## **Russia The Caucasus And Central Asia:**

**Russia, the Caucasus, and Central Asia** Rajan Menon, Yuri E. Fedorov, Ghia Nodia, East West Institute, 2016-07-01 This comprehensive exploration of the international environment examines not only traditional political military concerns but also economic ethnic and environmental issues and the role of crime terrorism the drug trade and migration in the security environment of Russia and its neighbours to the south This approach takes account of both the internal and external aspects of security problems and their interplay The participation of international authors facilitates the consideration of each problem from all relevant points of view

**Conflict Areas in the Caucasus and Central Asia** Arda Özkan, Göktürk Tüysüzoglu, 2024-04 The Caucasus region and Central Asia covers a large part of the Eurasian Both regions where Russia and China have a serious influence and visibility also have a location that reflects the hegemonic expectations of both these actors In this context domestic political developments and even internal conflicts in the region can be linked to the policies of Russia and China to a certain extent and have the potential to affect the motives of these two powers Although Central Asia is rich in natural resources it is landlocked and has lagged other nations in terms of agricultural production and industrial development Although the Caucasus is divided into the North the territory of Russia and the South where three independent states are located it is insufficient in terms of production and development The Caucasus stands out especially with energy projects and its feature of being a commercial corridor

**Development in Central Asia and the Caucasus** Sophie Hohmann, Claire Mouradian, Silvia Serrano, 2014-06-25 After the final collapse of the Soviet Union the so called last empire in 1991 the countries of Central Asia Kazakhstan Kyrgyzstan Uzbekistan Tajikistan Turkmenistan and of the Caucasus Armenia Azerbaijan Georgia became independent nations These countries previously production centres under the socialist planning system of the Soviet Union have made enormous economic adjustments in order to develop or attempt to develop along capitalist lines As this study will show however inequality in Central Asia and the Caucasus is widening as the Soviet systems of healthcare and state provisions disappear Rejecting the Cold War era East West paradigm often used to analyse the development of these nations this study analyses development along the North South lines which characterise the migration patterns and poverty levels of much of the rest of the developed world This opens up new avenues of research and helps us understand why it is for instance that this region is better characterised as a new South as skilled workers flood out of the territories and into Russia and Western Europe Development in Central Asia and the Caucasus draws together detailed analyses of the development of migration economics as the region's oil wealth further enhances its strategic and economic importance to Russia the US the Middle East and to the EU

All the Russias Henry Norman, 1903

**Challenges and Options in the Caucasus and Central Asia** Pavel Baev, 1997 That Russia has vital strategic interests in the Caucasus and Central Asia can be taken as an established political

fact What is remarkable about this fact is that the nature of these interests as well as the nature and intensity of challenges to them have changed quite drastically during Russia's 5 years of existence as a post Soviet state It is no wonder that Russian policymakers are permanently agonizing over reassessment of these interests and are now nowhere close to producing a coherent strategy of their advancement This monograph will argue that Russia's ability to meet the challenges from the South is a major factor in determining its future as a world power 1 There is no doubt that the Caucasus and Central Asia are two separate regions in the turbulent post Soviet geopolitical space with different political dynamics and plenty of internal diversities and conflicts Even looking from Moscow it is obvious that these differences are of such a scale that no single integrated strategy could possibly embrace both regions two essentially different policies are required and were in fact pursued Still the author attempts to take these two regions together seeking to trace interplay among Russia's economic political and strategic interests and to discover parallels in Moscow's past current and possible future activities This paper will first take a brief look at the evolution of Russia's policies in the Caucasus and Central Asia in 1992-94 then the impact of the Chechen War will be evaluated This is followed by the analysis of the growth of the economic interests first of all related to oil and the increase in influence of the regional processes in Russia itself Finally an attempt to distinguish between the real and misperceived security challenges for the near future will be undertaken

**Conflict Areas in the Caucasus and Central Asia** Arda Özkan, Gökürk Tüysüzoglu, 2022-01-25 The Caucasus region and Central Asia covers a large part of the Eurasian Both regions where Russia and China have a serious influence and visibility also have a location that reflects the hegemonic expectations of both these actors In this context domestic political developments and even internal conflicts in the region can be linked to the policies of Russia and China to a certain extent and have the potential to affect the motives of these two powers Although Central Asia is rich in natural resources it is landlocked and has lagged other nations in terms of agricultural production and industrial development Although the Caucasus is divided into the North the territory of Russia and the South where three independent states are located it is insufficient in terms of production and development The Caucasus stands out especially with energy projects and its feature of being a commercial corridor

*Identity and Politics in Central Asia and the Caucasus* Mohammed Ayoob, Murad Ismayilov, 2015-02-20 The multicultural region of Central Eurasia is living through its early post independence years and as such serves as an ideal case to study and analyse theories of identity and foreign policy in a non European context Looking to re introduce identity as a multidimensional factor informing state behaviour this book analyses the experiences of the different Central Eurasian states in their post

independence pursuits The book is structured into two broadly defined sections with the first half examining the different ways in which the combination of domestic regional international and trans national forces worked to advance one national identity over the others in the states that comprise the region of post Soviet Central Eurasia In the second half chapters analyse the many ways in which identity once shaped affected foreign policy behaviours of the regional states as well as the overall security dynamics in the region The book also looks at the ways in which identity by doing so enjoys an intricate mutually constitutive relationship with the strategic context in which it bears its effects on the state and the region Finally given the special role Russia has historically played in defining the evolutionary trajectory of the regional states the book discusses the ways in which Russia itself and its post cold war policies towards its former colonies have been conditioned by factors associated with Russia s evolving post Soviet identity Placing the region firmly within existing theories of identity and state practices the book will be of interest to students and scholars of Central Asian Politics Security Studies Foreign Policy and International Relations

**The Rival Powers in Central Asia** Józef Popowski,1893 The Rival Powers in Central Asia is an English translation of a work originally published in Vienna in 1890 under the title Antagonismus der Englischen und Russischen Interessen in Asien Eine Milit r Politische Studie The antagonism between English and Russian interests in Asia A military political study The study analyzes what the author sees as the threat to British India posed by an aggressive Russia The author characterizes the Russian Empire as a reckless expansive force which having reached its natural limits on the seas to the east and the north was now concentrating all its energies on the South and chiefly in the direction of Constantinople and Central Asia While the Russian thrust into Central Asia is portrayed as a threat mainly to British interests Russian ambitions toward Constantinople are seen as most threatening to the continental European powers Austria in particular which cannot at any cost permit Russia to take possession of Constantinople On this basis the author argues that it is in Great Britain s interest to join a Central European Coalition with Austria Hungary and imperial Germany Chapter four the longest in the book entitled Strategical Relations of the Two States assesses the relative strengths of Russia and Great Britain in a contest for control of Central Asia and ultimately India with sections on land forces naval forces and the transport and logistical routes likely to be used by each power The concluding chapter discusses the benefits that Great Britain would gain by allying with the Central European powers against Russia stresses the value to those powers of a British alliance and argues that only through such an alliance would Britain be able to retain its hold on India Ultimately of course the envisioned alliance did not come about as some two decades later Great Britain allied with Russia and France and against Germany and Austria Hungary in the great European conflict that came to be known as World War I

**Russia in Central Asia** Hugo Stumm,1885 *All the Russias* Henry Norman,1904 **Russia and China. to make Eurasia a key hub of political and economic power That certainly is the story which Beijing and Moscow have been telling for years Are the times ripe for a Eurasian world order What exactly does the supposed Sino Russian challenge to the liberal world entail Are the two countries worsening clashes with the West drawing them closer together This ISPI Report tackles every aspect of the apparently solidifying alliance between Moscow and Beijing but also points out its growing asymmetries It also recommends some policies that could help the EU to deal with this Eurasian shift a long term and multi faceted power readjustment that may lead to the end of the world as we have known it All the Russias Henry Norman,2015-06-26 Excerpt from All the Russias Travels and Studies in Contemporary European Russia Finland Siberia the Caucasus and Central Asia This volume is the outcome of fifteen years interest in Russian affairs culminating in four journeys one of nearly 20 000 miles in European and Asiatic Russia In the course of these besides a residence of some time in St Petersburg and visits to the principal cities I travelled in Finland in Siberia as far as Lake Baikal I had previously been to Vladivostok in the Caucasus and in Central Asia as far as the frontier of Kashgar During all these journeys I was afforded opportunities of seeing and investigating every matter that interested me and of making the acquaintance of the chief Russian administrators in every part Indeed official courtesy went so far as to convey me by a special train and a special steamer to places I could not otherwise have seen and to provide for my safety on another occasion by an escort of Cossacks In case the reader may wonder how without a mastery of the Russian language I held the conversations and made the inquiries here described I may say that during my chief journeys I took with me as interpreter a young Russian gentleman a student of law at the University of Moscow whose knowledge and intelligent sympathy were of the greatest service to me Without such help or the ability to speak Russian fluently a journey for any serious purpose in Russia outside the two capitals would be a waste of time About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
