Ranging across the Mediterranean and Northern Celtic and Slavic Europe the essays assess the archaeological and textual evidence Dispersed archaeological remains and biased outside sources constitute our main sources of information so the complex task of interpreting these traces is explained for each case The Handbook also aims to highlight the plurality of religion in ancient Europe the many ways in which it is expressed notably in discourse action organization and material culture how it is produced and maintained by different people with different interests how communities always connect with or disassociate from adjunct communities and how their beliefs and rituals are shaped by these relationships The Handbook will be invaluable to anyone interested in ancient History and also to scholars and students of Religion Anthropology
