Red Earth Yellow Stone:

Red Earth, Yellow Stone Anne Campbell,1989 **River of the Red Earth People** Fred Cardin,2022-11-01 Wisconsin
1964 Andy Vincent's home in Falkirk is extremely dysfunctional. The environment becomes so oppressive he withdraws into his imagination and creates his own private world. His parents' madness inspires feelings of disgust and disbelief. Are love, freedom, joy, or sanity even possible? When he learns that Sara Roberts likes him, he finally has something real and hopeful, but their love lasts only for a year. Her father, an engineer at a paper mill, is transferred to Southern California. Andy is devastated when Sara moves away and realizes he can no longer remain at home. He buys a car and drives across the country to be with Sara, hoping to reclaim their love.

Published for the first time and augmented by extensive annotations Witness offers a rare participant's perspective on nineteenth and early twentieth century Lakota and Dakota life. The first of Waggoner's two manuscripts presented here includes extraordinary firsthand and as told to historical stories by tribal members such as accounts of life in the Powder River camps and at the agencies in the 1870s, the experiences of a mixed blood H'kpa'p'a girl at the first off reservation boarding school and descriptions of traditional beliefs. The second manuscript consists of Waggoner's sixty biographies of Lakota and Dakota chiefs and headmen based on eyewitness accounts and interviews with the men themselves. Together these singular manuscripts provide new and extensive information on the history, culture, and experiences of the Lakota and Dakota peoples.

Red Earth Bonnie Lynn-Sherow, 2004 Before the great Land Rush of 1889 Oklahoma territory was an island of wilderness home to one of the last tracts of biologically diverse prairie. In the space of a quarter century the territory had given over to fenced farmsteads with even the racial diversity of its recent past simplified. In this book Bonnie Lynn Sherow describes how a thriving ecology was reduced by market agriculture. Examining three central Oklahoma counties with distinct populations Kiowas, white settlers, and black settlers she analyzes the effects of racism, economics, and politics on prairie landscapes while addressing the broader issues of settlement and agriculture on the environment. Drawing on a host of sources oral histories, letters, and journals and agricultural and census records Lynn Sherow examines Oklahoma history from the Land Rush to statehood to show how each community viewed its land as a resource, what its members planted, how they cooperated, and whether they succeeded. Anglo settlers claimed the choice parcels, introduced mechanized farming, and planted corn and wheat; blacks tended to grow cotton on lands unsuited for its cultivation, and Kiowas strove to become pastoralists. Lynn Sherow shows that as each group vied for control over its environment its members imposed their own cultural views on the uses of nature and on the legitimacy of the other in their own relationship with the red earth. Lynn Sherow further reveals that racism, both institutionalized and personal, was a significant factor in determining how, where, by whom, and to what ends land was used in Oklahoma. She particularly assesses the impact of USDA policy on land use and by extension environmental and social change. As agricultural agents, railroads, and local banks encouraged white settlers to plant row crops and convert to market farms, they also discriminated against Indians and blacks. And as white settlers prospered they in turn altered the relationship of Indians and African Americans with the land. The transformation of Oklahoma Territory was a protracted power struggle with one people's relationship to the land rising to prominence while banishing the others from history. **Red Earth** provides a perceptive look at how Oklahoma quickly became homogenized, mirroring events throughout the West to show how culture itself can be a major agent of ecological change.
