Controlling Misbehavior in England, 1370-1600 Marjorie Keniston McIntosh, 2002-06-20 In this important study Professor McIntosh argues against the suggestion that social regulation was a distinctive feature of the decades around 1600 resulting from Puritanism Instead through an examination of 255 village and small town communities distributed throughout England Professor McIntosh demonstrates that concern with wrongdoing mounted gradually between 1370 and 1600 In an attempt to maintain good order and enforce ethical conduct local leaders prosecuted people who slandered or quarrelled with their neighbours engaged in sexual misdeeds operated unruly alehouses or refused to work Professor McIntosh also explores who the offenders were as well as the factors that led to misbehaviour and shaped responses to it More generally Professor McIntosh sheds light on the transition from medieval to early modern patterns and succeeds here in opening up little known sources and new research methods *The Heads of Religious Houses* David M. Smith, Vera C. M. London, 2001-08-09 This

book is a continuation of *The Heads of Religious Houses England and Wales 940-1216* edited by David Knowles C N L Brooke and Vera London which itself is reissued with substantial addenda by Professor Brooke This present volume continues the lists from 1216 to 1377 In this period further record sources have been provided by episcopal registers governmental enrolments court records and so on Full references are given for establishing the dates and outline of the career of each abbot or prior abbess or prioress when known The lists are arranged by order the Benedictine houses independent dependencies and alien priories the Cluniacs the Grandmontines the Cistercians the Carthusians the Augustinian canons the Premonstratensians the Gilbertine order the Trinitarian houses the Bonhommes and the nuns An introduction discusses the nature use and history of the lists and examines critically the sources on which they are based *After the Black Death* Mark Bailey, 2021-02-11 The Black Death of 1348-9 is the most catastrophic event and worst pandemic in recorded history After the Black Death offers a major reinterpretation of its immediate impact and longer term consequences in England After the Black Death reassesses the established scholarship on the impact of plague on fourteenth century England and draws upon original research into primary sources to offer a major re interpretation of the subject It studies how the government reacted to the crisis and how communities adapted in its wake It places the pandemic within the wider context of extreme weather and epidemiological events the institutional framework of markets and serfdom and the role of law in reducing risks and conditioning behaviour The government's response to the Black Death is reconsidered in order to cast new light on the Peasants Revolt of 1381 By 1400 the effects of plague had resulted in major changes to the structure of society and the economy creating the pre conditions for England's role in the Little Divergence whereby economic performance in parts of north western Europe began to move decisively ahead of the rest of the continent After the Black Death explores in detail how a major pandemic transformed society and in doing so elevates the third quarter of the fourteenth century from a little understood paradox to a critical period of profound and irreversible change in English and global history Uncollected Essays D. J. P. Goldberg, 2013-01-01 This collection of sources demonstrates the variety of evidence that survives of English women in all walks of life from the time of Edward I to the eve of the Reformation The sources are introduced by a substantial overview of
