engineering elaborate a vision of a future human type apt to exist under unprecedented conditions Red Square Black Square traces the process of totalitarian reduction of the modernist impulse into a rigid party doctrine It follows the turbulent development of Russian Modernism through its categorical arrest under the official doctrine of socialist realism Moscow s Red Square is examined as a primal communist space that manifests the symbolism of power Viewing communism as an aesthetically not economically motivated society the book enacts political aesthetics as a discipline that provides the fundamental tool for an adequate and thorough understanding of communism Todorov concludes by discussing the rise of nationalism in Eastern Europe as a post communist condition and the new mission of the intellectuals The Man in Red Square Bill Moody,2016
