Cinema in the Cold War Cyril Buffet, 2017-10-02 The film industry was an important propaganda element during the Cold War As with other conflicts the Cold War was fought not just with weapons but with words and images Throughout the conflict cinema was a reflection of the societies the ideologies and the political climates in which the films were produced On both sides great stars major companies famous scriptwriters and filmmakers were enlisted to help the propaganda effort It was not only propaganda that was created by the cinema of the Cold War it also articulated criticism and the movie industries were centres of the fabrication of modern myths The cinema was undoubtedly a place of Cold War confrontation and rivalry and yet there were aesthetic technical narrative exchanges between West and East All genres of film contributed to the Cold War thrillers westerns comedies musicals espionage films documentaries cartoons science fiction historical dramas war films and many more These films shaped popular culture and national identities creating vivid characters like James Bond Alec Leamas Harry Palmer and Rambo While the United States and the Soviet Union were the two main protagonists in this on screen duel other countries such as Britain Germany Poland Italy and Czechoslovakia also played crucially important parts and their prominent cinematographic contributions to the Cold War are all covered in this volume This book was originally published as a special issue of Cold War History **Anti-Communism in Twentieth-Century**

America Larry Ceplair, 2011-10-05 This compelling critical analysis of anti communism illustrates the variety of anti Communist styles and agendas thereby making a persuasive case that the threat of domestic communism in Cold War America was vastly overblown In the United States today communism is an ideology or political movement that barely registers in the consciousness of our nation Yet merely half a century ago communist was a buzzword that every citizen in our nation was aware of a term that connoted traitor and almost certainly a characterization that most Americans were afraid of **Anti Communism in Twentieth Century America A Critical History** provides a panoramic perspective of the types of anti communists in the United States between 1919 and the collapse of the Soviet Union It explains the causes and exceptional nature of anti communism in the United States and divides it into eight discrete categories This title then thoroughly examines the words and deeds of the various anti Communists in each of these categories during the three Red Scares in the past century The work concludes with an unapologetic assessment of domestic anti communism This book allows readers to more fully comprehend what the anti communists meant with their rhetoric and grasp their impact on the United States during the 20th century and beyond for example how anti communism has reappeared as anti terrorism **The Routledge Handbook of the Cold War** Artemy M. Kalinovsky, Craig Daigle, 2014-06-05 This new Handbook offers a wide ranging

Thomas L. Sakmyster, 2011 The author traces Peters's activities from his arrival in the United States to the dawn of the Cold War and his deportation back to Hungary Known as the Hungarian man of mystery Peters emigrated to the United States in 1924 after serving in the Austrian Army during World War I In America he oversaw a false passport operation that facilitated the movement of Soviet agents to the United States and American communists to the Soviet Union Working under a number of aliases he constructed a complex network of informants and spies that stole numerous State Department documents in the 1930s After years of hiding underground he was arrested and deported in 1949 The author reveals Peters to be not just the influential leader of conspiratorial Communist activities but also an organizer in the open American Communist party The author of a handbook on Communism Peters also set up a program to infiltrate the armed forces in the United States

Politics and Film Daniel P. Franklin, 2016-07-18 *Politics and Film* examines popular movies and television shows as indicators of social and political trends to explore the political culture of the United States Updated to include the popular and controversial movies and shows American Sniper House of Cards Orange Is the New Black and Twelve Years a Slave the second edition investigates popular conceptions of government the military intelligence and terrorism punishment and policing providing valuable insights for students of film and American politics alike *The Cold War in Science Fiction: Soviet and American Science Fiction Films in the 1950s* Natalia Voinova, 2013-06-01 This study will compare the USSR and the United States according to their cinematic use of science fiction in the late 1950s and 1960s in order to coincide with the period of de Stalinisation and thaw in the USSR and late McCarthyism in the United States The genre provides an opportunity to express the two powers scientific stand off through fiction and serves as a vehicle for the dissemination of ideas and propaganda Post 1956 marks the time when the period of de Stalinisation officially began and science fiction saw a

carefully crafted rebirth for it served as a tool that could reflect the socialist ideal and quasi religious faith in science that was promoted by the party Science fiction uniquely demands for an imaginative view of the future and therefore corresponds with the Marxist Leninist future oriented ideology For this period the themes for American science fiction are hyperbolised monsters and invasion and reflect the fear of the otherness of the Soviet Union and its threat on domestic ideals These themes are reflected in movies as *Angry Red Planet* and *Them* On the other hand Soviet science fiction movies focus on the heroic Soviet man who frequently receives calls for help from outer space and overcomes great trials to save those not living in utopia This storyline is represented in *Towards a Dream* and *The Sky is calling* The author gives special attention to the Soviet movie *The Sky is calling* and the subsequent redubbed American version *Battle beyond the Sun* Further she addresses alterations or plot and subtle propaganda messages in the Soviet movies *Planet of Storms* and the Hollywood remake *Journey to the Prehistoric Planet*

Cinematic Cold War Tony Shaw, Denise Jeanne Youngblood, 2010 The first book length survey of cinema s vital role in the Cold War cultural combat between the U S and the USSR Focuses on 10 films five American and five Soviet both iconic and lesser known works showing that cinema provided a crucial outlet for the global debate between democratic and communist ideologies

The Conservative Century Gregory L. Schneider, 2009-11-16 This concise history focuses on the development of American conservatism in the twentieth century up to the present Gregory L Schneider traces the course of a once reactionary movement opposed to progressive reform and the New Deal and describes how it came to advance alternative policies and programs that revolutionized the shaping of domestic politics foreign policy and economic policy Along the way he profiles such influential thinkers as William F Buckley Frank Meyer Henry Regnery and Barry Goldwater He also details how the decline of liberalism after the 1960s helped conservatives gain political power and how their energized activism and organization culminated in the election of Ronald Reagan in 1980 Schneider also describes how the

years since the Reagan Revolution have been decidedly mixed for American conservatives McCarthyism Jonathan Michaels, 2017-04-21 In this succinct text Jonathan Michaels examines the rise of anti communist sentiment in the postwar United States exploring the factors that facilitated McCarthyism and assessing the long term effects on US politics and culture McCarthyism The Realities Delusions and Politics Behind the 1950s Red Scare offers an analysis of the ways in which fear of communism manifested in daily American life giving readers a rich understanding of this era of postwar American history Including primary documents and a companion website Michaels text presents a fully integrated picture of McCarthyism and the cultural climate of the United States in the aftermath of the Second World War **Robert Rossen** Alan Casty, 2013-03-13 This book calls for a re evaluation of the films of Robert Rossen Over a 30 year period he was the most accomplished writer and director who was also a longtime member of the Communist Party but his achievement has not been recognized his films have been belittled or ignored his legacy denied Rossen s films reflected his times and the American scene with a dramatic intensity and personal expression unmatched by any other filmmaker of the period The stages of his political journey from idealism about Communism to his rebellion against the Party s betrayal of those ideals influenced the rendering of his concerns and themes the flaws of human nature the complexities of motives the paradoxes of betrayal personal and political Yet Rossen testified against his fellow filmmakers and so his morals and character have been denounced his work diminished as fatally marred by his moral flaws The opposite is true Here is a thorough analysis of each of his 22 films and their place in the developing themes of his body of work It integrates this study of the films with a documented narrative of his relationship to the Party its history and conflicts its duplicities especially the relations of the Party and its followers to the oppressions of the Soviet Union And so it challenges the validity of the conventional wisdom about the moral issues of the blacklist period **The Marxist and the Movies** Larry Ceplair, 2007-11-16 As part of its effort to expose Communist infiltration in the United States and eliminate Communist influence on movies from 1947 1953 the House Committee on Un American Activities subpoenaed hundreds of movie industry employees suspected of membership in the Communist Party Most of them including screenwriter Paul Jarrico 1915 1997 invoked the Fifth Amendment and refused to answer questions about their political associations They were all blacklisted In The Marxist and the Movies Larry Ceplair narrates the life movie career and political activities of Jarrico the recipient of an Oscar nomination for his screenplay for Tom Dick and Harry 1941 and the producer of Salt of the Earth 1954 one of the most politically besieged films in the history of the United States Though Jarrico did not reach the upper echelon of screenwriting he worked steadily in Hollywood until his blacklisting He was one of the movie industry s most engaged Communists working on behalf of dozens of social and political causes Song of Russia 1944 was one of the few assignments that allowed him to express his political beliefs through his screenwriting craft Though MGM planned the film as a conventional means of boosting domestic support for the USSR a wartime ally of the United States it came under attack by a host of anti Communists Jarrico fought the blacklist in many ways

and his greatest battle involved the making of *Salt of the Earth* Jarrico other blacklisted individuals and the families of the miners who were the subject of the film created a landmark film in motion picture history As did others on the blacklist Jarrico decided that Europe offered a freer atmosphere than that of the cold war United States Although he continued to support political causes while living abroad he found it difficult to find remunerative black market screenwriting assignments On the scripts he did complete he had to use a pseudonym or allow the producers to give screen credit to others Upon returning to the United States in 1977 he led the fight to restore screen credits to the blacklisted writers who like himself had been denied screen credit from the late 1940s to the mid 1960s Despite all the obstacles he encountered Jarrico never lost his faith in the progressive potential of movies and the possibility of a socialist future *The Marxist and the Movies* details the relationship between a screenwriter's work and his Communist beliefs From Jarrico's immense archive interviews with him and those who knew him best and a host of other sources Ceplair has crafted an insider's view of Paul Jarrico's life and work placing both in the context of U S cultural history

Frank G Tinker Jr a U S Naval Academy graduate Class of 1933 flew in combat with Soviet airmen during the Spanish Civil War 1936-39 Flying with the Spanish Republican Air Force he was the top American ace during the Spanish Civil War This biography deals with his experience in combat culminating with Tinker commanding a Soviet squadron and terminating his contract with the government of Spain After returning to the United States he wrote a memoir about fighting for Republican Spain and later died under mysterious circumstances in Little Rock in June 1939 While there have been other books about the air war during the Spanish Civil War this book differs from the preceding ones on two counts First it is the complete biography of a most colorful and uncommon young man based not only on his memoir but on Tinker family papers and his own personal records Through sheer perseverance he rose from a teenage enlisted seaman through the U S Naval Academy to the officer's wardroom then pressed on to claim the wings of a naval aviator and become a superlative fighter pilot and a published author More unusual still he possessed extraordinary people skills skills that allowed him to deal and move with relative ease among Navy compatriots foreign combat pilots left wing literati in Madrid and Paris and the rural folk of Arkansas Mississippi and Louisiana who embraced him as one of their own While in Spain Tinker socialized with Ernest Hemingway Robert Hale Merriman the leader of the American Volunteers of the Lincoln Brigade and his successor Milton Wolff who led the 15th International Brigade during the Battle of the Ebro All this he managed before his death at age twenty nine Second the book focuses on the aerial tactics introduced in the Spanish Civil War that became standard military practice a few years later in World War II Included are descriptions of the German introduction of the Finger Four fighter formation that replaced the V of three or four formation then in vogue the first use of military airlift to move large numbers of troops and equipment into combat the greater accuracy and destructiveness of dive bombers vice high altitude bombers perfection of the silent approach used by high altitude bombers before the introduction of radar early warning and air intelligence

subsequent cost in lives of hundreds of high altitude bomber aircrews in Europe in World War II **Channeling the Past** Erik Christiansen,2013-03-15 After the turmoil of the Great Depression and World War II Americans looked to the nation s more distant past for lessons to inform its uncertain future By applying recent and emerging techniques in mass communication including radio and television programs and commercial book clubs American elites working in media commerce and government used history to confer authority on their respective messages With insight and wit Erik Christiansen uncovers in Channeling the Past the ways that powerful corporations rewrote history to strengthen the postwar corporate state while progressives communists and other leftists vied to make their own versions of the past more popular Christiansen looks closely at several notable initiatives CBS s flashback You Are There program the Smithsonian Museum of American History constructed in the late 1950s the Cavalcade of America program sponsored by the Du Pont Company the History Book Club and the Freedom Train a museum on rails that traveled the country from 1947 to 1949 exhibiting historic documents and flags including original copies of the U S Constitution and the Magna Carta It is often said that history is written by the victors but Christiansen offers a more nuanced perspective history is constantly remade to suit the objectives of those with the resources to do it He provides dramatic evidence of sophisticated calculations that influenced both public opinion and historical memory and shows that Americans relationships with the past changed as a result **Hollywood's**

Cold War Tony Shaw,2007 Published at a time when American filmmakers are deeply involved in the War on Terror this authoritative and timely book offers the first comprehensive account of Hollywood s propaganda role during the defining ideological conflict of the 20th century the Cold War **Hollywood Left and Right** Steven J. Ross,2011-09-06 In Hollywood Left and Right Steven J Ross tells a story that has escaped public attention the emergence of Hollywood as a vital center of political life and the important role that movie stars have played in shaping the course of American politics Ever since the film industry relocated to Hollywood early in the twentieth century it has had an outsized influence on American politics Through compelling larger than life figures in American cinema Charlie Chaplin Louis B Mayer Edward G Robinson George Murphy Ronald Reagan Harry Belafonte Jane Fonda Charlton Heston Warren Beatty and Arnold Schwarzenegger Hollywood Left and Right reveals how the film industry s engagement in politics has been longer deeper and more varied than most people would imagine As shown in alternating chapters the Left and the Right each gained ascendancy in Tinseltown at different times From Chaplin whose movies almost always displayed his leftist convictions to Schwarzenegger s nearly seamless transition from action blockbusters to the California governor s mansion Steven J Ross traces the intersection of Hollywood and political activism from the early twentieth century to the present Hollywood Left and Right challenges the

commonly held belief that Hollywood has always been a bastion of liberalism The real story as Ross shows in this passionate and entertaining work is far more complicated First Hollywood has a longer history of conservatism than liberalism Second and most surprising while the Hollywood Left was usually more vocal and visible the Right had a greater impact on American political life capturing a senate seat Murphy a governorship Schwarzenegger and the ultimate achievement the Presidency Reagan *Hang 'Em High* Bob Herzberg, 2013-09-11 For more than a century the Western film has proven to be an enduring genre At the dawn of the 20th century in the same years that *The Great Train Robbery* begat a film genre Owen Wister wrote *The Virginian* which began a new literary genre From the beginning both literature and film would usually perpetuate the myth of the Old West as a place where justice always triumphed and all concerned except the villains pursued the Law The facts however reflect abuses of due process lynch mobs and hired gunslingers rather than lawmen regularly pursued lawbreakers vengeance rather than justice was often employed and even in courts of law justice didn't always prevail Some films and novels bucked this trend however This book discusses the many Western films as well as the novels they are based on that illustrate distortions of the law in the Old West and the many ways most of them marked by vengeance in which its characters pursued justice *The Cinematic Challenge: Filming Colonial America* John P. Harty, Jr. , 2016 Why did cinema largely ignore the colonial era and the Revolutionary War The Cinematic Challenge asks this question and studies four films from the 1930s and 1940s to consider other queries such as How did Darryl F Zanuck make a film about the American Revolution *Drums Along The Mohawk* without indicating that the British were the enemy Why was *Northwest Passage* never completed How did Cecil B DeMille begin production on a film *Unconquered* based on a book that did not yet exist In addition we'll learn how accurate the depictions of colonial life were in each film and whether the political and economic climate affected the finished products Volume one of *The Cinematic Challenge* also includes information about the general state of the film industry during this period technological advancements and rival theories about historical filmmaking making it the most in depth resource available today on colonial movies
