Warren, 2018-06-28 Recreations in Astronomy With Directions for Practical Experiments and Telescopic Work by Henry White Warren During all the ages there has been one bright and glittering page of loftiest wisdom unrolled before the eye of man That this page may be read in every part man's whole world turns him before it This motion apparently changes the eternally stable stars into a moving panorama but it is only so in appearance. The sky is a vast immovable dial plate of that clock whose pendulum ticks ages instead of seconds and whose time is eternity. The moon moves among the illuminated figures traversing the dial quickly like a second hand once a month The sun like a minute hand goes over the dial once a year Various planets stand for hour hands moving over the dial in various periods reaching up to one hundred and sixty four years while the earth like a ship of exploration sails the infinite azure bearing the observers to different points where they may investigate the infinite problems of this mighty machinery We are delighted to publish this classic book as part of our extensive Classic Library collection Many of the books in our collection have been out of print for decades and therefore have not been accessible to the general public The aim of our publishing program is to facilitate rapid access to this vast reservoir of literature and our view is that this is a significant literary work which deserves to be brought back into print after many decades The contents of the vast majority of titles in the Classic Library have been scanned from the original works To ensure a high quality product each title has been meticulously hand curated by our staff Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work We hope that you will enjoy this wonderful classic work and that for you it becomes an enriching experience **Recreations in Astronomy** Henry White Warren, 1895 RECREATIONS IN ASTRONOMY Henry White 1831-1912 Warren, 2016-08-27 **Recreations in** Astronomy.
