The Nine Pillars of History GUNNAR SEVELIUS, M.D.,2010-10-07 The book is a concise review of 200 000 years of human history From an anthropological standpoint the author selected nine necessities from the 190 000 year Hunting and Gathering or tibaltime These nine Pillars of History are 1 food water and energy 2 dwelling 3 cleanliness beauty 5 free communication 6 community support 7 free religion 8 access to medical help and 9 free trade From anthropological standpoint the Nine Pillars of History recognizes three historical time periods hand animal and machine transport of food The Nine Pillars of History are used as common denominators to analyze 10 000 years of political history in agricultural and industrial times From constitutional standpoint the Nine Pillars of History find only two kinds of leadership all through our political history dogmatic or democratic Sexuality we have in common with all living species The feminine identity is described from tribal to modern time The author uses philology to describe how religion the 7th pillar was perceived from words in our thought process and how the Golden Rule from tribal time gave society its social and moral rules The Nine Pillars of History together with the Golden Rule are used as common denominators to analyze five world

religions Access to Medicine the 8th Historical Pillar in modern US is compared to that of Sweden **Hitler's Wartime Speeches** Adolf Hitler, 1943 *The Nine Pillars of History* Gunnar Sevelius, 2016-05-21 Human society as we know it goes back some 200 000 years to a time when we learned to speak and communicate our thoughts The Nine Pillars of History are defined from nine basic requirements for a healthy and prosperous society during the following 190 000 years of Hunting and Gathering Sexuality a fundamental human need that goes even further back in history than society had to be mitigated with a social rule The Golden Rule The Nine Pillars of History are used as non political common denominators to judge the political evolution of some thirty major countries or cultures In addition the Pillars are partnered with the Golden Rule to explore five world religions Hinduism Buddhism Judaism Christianity and Islam The relevance of The Nine Pillars of History is proven by the fact that they exist intergraded across multiple societies since the dawn of time and are still relevant for our modern world This historical review reveals that dogmatic religions and harsh politics have caused 10 000 years of war by challenging the relevance of The Nine Pillars of History Dr Sevelius gives his views as nonpolitical nonreligious thoughts Each paragraph has been numbered to offer an easy to use reference system for community discussion of specific statements The Nine Pillars of History gives you Dear Friend and Reader a vision for peace As Dr Sevelius respectfully borrows President Lincolns enduring truth that governments of the people by the people and for the people shall not perish from the earth *The Architect of Genocide: Himmler and the Final Solution* Richard Breitman, 2022-09-05 A historians carefully researched work based on a vast array of sources documenting Hitler s and Himmler s responsibility for the murder of European Jewry The book details the planning and the improvisations but emphasizes the former and Himmler s fanatical hatred of the Jewish race as the determinative cause of the Holocaust Dealing with a charged controversy Breitman makes a powerful case that by March 1941 the Final Solution was just a matter of time and timing i e that the Holocaust was not a reflex of Hitler s fear that the war in Russia could not be won Breitman argues that the Wannsee Conference merely ratified the plans and instructed other agencies to cooperate Breitman records the instances of resistance or opposition but notes that of course the cooperation of thousands many still alive and never tried and the complicity or silence of millions were needed to carry out the murder the book concludes that Himmler s brutality was more learned than instinctive or emotional a methodical murderer impelled by racist dogma Foreign Affairs Breitman s book is decisively important It should serve for years to come as required reading for all who wish to make sense of the Holocaust Daniel Jonah Goldhagen *The New Republic* Looking nothing like the Nordic ideal he advocated Heinrich Himmler chief of the Nazi SS was short flabby and balding his dull pedantic exterior disguising the caustic cowardly Machiavellian immensely cruel master of deceit within Breitman presents compelling evidence that the extermination of Jews was an early goal of Himmler a Bavarian and lapsed Catholic and his boss Adolf Hitler Drawing on previously untapped German records as well as other source materials this engrossing detailed study constitutes a powerful refutation of revisionist scholars who claim that Hitler did not plan the Final

Solution in advance but instead improvised it out of either military or political frustration Publishers Weekly A truly path breaking book one of the few that will have a lasting impact on historical research of the period It shows both the primacy of Hitler as the motivating force in the mass murder and the way in which his initiatives were accepted and internalized by the SS on the basis of ideology Holocaust and Genocide Studies Chilling expert history Kirkus A n eminently sensible and judicious study that could well serve as a textbook on the topic The Historian Breitman s research is meticulous Especially valuable are his novel insights into the full and frequent communication between Himmler and Hitler who it is known seldom signed an order Mr Breitman presents his arguments cogently Michael H Kater The New York Times An absorbing important book that addresses the sequence of steps leading to the Final Solution Financial Times As Breitman persuasively demonstrates the situation kept changing but Hitler was always in charge and his goals always included ridding his empire of the Jews Los Angeles Times Breitman is on the hunt for smoking guns He finds the goods littered throughout Himmler s speeches and conversations Breitman shows that people knew Washington Post Book World The book is chillingly good on the uses and abuses of language to mask atrocity Newsday Breitman s study is an important addition to the literature on the origins of the Nazi genocide one that provides the most likely scenario and settles important disputed questions Breitman s study is a major step forward in our understanding of how the Nazis initiated mass murder German Studies Review An important book I much admire this work particularly for its resourceful combing of primary material there is much to learn from this book about the Final Solution its origins its implementation and its hate inspired architect The American Historical Review Hitler's Warrior Danny S. Parker,2025-05-01 Handsome intelligent impetuous and dedicated to the Nazi cause SS Colonel Jochen Peiper 1915 1976 was one of the most controversial figures of World War II After volunteering for the Waffen SS at an early age Peiper quickly rose to prominence as Heinrich Himmler s ever present personal adjutant in the early years of the war Sent later to the fighting front with the fearsome 1st SS Panzer Division Peiper became a legend for his flamboyant and brutal style of warfare As one of Hitler s favorites he was chosen to spearhead the Ardennes Offensive later known as the Battle of the Bulge After the war Peiper became the central subject in the bitterly disputed Malm dy war crimes trial Convicted but later released he moved to eastern France There he and his past were discovered and he died in a fiery gun battle by killers unknown even today In Hitler s Warrior historian Danny Parker describes Peiper both on and off the battlefield and explores his complex personality The rich narrative is supported by years of research that has uncovered previously unpublished archival material and is enhanced with information drawn from extensive interviews with Peiper s contemporaries including German veterans This major new historical work is both a definitive biography of Hitler s most enigmatic warrior and a unique study of the morally inverted world of the Third Reich **The War Aims and Strategies of Adolf Hitler** Oscar Pinkus,2005-06-29 Many have commented upon Hitler s inexplicable behavior during World War II He failed to invade England he neglected his air force he engaged enemies on multiple fronts Viewed in terms of Germany s

struggle against the West these and other actions made little sense In truth however the war against Western powers had little to do with Hitler s grand plan to conquer Russia and lands to the east of Germany eradicate or enslave their populations and create a vast Teutonic empire In light of this goal Hitler s actions were consistent throughout In line with his dictum of All or Nothing once Hitler failed to defeat Russia in December 1941 he conducted the rest of the war with the sole purpose of inflicting maximum bloodshed and desolation including upon Germany itself Weakened sensing defeat he knew he was a drowning man and he was determined to take friend and foe alike down with him This evaluation of Hitler s objectives in World War II expands upon a theory gaining prominence among historians Hitler s true motive was a crusade against the East and he had little interest in waging war with England much less the United States It examines the different nature of the war on the Eastern and Western fronts the disparate treatment afforded the two groups of POWs and civilians and Hitler s scorched earth policy adopted after his primary objective proved beyond his grasp In poignant painful detail it recreates the Russians devastating four year struggle against Germany which went much further towards ensuring its defeat than any of the comparatively belated Western efforts *How the West Was Won and Lost* Rocky M. Mirza, PhD, 2016-04-14 Western powers are addicted to stealing and warmongering and their days at the top of civilization are numbered To prove this point Rocky M Mirza Ph D traces the rise of the Western powers from the Greek and Roman empires through the Portuguese Spanish British French German Italian and American empires He argues that the West has promoted private property over communal property which has created huge inequalities of wealth encouraged the production and consumption of goods instead of preserving our planet exploited Third World workers to satisfy obese citizens addicted to super size portions From the time Portugal found a sea route to India and Spain rediscovered the New World the West has sought to steal and kill At first Muslims in the Middle East and powerful countries in Asia thwarted Western ambitions but the Industrial Revolution of the eighteenth century changed the landscape Instead of building mutually beneficial relationships Western empires from the Portuguese to the American have sought to solely look out for their own interests Find out how the balance is shifting in *How the West was Won and Lost* [A Different Mirror](#) Ronald Takaki, 2012-06-05 Takaki traces the economic and political history of Indians African Americans Mexicans Japanese Chinese Irish and Jewish people in America with considerable attention given to instances and consequences of racism The narrative is laced with short quotations cameos of personal experiences and excerpts from folk music and literature Well known occurrences such as the Triangle Shirtwaist Factory Fire the Trail of Tears the Harlem Renaissance and the Japanese internment are included Students may be surprised by some of the revelations but will recognize a constant thread of rampant racism The author concludes with a summary of today s changing economic climate and offers Rodney King s challenge to all of us to try to get along Readers will find this overview to be an accessible cogent jumping off place for American history and political science plus a guide to the myriad other sources identified in the notes [Foreign Relations of the United States, 1951: Korea and China](#), 1977
