Recruiting People of Color for Teacher Education, 1993 **Proceedings of the National Association for Multicultural Education** Carl A. Grant, 2012-12-06 The National Association for Multicultural Education NAME held its 7th Annual Conference in 1997 with a theme of Daring to Educate for Equity and Excellence A Multicultural and Bilingual Mandate for the 21st Century The conference generated scholarship in the form of keynote speeches and conference papers and stimulating discussions among the membership The conference s southwest location of Albuquerque New Mexico provided an excellent back drop to discuss the interconnections between multicultural education and bilingual education as well as provide an opportunity for proponents of both of these important ideas to engage in useful and important discussions The essays comprised in this book capture much of the written record of the conference They convey ideas beliefs and research findings that were presented at the formal sessions at the conference Just as with NAME s previous proceedings it is expected that these proceedings will become not only a written record of the conference but a live curriculum to help pre K through college educators to prepare themselves and those they teach for the 21st century **After Civil Rights** John D. Skrentny, 2015-11-24 A provocative new approach to race in the workplace What role should racial difference play in the American workplace As a nation we rely on civil rights law to address this question and the monumental Civil Rights Act of 1964 seemingly answered it race must not be a factor in workplace decisions In After Civil Rights John Skrentny contends that after decades of mass immigration many employers Democratic and Republican political leaders and advocates have adopted a new strategy to manage race and work Race is now relevant not only in negative cases of discrimination but in more positive ways as well In today s workplace employers routinely practice racial realism where they view race as real as a job qualification Many believe employee racial differences and sometimes immigrant status correspond to unique abilities or evoke desirable reactions from clients or citizens They also see racial diversity as a way to increase workplace dynamism The problem is that when employers see race as useful for organizational effectiveness they are often in violation of civil rights law After Civil Rights examines this emerging strategy in a wide range of employment situations including the low skilled sector professional and white collar jobs and entertainment and media In this important book Skrentny urges us to acknowledge the racial realism already occurring and lays out a series of reforms that if enacted would bring the law and lived experience more in line yet still remain respectful of the need to protect the civil rights of all workers Speaking the Unpleasant Rudolfo Chavez Chavez, James O'Donnell, 1998-04-23 Discusses the issue of engagement and nonengagement of students in multicultural education programs Educating Culturally Responsive Teachers Ana Maria Villegas, Tamara Lucas, 2002-01-01 Provides a coherent framework for preparing teachers to work with a diverse student population **Teacher Education: Professionalism, social justice and teacher education** David Hartley, Maurice Whitehead, 2006 **Gifted Students and Inclusion** Sarah Schaffer, 1996 Contains journal articles and excerpts from books published

between 1993 and 1996 **Recruiting Black Biology Majors into STEM Education Careers** Salika A. Lawrence, Tabora A. Johnson, Chiyedza Small, 2023-12-06 This book addresses issues related to the recruitment preparation and retention of STEM teachers Focusing on recruitment specifically it explores the strategies used to introduce biology majors to the teaching profession increase their interest in teaching and support their transition into teaching Taking the Transformative and Innovative Practices in STEM Education TIPS program as a case study it draws upon a wide range of data sources to contextualize the experiences of program participants including reflections from participants and program staff pre and post surveys focus groups and annual interviews The authors present insights about their decision making and use the data to help create illustrative examples of the STEM majors of color who choose to pursue teaching and to explore why others decide not to pursue teaching It foregrounds the importance of recruiting STEM teachers of color for urban districts the role of culture and identity in the decision making process and the role played by professional development and mentoring With emphasis on recruiting STEM majors at a Predominantly Black Institution PBI the book ultimately provides strategies for increasing collaboration across departments supporting and mentoring students and addressing cultural and institutional barriers that STEM majors face when transitioning into teacher education As such it will appeal to STEM education and teacher education scholars as well as program directors deans of Schools of Education and deans of Schools of Science

Breaking the Class Ceiling David Haselkorn, Elizabeth F. Fideler, 1996 This report examines a grass roots movement for teacher diversity and development paraeducator pathways into teaching The desire to recruit a more diverse pool of teachers for urban schools and critical shortage areas has spurred a renewed interest in paraprofessional career opportunity programs The 149 paraeducator to teacher programs identified in a survey by Recruiting New Teachers are described in terms of program scope and purpose a profile of participants overcoming barriers to participation program models recruiting evaluating and tracing participants program budget and administration and outlook Sources of support for paraeducator to teacher programs include foundations federal and state sponsorship and teacher unions and paraprofessional associations The study suggests that the paraeducator to teacher programs are an important influence in diversifying the teacher workforce can be an important link between schools and communities and can raise skill levels and earning power of their participants A substantial bibliography is included The appendices include profiles of nine programs study methodology presentation of data from the program survey strategies to help paraeducators surmount barriers to career advancement and workshop topics for staff ND Men Educators of Color in U.S. Public Schools and Abroad Ashley N. Woodson, Travis J.

Bristol, 2023-12-11 This book reflects the diversity and possibility of critical research in education with an emphasis on the examination of the intersections of social identities for men teachers of color and the relationship between social identity and struggles for political and professional agency The authors address race and race inequality in education and provide a strong theoretical foundation for filling the empirical gap on men teachers of color by engaging in questions such as How do

critical considerations of the intersection of race gender and profession inform the future of teacher education What does it mean to be men or of color in the context of the teaching profession in the U S and abroad What are the aims of ethnoracial diversity in the field of education The research included in this edited volume explores topics including but not limited to men teachers of color and their perceived pathways to the profession their perceptions of and partnerships with colleagues of other genders their sexual and gendered identities and performances and how they embrace reject or negotiate the expectations of performing as a role model in classrooms Moreover the chapters provide explicit implications for teachers teacher educators university and PK 12 administrators education activists and or education policymakers In sum this volume charts a new landscape in education research for all men teachers of color The chapters in this book were originally published as a special issue of the journal *Race Ethnicity and Education* **Proceedings** National Association for Multicultural Education, 1999 Handbook of Research on Teacher Education Marilyn Cochran-Smith, Sharon Feiman-Nemser, D. John McIntyre, Kelly E. Demers, 2008-02-19 Co Published by Routledge Taylor Francis Group and the Association of Teacher Educators The Handbook of Research on Teacher Education was initiated to ferment change in education based on solid evidence The publication of the First Edition was a signal event in 1990 While the preparation of educators was then and continues to be the topic of substantial discussion there did not exist a codification of the best that was known at the time about teacher education Reflecting the needs of educators today the Third Edition takes a new approach to achieving the same purpose Beyond simply conceptualizing the broad landscape of teacher education and providing comprehensive reviews of the latest research for major domains of practice this edition stimulates a broad conversation about foundational issues brings multiple perspectives to bear provides new specificity to topics that have been undifferentiated in the past includes diverse voices in the conversation The Editors with an Advisory Board identified nine foundational issues and translated them into a set of focal questions What's the Point The Purposes of Teacher Education What Should Teachers Know Teacher Capacities Knowledge Beliefs Skills and Commitments Where Should Teachers Be Taught Settings and Roles in Teacher Education Who Teaches Who Should Teach Teacher Recruitment Selection and Retention Does Difference Make a Difference Diversity and Teacher Education How Do People Learn to Teach Who's in Charge Authority in Teacher Education How Do We Know What We Know Research and Teacher Education What Good is Teacher Education The Place of Teacher Education in Teachers Education The Association of Teacher Educators ATE is an individual membership organization devoted solely to the improvement of teacher education both for school based and post secondary teacher educators For more information on our organization and publications please visit www.ate1.org The Race Controversy in American Education Lillian Dowdell Drakeford Ph.D., 2015-07-28 In this unique two volume work expert scholars and practitioners examine race and racism in public education tackling controversial educational issues such as the school to prison pipeline charter schools school funding affirmative action and racialized curricula This work is built on the

premise that recent efforts to advance color blind race neutral educational policies and reforms have not only proven ineffective in achieving racial equity and equality of educational opportunities and outcomes in America s public schools but also exacerbated existing inequalities That point is made through a collection of essays that examine the consequences of racial inequality on the school experience and success of students of color and other historically marginalized populations Addressing K 12 education and higher education in historically black as well as predominantly white institutions the work probes the impact of race and racism on education policies and reforms to determine the role schools school processes and school structures play in the perpetuation of racial inequality in American education Each volume validates the impact of race on teaching and learning and exposes the ways in which racism manifests itself in U S schools In addition practical recommendations are presented that may be used to confront and eradicate racism in education By exposing what happens when issues of race and racism are marginalized or ignored this collection will prepare readers to resist and perhaps finally overcome the racial inequality that plagues America s schools
