## **Red Lights And Green Lizards A Cambodia Adventure:**

Red Lights and Green Lizards Liz Anderson, 1998      **The Oxford Handbook of Southeast Asian Englishes** Andrew J. Moody, 2024-03-03 The Oxford Handbook of Southeast Asian Englishes is the first reference work of its kind to describe both the history and the contemporary forms functions and status of English in Southeast Asia SEA Since the arrival of English traders to Southeast Asia in the seventeenth century the English language has had a profound impact on the linguistic ecologies and the development of societies throughout the region Today countries such as Singapore and the Philippines have adopted English as a national language while in others such as Indonesia and Cambodia it is used as a foreign language of education The chapters in this volume provide a comprehensive overview of current research on a wide range of topics addressing the impact of English as a language of globalization and exploring new approaches to the spread of English in SEA The volume is divided into six parts that investigate respectively historical and contemporary English contact in SEA the structures of the Englishes spoken in different SEA nations the English language literatures of the region approaches to English in education throughout the region and resources for researching SEA Englishes The handbook will be an invaluable reference work for students and researchers in areas as diverse as contact linguistics English as a Foreign Language world Englishes and sociolinguistics      **Cambodia Now** Karen J. Coates, 2014-08-23 Cambodia has never recovered from its Khmer Rouge past The genocidal regime of 1975 1979 and the following two decades of civil war ripped the country apart This work examines Cambodia in the aftermath focusing on Khmer people of all walks of life and examining through their eyes key facets of Cambodian society including the ancient Angkor legacy relations with neighboring countries particularly the strained ones with the Vietnamese emerging democracy psychology violence health family poverty the environment and the nation's future Along with print sources research is drawn from hundreds of interviews with Cambodians including farmers royalty beggars teachers monks orphanage heads politicians and non native experts on Cambodia Dozens of exquisite photographs of Cambodian people and places illustrate the work which concludes with a glossary of Cambodian words people places and names and an appendix of organizations providing aid to Cambodia      English as a Lingua Franca in ASEAN Andy Kirkpatrick, 2010-09-01 The lingua franca role of English coupled with its status as the official language of ASEAN has important implications for language policy and language education These include the relationship between English the respective national languages of ASEAN and thousands of local languages How can the demand for English be balanced against the need for people to acquire their national language and mother tongue While many will also need a regional lingua franca they are learning English as the first foreign language from primary school in all ASEAN countries Might not this early introduction of English threaten local languages and children's ability to learn Or can English be introduced and taught in such a way that it can complement local languages rather than replace them The aim of this book is to explore questions such as these and then make recommendations on language policy and language education for regional

policymakers The book will be important for regional policymakers and language education professionals It should also benefit language teachers especially but by no means exclusively English language teachers The book will be of interest to all who are interested in the development of English as an international language and the possible implications of this upon local languages and cultures Andy Kirkpatrick is chair professor of English as an international language at the Hong Kong Institute of Education and director of the Institute's Research Centre into Language Education and Acquisition in Multilingual Societies His research interests include the development of regional varieties of English and the history of Chinese rhetoric Much research has been carried out on varieties of English used in Southeast Asia but how intelligible these varieties are to others and whether a shift towards an international standard variety occurs in interactions between people from the region has been much less discussed This volume which provides a comprehensive account of the roles and functions of English in ASEAN and gives a linguistic description of the English spoken in the region followed by an approach to teaching English called the multilingual model is therefore a welcome contribution to studies on English in Asia Azirah Hashim Professor of English University of Malaya
