Eighteenth-Century Britain Tim Mc Inerney,2023-09-07 *Nobility and the Making of Race in Eighteenth Century Britain* focuses on 18th century Britain and Ireland at a time when race theory as we know it today was steadily emerging in the realm of natural philosophy to examine the structural relationship between nobility and race This ground breaking book examines texts from the fields of naturalism political philosophy medicine and colonial venture as well as interrogating works of drama and literature in order to track how climate based understandings of human variety at this time became increasingly imbued with noble traditions of genealogical purity and hierarchies of descent This process the book argues allowed British naturalists and wider society to understand global populations according to an already familiar pattern of genealogical inequality and offered the proponents of race theory a ready made model of natural supremacy In this highly original and meticulously researched book Tim McInerney explains why nobility and race developed in the way they did and

how the premise of each promoted a certain idea of superiority The result is a necessary in depth understanding of how genealogical exclusivity works as a power strategy vital to students and scholars alike **Reconstructing the Black Past** Norma Myers,1996 **Historical Abstracts** ,1992 Vols 17 18 cover 1775 1914 *The Social Problem Novels of Frances Trollope* Brenda Ayres,2024-07-31 Frances Milton Trollope 1779 1863 was a prolific provocative and hugely successful novelist She greatly influenced the generation of Victorian novelists who came after her such as Charles Dickens George Eliot and Elizabeth Gaskell This book features Trollope s social problem novels **Research in African Literatures** ,1998
