**The Russian Revolution and Civil War 1917-1921** Jonathan Smele, 2006-04-15 The Russian Revolution and Civil War in the years 1917 to 1921 is one of the most widely studied periods in history It is also somewhat inevitably one that has generated a huge flow of literature in the decades that have passed since the events themselves However until now historians of the revolution have had no dedicated bibliography of the period and little claim to bibliographical control over the literature The Russian Revolution and Civil War 1917 1921 offers for the first time a comprehensive bibliographical guide to this crucial and fascinating period of history The Bibliography focuses on the key years of 1917 to 1921 starting with the February Revolution of 1917 and concluding with the 10th Party Congress of March 1921 and covers all the key events of the intervening years As such it identifies these crucial years as something more than simply the creation of a communist state

Baron,Cathy Frierson,2015-04-08 American historians of Russia have always been an intrepid lot Their research trips were spent not in Cambridge or Paris Rome or Berlin but in Soviet dormitories with official monitors They were seeking access to a historical record that was purposefully shrouded in secrecy boxed up and locked away in closed archives Their efforts indeed their curiosity itself sometimes raised suspicion at home as well as in a Soviet Union that did not want to be known even while it felt misunderstood This lively volume brings together the reflections of twenty leading specialists on Russian history representing four generations They relate their experiences as historians and researchers in Russia from the first academic exchanges in the 1950s through the Cold War years detente glasnost and the first post Soviet decade Their often moving acutely observed stories of Russian academic life record dramatic change both in the historical profession and in the society that they have devoted their careers to understanding *Legacies of Violence: Eastern Europe's First World War* Jochen Böhler,Włodzimierz Borodziej,Joachim von Puttkamer,2014-08-20 The First World War began in the Balkans and it was fought as fiercely in the East as it was in the West Fighting persisted in the East for almost a decade radically transforming the political and social order of the entire continent The specifics of the Eastern war such as mass deportations ethnic cleansing and the radicalization of military paramilitary and revolutionary violence have only recently become the focus of historical research This volume situates the Long First World War on the Eastern Front 1912 1923 in the hundred years from the mid 19th to the mid 20th century and explores the legacies of violence within this context Content Jochen B hler W odzimierz Borodziej Joachim von Puttkamer Introduction I A World in Transition Joachim von Puttkamer Collapse and Restoration Politics and the Strains of War in Eastern Europe Mark Biondich Eastern Borderlands and Prospective Shatter Zones Identity and Conflict in East Central and Southeastern Europe on the Eve of the First World War Jochen B hler Generals and Warlords Revolutionaries and Nation State Builders The First World War and its Aftermath in Central and Eastern Europe II Occupation Jonathan E Gumz Losing Control The Norm of Occupation in Eastern Europe during the First World War Stephan Lehnstaedt Fluctuating between Utilisation and Exploitation Occupied East Central Europe during the First World War Robert L Nelson Utopias of Open Space Forced Population Transfer Fantasies during the First World War III Radicalization Maciej G rny War on Paper Physical Anthropology in the Service of States and Nations Piotr J Wr bel Foreshadowing the Holocaust The Wars of 1914 1921 and Anti Jewish Violence in Central and Eastern Europe Robert Gerwarth Fighting the Red Beast Counter Revolutionary Violence in the Defeated States of Central Europe IV

Despite indications that the majority of Muslims desired political unification based on their Islamic heritage the Party divided them into separate nationalities along narrow ethnic lines incorporated most into the RSFSR and attempted to uproot traditional Islamic institutions and customs under the aegis of class war. Resistance took the form of pan-Muslim nationalism a reformist political conception with roots in the Near East. This conflict not only aborted the export of revolution to the Islamic world contributing to the passing of the revolutionary era in Russia but aided Stalin's rise to power. Soviet policy succeeded politically defining the terms of interaction between Russians and Soviet Muslims for the next 70 years but failed culturally in 1921-22 when the Party was forced to suspend its war on Islam as the price of political control. **From Marx to Lenin** David W. Lovell, 1984-07-19 This study is a contribution to the debate begun just after the October Revolution concerning the relationship between Marx's project and Soviet society. It focuses however only on the political aspects of the matter to what extent was early Soviet authoritarianism the necessary outcome of Marx's works. Since Lenin's practice and theory largely determined and justified the early political character of the Soviet state we may ask whether Lenin was implementing Marx's project or a project of his own design. Lenin influenced by debates within Social Democracy and by the experience of the Russian revolutionary tradition used a one-sided interpretation of Marx's work to build and defend a transition which was fundamentally authoritarian. Marx was not causally responsible for the theoretical foundation of Soviet authoritarianism.

**The Environment and World History** Edmund Burke III, Kenneth Pomeranz, 2009-04-08 Since around 1500 C.E. humans have shaped the global environment in ways that were previously unimaginable. Bringing together leading environmental historians and world historians this book offers an overview of global environmental history throughout this remarkable 500-year period. In eleven essays the contributors examine the connections between environmental change and other major topics of early modern and modern world history: population growth, commercialization, imperialism, industrialization, the fossil fuel revolution, and more. Rather than attributing environmental change largely to European science, technology, and capitalism the essays illuminate a series of culturally distinctive yet often parallel developments arising in many parts of the world leading to intensified exploitation of land and water. The wide range of regional studies including some in Russia, China, the Middle East, India, Southeast Asia, Latin America, Southern Africa, and Western Europe together with the book's broader thematic essays makes *The Environment and World History* ideal for courses that seek to incorporate the environment and environmental change more fully into a truly integrative understanding of world history.
