shed light on different or silenced ways of talking about drugs and to offer us a historical counter memory The result of his work is to unsettle and disturb the familiar parameters that frame our discussion of drugs revealing that others are available positions which expose our own constructions as surprisingly limited

"Addiction and British Visual Culture, 1751-1919" Julia Skelly,2017-07-05 Highly innovative and long overdue this study analyzes the visual culture of addiction produced in Britain during the long nineteenth century The book examines well known images such as William Hogarth's *Gin Lane* 1751 as well as lesser known artworks including Alfred Priest's painting *Cocaine* 1919 in order to demonstrate how visual culture was both informed by and contributed to discourses of addiction in the period between 1751 and 1919 Through her analysis of more than 30 images Julia Skelly deconstructs beliefs and stereotypes related to addicted individuals that remain entrenched in the popular imagination today Drawing upon both feminist and queer methodologies as well as upon extensive archival research *Addiction and British Visual Culture 1751-1919* investigates and problematizes the long held belief that addiction is legible from the body thus positioning visual images as

unreliable sources in attempts to identify alcoholics and drug addicts Examining paintings graphic satire photographs advertisements and architectural sites Skelly explores such issues as ongoing anxieties about maternal drinking the punishment and confinement of addicted individuals the mobility of female alcoholics through the streets and spaces of nineteenth century London and soldiers use of addictive substances such as cocaine and tobacco to cope with traumatic memories following the First World War Drugs and the Politics of Consumption in Japan Judith Vitale, Miriam Kingsberg Kadia, Oleg Benesch, 2023-10-09 In early modern Japan upper status groups coveted pills and powders made of exotic foreign ingredients such as mummy and rhinoceros horn By the early twentieth century over the counter patent medicines and more alarmingly morphine had become mass commodities fueling debates over opiates in Japan's expanding imperial territories The fall of the empire and the occupation of Japan by the United States created conditions favorable for heroin use followed in time by glue sniffing and psychedelic mushroom ingestion By illuminating the neglected history of drugs this volume highlights both the transnational embeddedness and national peculiarities of the politics of consumption in Japan Contributors are Anna Andreeva Oleg Benesch William G Clarence Smith Hung Bin Hsu John Jennings Miriam Kingsberg Kadia William Marotti Kji Ozaki Jonas R egg Jes s Sol s Christopher W A Szpilman Judith Vitale and Timothy Yang Travel and Drugs in Twentieth-Century Literature Lindsey Michael Banco, 2013-01-11 This book examines the connections between two disparate yet persistently bound thematics mobility and intoxication and explores their central yet frequently misunderstood role in constructing subjectivity following the 1960s Emerging from profound mid twentieth century changes in how drugs and travel were imagined the conceptual nexus discussed sheds new light on British and North American responses to sixties counterculture With readings of Aldous Huxley William Burroughs Alex Garland Hunter S Thompson and Robert Sedlack Banco traces twin arguments looking at the ways travel is imagined as a disciplinary force acting upon the creative destabilizing powers of psychedelic intoxication and exploring the ways drugs help construct travel spaces and practices as at times revolutionary and at other times neo colonial By following a sequence of shifting understandings of drug and travel orthodoxies this book traverses fraught and irresistibly linked terrains from the late 1950s up to a period marked by international postmodern tourism As such it helps illuminate a world where tourism is continually expanding yet constantly circumscribed and where illegal drugs are both increasingly unregulated in the global economy and perceived more and more as crucial agents in the construction of human subjectivity The American Pipe Dream Max Shulman, 2022-06-15 The American Pipe Dream examines the many iterations of addiction as it was performed over the first half of the twentieth century working from a massive archive of previously ignored material Because the stage addict became the primary way the U S public learned about addiction and drug use Shulman argues that performance was essential in creating the addict in America's cultural imagination He demonstrates how modern day perceptions of addiction and of the addict emerge from a complex history of accumulation and revision that spanned the Progressive Era the Roaring Twenties

and the Great Depression Chapters look at how theatre film and popular culture linked the Chinese immigrant and opium smoking the early attacks on doctors for their part in the creation of addicts the legislation of addiction as a criminal condition the comic portrayals of addiction the intersection of Black jazz and drug cultures through cabaret performance and the linkage between narcotic inebriation and artistic inspiration The American Pipe Dream creates active connections between these case studies demonstrating how this history has influenced our contemporary understanding treatment and legislation of drug use and addiction

Playing Sick Meredith Conti, 2018-07-27 Few life occurrences shaped individual and collective identities within Victorian era society as critically as witnessing or suffering from illness The prevalence of illness narratives within late nineteenth century popular culture was made manifest on the period's British and American stages where theatrical embodiments of illness were indisputable staples of actors repertoires *Playing Sick Performances of Illness in the Age of Victorian Medicine* reconstructs how actors embodied three of the era's most provocative illnesses tuberculosis drug addiction and mental illness In placing performances of illness within wider medicocultural contexts Meredith Conti analyzes how such depictions confirmed or resisted salient constructions of diseases and the diseased Conti's case studies which range from Eleonora Duse's portrayal of the consumptive courtesan Marguerite Gautier to Henry Irving's performance of senile dementia in *King Lear* help to illuminate the interdependence of medical science and theatre in constructing nineteenth century illness narratives Through reconstructing these performances Conti isolates from the period's acting practices a lexicon of embodied illness a flexible set of physical and vocal techniques that performers employed to theatricalize the sick body In an age when medical science encouraged a gradual decentering of the patient from their own diagnosis and treatment late nineteenth century performances of illness symbolically restored the sick to positions of visibility and consequence
