Comacchio,Neil Sutherland,2024-10-29 Ring Around the Maple is about the condition of children in Canada from roughly 1850 to 2000 a time during which the modern increasingly disrupted traditional ways Authors Cynthia R Comacchio and Neil Sutherland trace the lives of children over this long century with a view to synthesizing the rich interdisciplinary often multi disciplinary literature that has emerged since the 1970s Integrated into this synthesis is the authors new research into many often seemingly

disparate archival and published primary sources Emphasizing how the child and childhood are sociohistoric constructs and employing age analytically and relationally they discuss the constants and the variants in their historic dimensions While childhood tangibly modernized during these years it remained a far from universal experience due to identifiers of race gender culture region and intergenerational adaptations that characterize the process of growing up This work highlights children s perspectives through close critical readings of diaries correspondence memoirs interviews oral histories and autobiographies many buried in obscure archives It is the only extant historical discussion of Canadian children that interweaves the experiences of First Nations Métis and Inuit children with those of children from a number of settler groups Ring Around the Maple makes use of photographs catalogues advertisements government publications musical recordings radio shows television shows material goods documentary and feature films and other such visual and aural testimony Much of this evidence has not to date been used as historical testimony to uncover the lives of ordinary children This book is generously illustrated with photographs and ephemera carefully selected to reflect children s lives conditions interests and obligations It will be of special interest to historians and social scientists interested in children and the culture of childhood but will also appeal to readers who enjoy the little stories that together make up our collective history especially when those are told by the children who lived them

Freedom to Play Norah L. Lewis, 2010-09-29 When we were children we made our own fun is a frequent comment from those who were children in pre television times But what games activities and amusements did children enjoy prior to the mid 1950s Recollections of older Canadians selections from writings by Canadian authors and letters written to the children s pages of agricultural publications indicate that for most children play was then as now an essential part of childhood Through play youngsters developed the physical mental and emotional skills that helped them cope with life and taught them to get along with other children In both rural and urban settings children were generally free to explore their environment They were sent outdoors to play by both parents and teachers Their games were generally self organized and physically active with domestic animals acting as important companions and playmates Children frequently made their own toys and equipment and since playing rather than winning was important most children were included in games Special days holidays and organizations for children and youth provided welcome breaks from daily routines Their lives were busy but there was always time for play always time for fun Norah Lewis has provided an entertaining view of the toys games and activities in Canada and pre confederate Newfoundland from approximately 1900 through 1955 Her book will be of interest to historians educators and sociologists as well as anyone who lived through or wants to know more about those early years in Canada and the games children used to play

A Vulgar Art Ian Brodie, 2014-10-29 In A Vulgar Art Ian Brodie uses a folkloristic approach to stand up comedy engaging the discipline's central method of studying interpersonal artistic communication and performance Because stand up comedy is a rather broad category people who study it often begin by relating it to something they recognize literature or theatre editorial or morality and analyze it accordingly A Vulgar Art begins with a more fundamental observation someone is standing in front of a group of people talking to them directly and trying to make them laugh So this book takes the moment of performance as its focus that stand up comedy is a collaborative act between the comedian and the audience Although the form of talk on the stage resembles talk among friends and intimates in social settings stand up comedy remains a profession As such it requires performance outside of the comedian's own community to gain larger and larger audiences How do comedians recreate that atmosphere of intimacy in a roomful of strangers This book regards everything from microphones to clothing and LPs to Twitter as strategies for bridging the spatial temporal and sociocultural distances between the performer and the audience
