Recovery from Addiction offers a concise reader friendly guide for substance dependent persons their families and friends to help make sense of the full range of available treatment options Book jacket      *Expanding Addiction: Critical Essays* Robert Granfield,Craig Reinerman,2014-12-09 The study of addiction is dominated by a narrow disease ideology that leads to biological reductionism In this short volume editors Granfield and Reinerman make clear the importance of a more balanced contextual approach to addiction by bringing to light critical perspectives that expose the historical and cultural interstices in which the disease concept of addiction is constructed and deployed The readings selected for this anthology include both classic foundational pieces and cutting edge contemporary works that constitute critical addiction studies This book is a welcome addition to drugs or addiction courses in sociology criminal justice mental health clinical psychology social work and counseling      *Women on Ice* Miriam Boeri,2013-01-15 Methamphetamine ice speed crystal shard has been called

epidemic in the United States Yet few communities were ready for increased use of methamphetamine by suburban women Women on Ice is the first book to study exclusively the lives of women who use the drug and its effects on their families In depth interviews with women in the suburban counties of one of the largest metropolitan areas in the U S chronicle the details of their initiation into methamphetamine the turning points into problematic drug use and for a few their escape from lives veering out of control Their life course and drug careers are analyzed in relation to the intersecting influences of social roles relationships social political structures and political trends Examining the effects of punitive drug policy inadequate social services and looming public health risks including HIV AIDS and hepatitis C the book gives voice to women silenced by shame Boeri introduces new and developing concepts in the field of addiction studies and proposes policy changes to more broadly implement initiatives that address the problems these women face She asserts that if we are concerned that the war on drugs is a war on drug users this book will alert us that it is also a war on suburban families      **The Quest for the Inner**

**Human** Steven H. Propp,2013-12-03 Psychology means the study of the soul it is the social science concerned with investigating who we are why we have certain feelings and why we do the things we do Are we no more than a vast assembly of nerve cells and their associated molecules Is biology our genetic inheritance destiny or does social upbringing play a crucial role What are the roles played by Nature and by Nurture Are we purely physical beings or is there an aspect that can be called spiritual This thought provoking novel takes you on a journey of intellectual and emotional exploration considering along the way questions that weve all asked ourselves such as Is it true that we only use 10% of our brains Does playing classical music for infants increase their intelligence Do crime rates go up during a full moon Can hypnosis or post hypnotic suggestions make us do something we wouldnt normally do Does subliminal advertising influence us to buy products Are our memories stored indelibly almost like a tape recorder What causes memory lapses as we age Can repressed traumatic

memories be recovered through hypnosis Do some people have multiple personalities How can I tell if someone has a neurosis or a psychosis Do men have an inner feminine side and women an inner masculine Are there innate psychological differences between males and females The four main characters in this book will guide you through a diverse and sometimes bewildering world of differing approaches to answering such questions such as Freudian Jungian and Adlerian Humanistic Existential and Transpersonal as well as Cognitive Emotive and Behaviorist Along the way you will learn about the developmental stages proposed by psychologists such as Erikson Kohlberg Piaget and Fowler and even explore some of the questions currently being asked by both neuroscientists and philosophers of the mind Start reading to begin your study of our innermost selves *American Book Publishing Record* ,2001 **The Publishers Weekly** ,2001 **Forthcoming**
