Red Barcelona Social Protest And Labour Mobilisation In The Twentieth Century:

Red Barcelona Angel Smith,2002 As one of Europe s great industrial and revolutionary centres Barcelona has been in need of a detailed social and cultural history yet there is actually a paucity of detailed research This book redresses the balance Focusing on the entire twentieth century it allows for the emergence of long term trends and deals with both classic and newer themes of labour history This novel and authoritative work will interest not only those working on Spain but all scholars and students of comparative history Democracy, Trade Unions and Political Violence in Spain Richard Purkiss,2011 Drawing on a range of previously underused primary sources this title shows that not only was Valencia a hugely important source of anarchist support but that the local movement was far more radical than has previously been thought *Red Barcelona* Angel Smith,2003-08-27 As one of Europe s great industrial and revolutionary centres Barcelona has been in need of a detailed social and cultural history yet there is actually a paucity of detailed research This book redresses the balance Focusing on the entire twentieth century it allows for the emergence of long term trends and deals with both classic and newer themes of labour history This novel and authoritative work will interest not only those working on Spain but all scholars and students of comparative history **Historical Geographies of Anarchism** Federico Ferretti, Gerónimo Barrera de la Torre, Anthony Ince, Francisco Toro,2017-07-14 In the last few years anarchism has been rediscovered as a transnational cosmopolitan and multifaceted movement Its traditions often hastily dismissed are increasingly revealing insights which inspire present day scholarship in geography This book provides a historical geography of anarchism analysing the places and spatiality of historical anarchist movements key thinkers and the present scientific challenges of the geographical anarchist traditions This volume offers rich and detailed insights into the lesser known worlds of anarchist geographies with contributions from international leading experts It also explores the historical geographies of anarchism by examining their expressions in a series of distinct geographical contexts and their development over time Contributions examine the changes that the anarchist movement s sought to bring out in their space and time and the way this spirit continues to animate the anarchist geographies of our own perhaps often in unpredictable ways There is also an examination of contemporary expressions of anarchist geographical thought in the fields of social movements environmental struggles post statist geographies indigenous thinking and situated cosmopolitanisms This is valuable reading for students and researchers interested in historical geography political geography social movements and anarchism The Foundations of Civil War Francisco J. Romero Salvado,2016-04-29 This book analyzes the decay of Liberal politics in Spain as the regional version of the general crisis that engulfed most of Europe between 1916 and 1923 Romero enriches the important wider debate about this watershed period of European history when in the face of unprecedented mass social protest and political mobilization incumbent governing elites struggled to find a valid formula of social containment in the dawning of mass politics which also saw the spread of the radical new doctrines of Bolshevism and Fascism Above all this book examines

Spain's crisis of modernization a process marked by complex social and political realignments through which the nature of civil society was profoundly altered. It resulted in an unprecedented spiral of violence and a polarization that firstly led to an authoritarian formula of social control in 1923 and ultimately to the outbreak of civil war in 1936.

Inventing the Recording Eva Moreda Rodríguez, 2021 *Inventing the Recording* focuses on the decades in which recorded sound went from a technological possibility to a commercial and cultural artefact. Through the analysis of a specific and unique national context, author Eva Moreda Rodríguez tells the stories of institutions and individuals in Spain and discusses the development of discourses and ideas in close connection with national concerns and debates, all while paying close attention to original recordings from this era. The book starts with the arrival in Spain of notices about Edison's invention of the phonograph in 1877, followed by the first demonstrations of the invention 1878-1882 by scientists and showmen. These demonstrations greatly stimulated the imagination of scientists, journalists and playwrights who spent the rest of the 1880s speculating about the phonograph and its potential to revolutionize society once it was properly developed and marketed. The book then moves on to analyse the traveling phonographs and salones fonográficos of the 1890s and early 1900s, with phonographs being paraded around Spain and exhibited in group listening sessions in theatres, private homes and social spaces pertaining to different social classes. Finally, the book covers the development of an indigenous recording industry dominated by the so-called gabinetes fonográficos, small businesses that sold imported phonographs, produced their own recordings and shaped early discourses about commercial phonography and the record as a commodity between 1896 and 1905.

The Battle against Anarchist Terrorism Richard Bach Jensen, 2014 The first global history of the secret diplomatic and police campaign against anarchist terrorism from 1880 to the 1920s.

Cities, Nationalism and Democratization Scott A. Bollens, 2007-04-11 Filling a gap in the peacemaking and conflict literatures market and including a set of over 100 interviews with local political and community leaders, this book will be helpful to scholars, international organizations and grassroots organizations.

Class, Culture and Conflict in Barcelona, 1898-1937 Chris Ealham, 2004-03-01 This book investigates urban conflict, popular protest and social control in Barcelona during the period 1898-1937. Focusing upon the sources of anarchist power in the city and the role of the organised anarchist movement during the Second Republic, the volume concludes with an analysis of the decline of the power of the anarchist movement during the civil war in its identification of the local conditions that made Barcelona into the capital of European anarchism.

Barcelona: An Urban History of Science and Modernity, 1888-1929 Oliver Hochadel, Agustí Nieto-Galan, 2016-04-14 The four decades between the two Universal Exhibitions of 1888 and 1929 were formative in the creation of modern Barcelona. Architecture and art blossomed in the work of Antoni Gaudí and many others. At the same time, social unrest tore the city apart. Topics such as art nouveau and anarchism have attracted the attention of numerous historians. Yet the crucial role of science, technology and medicine in the cultural makeup of the city has been largely ignored. The ten articles of this book recover the richness and complexity of the scientific culture of end

of the century Barcelona The authors explore a broad range of topics zoological gardens natural history museums amusement parks new medical specialities the scientific practices of anarchists and spiritists the medical geography of the urban underworld early mass media domestic electricity and astronomical observatories They pay attention to the agenda of the bourgeois elites but also to hitherto neglected actors users of electric technologies and radio amateurs patients in clinics and dispensaries collectors and visitors of museums working class audiences of public talks and female mediums Science technology and medicine served to exert social control but also to voice social critique Barcelona An urban history of science and modernity 1888 1929 shows that the city around 1900 was both a creator and facilitator of knowledge but also a space substantially transformed by the appropriation of this knowledge by its unruly citizens **An International History of**

Terrorism Jussi M. Hanhimäki, Bernhard Blumenau, 2013 The aim of this book is to provide readers with the tools to understand the historical evolution of terrorism and counterterrorism over the past 150 years In order to appreciate the contemporary challenges posed by terrorism it is necessary to look at its evolution at the different phases it has gone through and the transformations it has experienced The same applies to the solutions that states have come up with to combat terrorism the nature of terrorism changes but still it is possible to learn from past experiences even though they are not directly applicable to the present This book provides a fresh look at the history of terrorism by providing in depth analysis of several important terrorist crises and the reactions to them in the West and beyond The general framework is laid out in four parts terrorism prior to the Cold War the Western experience with terrorism non Western experiences with terrorism and contemporary terrorism and anti terrorism The issues covered offer a broad range of historical and current themes many of which have been neglected in existing scholarship it also features a chapter on the waves phenomenon of terrorism against its international background This book will be of much interest to students of terrorism studies political violence international history security studies and IR *The Spanish Civil War* Paul Preston, 2012-08-27 The definitive work on the

Spanish Civil War a classic of modern historical scholarship and a masterful narrative Paul Preston is the world's foremost historian of Spain This surging history recounts the struggles of the 1936 war in which more than 3 000 Americans took up arms Tracking the emergence of Francisco Franco's brutal and ultimately extraordinarily durable fascist dictatorship Preston assesses the ways in which the Spanish Civil War presaged the Second World War that ensued so rapidly after it The attempted social revolution in Spain awakened progressive hopes during the Depression but the conflict quickly escalated into a new and horrific form of warfare As Preston shows the unprecedented levels of brutality were burned into the American consciousness as never before by the revolutionary war reporting of Ernest Hemingway John Dos Passos Herbert Matthews Vincent Sheean Louis Fischer and many others Completely revised including previously unseen material on Franco's treatment of women in wartime prisons *The Spanish Civil War* is a classic work on this pivotal epoch in the twentieth century **IBSS: Sociology: 2002 Vol.52** Compiled by the British Library of Political and Economic Science, 2004-03-01

First published in 1952 the International Bibliography of the Social Sciences anthropology economics political science and sociology is well established as a major bibliographic reference for students researchers and librarians in the social sciences worldwide Key features Authority Rigorous standards are applied to make the IBSS the most authoritative selective bibliography ever produced Articles and books are selected on merit by some of the world s most expert librarians and academics Breadth today the IBSS covers over 2000 journals more than any other comparable resource The latest monograph publications are also included International Coverage the IBSS reviews scholarship published in over 30 languages including publications from Eastern Europe and the developing world User friendly organization all non English titles are word sections Extensive author subject and place name indexes are provided in both English and French Place your standing order now for the 2002 volumes of the the IBSS Anthropology 2002 Vol 48 December 2003 234x156 Hb 0 415 32634 6 195 00 Economics 2002 Vol 51 December 2003 234x156 Hb 0 415 32635 4 195 00 Political Science 2002 Vol 51 December 2003 234x156 Hb 0 415 32636 2 195 00 Sociology 2002 Vol 52 December 2003 234x156 Hb 0 415 32637 0 195 00

Modern Spain Francisco J. Romero Salvadó, 2024-08-22 Using a wealth of varied sources this book is an inspiring and essential gateway to understanding the foundations of modern Spain Francisco J Romero Salvadó employs a chronological framework to chart the country s experience commencing with the Restoration of the Bourbon Monarch in 1874 up to the present day Modern Spain is a vital contribution to the study and debate of this country s history and politics It provides a thorough yet concise study of nearly 150 years of tumultuous historical evolution It examines the crisis of traditional liberal politics and the subsequent ill fated attempts at reform through the military dictatorship headed by General Miguel Primo de Rivera and the progressive Second Republic that ensued The outcome being three years of tragic civil war followed by the long 40 year dictatorship of General Francisco Franco It concludes by exploring Spain s successful and surprisingly rapid transition to democracy and the challenges that it now faces in the 21st century Romero Salvadó uproots the many myths and blatant distortions that have often surrounded the history of Spain By offering an analysis within a European context he also challenges the traditional view of the exceptional character of the country encapsulated in the motto Spain is different On the contrary this book so convincingly contends Spain is a perfect example to show the troubled and often violent path to modernity that western societies had to undergo in their transition from elite to mass politics

Anarchism, Revolution, and Reaction Angel Smith, 2007 The period from 1898 to 1923 was a particularly dramatic one in Spanish history it culminated in the violent Barcelona labor wars and was only brought to a close with the coup d tat launched by the Barcelona Captain General Miguel Primo de Rivera in September 1923 In his detailed examination of the rise of the Catalan anarchist syndicalist led labor movement the author blends social cultural and political history in a novel way He analyses the working class from below and the policies of the Spanish State towards labor from above Based on an in depth usage of primary sources the authors provides an unrivalled account of Catalan labor and the Catalan anarchist syndicalist movement and thus

makes an important contribution to our understanding of early twentieth century Spanish history *Historical Dictionary of the Spanish Civil War* Francisco J. Romero Salvadó, 2013-03-14 The Historical Dictionary of the Spanish Civil War covers the history of the war through a chronology an introductory essay appendixes maps and an extensive bibliography The dictionary section has over 600 cross referenced entries on persons places events institutions *The Palgrave Handbook of Anarchism* Carl Levy, Matthew S. Adams, 2018-06-22 This handbook unites leading scholars from around the world in exploring anarchism as a political ideology from an examination of its core principles an analysis of its history and an assessment of its contribution to the struggles that face humanity today Grounded in a conceptual and historical approach each entry charts what is distinctive about the anarchist response to particular intellectual political cultural and social phenomena and considers how these values have changed over time At its heart is a sustained process of conceptual definition and an extended examination of the core claims of this frequently misunderstood political tradition It is the definitive scholarly reference work on anarchism as a political ideology and should be a crucial text for scholars students and activists alike

Barcelona Gary McDonogh, Sergi Martinez-Rigol, 2019-02-21 Barcelona has existed as a settlement for two millennia Early civilizations shaped the city before it achieved in the Middle Ages and Renaissance global power as a trading metropolis and empire capital After a long struggle with the unifying Spanish state the city revived in the eighteenth and nineteenth centuries as an industrial and commercial powerhouse It became a center of culture ornamented by modern planning and wondrous works by Gaud and others Barcelona became known as The Rose of Fire home to revolutionaries and anarchists Creativity and conflict continued to shape Barcelona in the twentieth century as its citizens faced the Spanish Republic Civil War and Franco's dictatorship Linking social and cultural currents to the rich architectural and experiential heritage of this multi layered city McDonogh and Martinez Rigol reveal Barcelona's hidden history to modern day visitors and residents alike **Thinking Barcelona** Edgar Illas, 2012-01-01 Thinking Barcelona studies the ideologies that redefined Barcelona during the 1980s and helped the city adapt to a new economy of tourism culture and services Looking specifically at the lead up to the 1992 Olympic Games and the urban renewal geared toward establishing Barcelona as a happy combination of European cosmopolitanism and Mediterranean rootedness Edgar Illas situates Barcelona as a key example of contemporary urban rebranding after the fall of communism and the establishment of the neoliberal end of history Looking at a host of materials associated with the games as well as contemporary architectural and literary works he offers a compelling look at postmodern globalization as it manifests itself through urban regeneration *The Anarchist Inquisition* Mark Bray, 2022-03-15 The Anarchist Inquisition explores the groundbreaking transnational human rights campaigns that emerged in response to a brutal wave of repression unleashed by the Spanish state to quash anarchist activities at the turn of the twentieth century Mark Bray guides readers through this tumultuous era from backroom meetings in Paris and torture chambers in Barcelona to international antiterrorist conferences in Rome and human rights demonstrations in Buenos Aires

Anarchist bombings in theaters and cafes in the 1890s provoked mass arrests the passage of harsh anti anarchist laws and executions in France and Spain Yet far from a marginal phenomenon this first international terrorist threat had profound ramifications for the broader development of human rights as well as modern global policing and international legislation on extradition and migration A transnational network of journalists lawyers union activists anarchists and other dissidents related peninsular torture to Spain s brutal suppression of colonial revolts in Cuba and the Philippines to craft a nascent human rights movement against the revival of the Inquisition Ultimately their efforts compelled the monarchy to accede in the face of unprecedented global criticism Bray draws a vivid picture of the assassins activists torturers and martyrs whose struggles set the stage for a previously unexamined era of human rights mobilization Rather than assuming that human rights struggles and terrorism are inherently contradictory forces *The Anarchist Inquisition* analyzes how these two modern political phenomena worked in tandem to constitute dynamic campaigns against Spanish atrocities
