Recueil des Cours, Collected Courses, Volume 196 (1986-I) Academie de Droit International de la Haye, 1987-03-03 Le Principe de Proximit dans le Droit international priv contemporain General course on private international law Paul Lagarde In the introduction to his general course on private international law Paul Lagarde Professor at the University of Paris I points out that private international law can be considered as a law of connections the most important question being that of the legal basis of the connections retained The author points out that in this respect there is at least one point of almost general agreement the affirmation of the necessity to arrive at a

reasonable regulation of the heterogeneous legal relationship From there on the paths begin to diverge separating notably the followers of Savigny on the one hand from the adepts of the American revolution on the other hand Nevertheless the idea that a legal relationship must be governed by the law of the country with which it maintains the closest connection and that it must be attached as much as possible to the nearest court of jurisdiction has been established in western Europe This is what the author calls the principle of proximity The author first of all examines this principle of proximity relating to conflict of laws before paying attention to conflicts of jurisdiction Choice of Law and Choice of Forum in Transnational Transfer of Technology Transactions Stanislaw Soltyski The objective of this course on Choice of Law and Choice of Forum in Transnational Transfer of Technology Transactions by Stanislaw Soltyski professor of the University Mickiewicz in Poznan is twofold First of all he analyses recent legal developments in the relevant fields on the basis of examples drawn from the systems of developed and developing countries The second objective of this course is to identify real socio economic rationales behind conflicting legal solutions Professor Soltyski devotes the first chapter to choice of laws and notably to its limitations and the second chapter to the choice of forum The Juridical Basis of a New International Order Rafael Caldera In his lecture given in The Hague on July 8th 1896 Rafael Caldera former president of Venezuela develops the topic of the juridical basis of a new international order that while promoting social justice will guarantee peace *Recueil Des Cours, Collected Courses, 1979* Hague Academy of International Law, 1980-03-01 **Collected courses of the Hague Academy of International Law** Hague Academy of International Law, 1993 **Recueil Des Cours, Collected Courses 1983** Académie de droit international de La Haye, 1984-01-31 The Academy is a prestigious international institution for the study and teaching of Public and Private International Law and related subjects The work of the Hague Academy receives the support and recognition of the UN Its purpose is to encourage a thorough and impartial examination of the problems arising from international relations in the field of law The courses deal with the theoretical and practical aspects of the subject including legislation and case law All courses at the Academy are in principle published in the language in which they were delivered in the *Collected Courses of the Hague Academy of International Law* *International Investment Law* Arnaud de Nanteuil, 2020-02-28 This comprehensive book provides a complete overview of the international legal system of foreign investment protection synthesising material from treaties general international law contracts and case law to demonstrate a coherent system of investment protection Through this systematic approach the book considers all aspects of the discipline providing a thorough and accessible analysis **Basic Documents on International Trade Law** Chia-Jui Cheng, 2012-04-27 Anyone involved in trade law knows the time consuming nature of obtaining primary source material and consulting each of the main trade laws Now in its fourth edition *Basic Documents in International Trade Law* solves this problem by assembling in a single easy to use resource a very comprehensive collection of the most important and frequently used documents on the law of international trade In addition to its obvious practical value this work reveals much about the

process of harmonization in international trade law and the operation of the key international trade bodies This makes the book a helpful reference for international business lawyers researchers legislators and government officials in the field Since the successful publication of the previous editions of the book the appearance of new conventions and model laws has considerably enriched the law of international trade and the present edition contains a wealth of new material The book has been substantially revised and several new instruments have been included Among the most significantly important improvements to this new edition are new chapters added to different parts of the book a redesigned and thoroughly revised Part 6 reflecting the expansion of intellectual property rights under the framework of treaties administered by World International Property Organization and bibliographies and other research resources updated and enlarged to include an extraordinarily rich collection of books and articles in many trading languages besides English including for the first time major Chinese works in the international trade law field As the late Prof Clive M Schmitthoff commented on the first edition the book is not only of practical usefulness but has also considerable jurisprudential value and reveals the methodology of the harmonization process in the area of international trade law The International Business Lawyer first commented in 1987 that the book can only be described as a vade mecum for every international business lawyer an assessment that now seems more merited than ever **University of Detroit Law Review** ,1984 *A Collection of the Scholarly Writings of Henry P.
