## **Recreating The World Word The Mythic Mode As Symbolic Discourse:**

**Recreating the World/Word** Lynda D. McNeil, 1992-07-01 This book combines interdisciplinary and comparatist approaches anthropology philosophy psychology and language in the investigation of the mythic mode of thought and language in the post Symbolist poets Arthur Rimbaud Georg Trakl Hart Crane and Charles Olson Part One covers the philosophical tradition from Gottfried Herder to Ernst Cassirer Part Two includes close analytical readings of individual poems by these authors as they enact the mythic mode The conclusion relates the mythic mode to feminist studies of thought and language

**Queer Natures, Queer Mythologies** Sam See, 2020-01-07 *Queer Natures Queer Mythologies* collects in two parts the scholarly work both published and unpublished that Sam See had completed as of his death in 2013 In Part I in a thorough reading of Darwin See argues that nature is constantly and aimlessly variable and that nature itself might be considered queer In Part II See proposes that understood as queer in this way nature might be made the foundational myth for the building of queer communities With essays by Scott Herring Heather Love and Wendy Moffat

**Refashioning Myth** David McInnis, Eric Parisot, Jessica Wilkinson, 2020-05-15 Robert Graves tells us that the poet's first enrichment is a knowledge and understanding of myths Certainly as this collection of essays poems and visual images affirms mythology has been a field richly mined by poets and artists from antiquity through to the present day It is testament to both the enduring power of myth as well as the adaptability of its form that poets and writers continually turn to the mythic for both inspiration and guidance This volume presents a diverse collection of analytical and creative works by scholars poets and visual artists in response to their varied explorations of the prolific dialogue that exists between myth and poetry

**Mis-reading the Creative Impulse** Adrianna M. Paliyenko, 1997 Building on work by Aristotle Jacques Lacan and Harold Bloom Adrianna M Paliyenko's richly textured study revises our previous understanding of Arthur Rimbaud's 1854-1891 indirect artistic influence on Paul Claudel 1868-1955 Paliyenko's analysis answers to critical readings that rely on speculative spiritual affinities and text surface similarities in identifying Claudel as Rimbaud's artistic follower She traces the two writers' development of the poetic subject striving to map Claudel's creative corrections or revisions of Rimbaud's work In redirecting discussion of Rimbaud's work she develops a Bloomian paradigm of how creative artists strive for originality by correcting or revising their predecessors

**The Poetics of Poesis** Felicia Bonaparte, 2016-01-11 Examining novels written in nineteenth century England and throughout most of the West as well as philosophical essays on the conception of fictional form Felicia Bonaparte sees the novel in this period not as the continuation of eighteenth century realism as has commonly been assumed but as a genre unto itself Determined to address the crises in religion and philosophy that had shattered the foundations by which the past had been sustained novelists of the nineteenth century felt they had no real alternative but to make the world anew Finding in the new ideas of the early German Romantics a theory precisely designed for the remaking of the world these novelists accepted Friedrich Schlegel's challenge to create a form that would render such a remaking

possible They spoke of their theory as poesis etymologically a making to distinguish it from the mimesis associated with realism Its purpose however was not only to embody as George Eliot put it in Middlemarch the idealistic in the real giving as faithful an account of the real as observation can yield but also to embody in that conception of the real a discussion of ideas that are its symbolic signification as Edward Bulwer Lytton described it in one of his essays It was to carry this double meaning that the nineteenth century novelist created Bonaparte concludes the language of mythical symbolism that came to be the norm for this form and she argues that it is in this doubled language that nineteenth century fiction must be read
