

Russia Transformed: Breakthrough to Hope

James H. Billington

Russia Transformed Breakthrough To Hope August 1991

William Jacobus Vanden Heuvel

Russia Transformed Breakthrough To Hope August 1991:

The Face of Russia James H. Billington, 2008-04-01 When the Soviet communist empire was overthrown by the Russians themselves in August 1991 the change was more clearly anticipated by humanistic students of creativity than by economic and political scientists surrounded by statistics and information Does the Russian pattern of creativity provide any hints as to how the Russians might solve problems today Having borrowed the democratic political model of their erstwhile American enemy will they be able to create a distinctive Russian variant that can endure Or will they end up destroying their own experiment at accountable constitutional government and returning to their long tradition of authoritarianism *The Face of Russia* a companion book to the corresponding PBS series addresses these questions This is a dazzling and forward looking history of the Russian people as told through their art from one of the world's great experts on Russian culture The story covers eight hundred years of Russian creativity and introduces us to the new art forms that burst onto the Russian scene and became the vehicles for expressing the creative aspirations of an age as well as the enduring Russian quest to find salvation and entertainment in art

Russia Transformed James H. Billington, 1992 Billington examines the changes that have occurred in the former Soviet Union over recent years and argues the necessity of the USA and other Western powers making positive economic political strategic and cultural responses to the new circumstances

Russian Orthodoxy Resurgent John Garrard, Carol Garrard, 2014-09-22 *Russian Orthodoxy Resurgent* is the first book to fully explore the expansive and ill understood role that Russia's ancient Christian faith has played in the fall of Soviet Communism and in the rise of Russian nationalism today John and Carol Garrard tell the story of how the Orthodox Church's moral weight helped defeat the 1991 coup against Gorbachev launched by Communist Party hardliners The Soviet Union disintegrated leaving Russians searching for a usable past The Garrards reveal how Patriarch Aleksy II a former KGB officer and the man behind the church's successful defeat of the coup is reconstituting a new national idea in the church's own image In the new Russia the former KGB who run the country Vladimir Putin among them proclaim the cross not the hammer and sickle Meanwhile a majority of Russians now embrace the Orthodox faith with unprecedented fervor The Garrards trace how Aleksy orchestrated this transformation positioning his church to inherit power once held by the Communist Party and to become the dominant ethos of the military and government They show how the revived church under Aleksy prevented mass violence during the post Soviet turmoil and how Aleksy astutely linked the church with the army and melded Russian patriotism and faith *Russian Orthodoxy Resurgent* argues that the West must come to grips with this complex and contradictory resurgence of the Orthodox faith because it is the hidden force behind Russia's domestic and foreign policies today

[Russia's Uncommon Prophet](#) Wallace L. Daniel, 2016-04-20 This lucidly written biography of Aleksandr Men examines the familial and social context from which Men developed as a Russian Orthodox priest Wallace Daniel presents a different picture of Russia and the Orthodox Church than the stereotypes found in much of the popular literature Men offered an alternative to the

prescribed ways of thinking imposed by the state and the church Growing up during the darkest most oppressive years in the history of the former Soviet Union he became a parish priest who eschewed fear who followed Christ's command to love thy neighbor as thyself and who attracted large diverse groups of people in Russian society How he accomplished those tasks and with what ultimate results are the main themes of this story Conflict and controversy marked every stage of Men's priesthood His parish in the vicinity of Moscow attracted the attention of the KGB especially as it became a haven for members of the intelligentsia He endured repeated attacks from ultraconservative anti-Semitic circles inside the Orthodox Church Fr Men represented the spiritual vision of an open non-authoritarian Christianity and his lectures were extremely popular He was murdered on September 9 1990 For years his work was unavailable in most church bookstores in Russia and his teachings were excoriated by some both within and outside the church But his books continue to offer hope to many throughout the world they have sold millions of copies and are testimony to his continuing relevance and enduring significance This important biography will appeal to scholars and general readers interested in religion politics and global affairs

The Future of Freedom in Russia William Jacobus Vanden Heuvel, 2000 Collects papers by 15 contributors 13 of them Russian delivered at a conference held in Washington in February 1999 This book describes not only the human dimensions of various problems but also the commitment and courage of the unsung founders of the new Russia

The Collapse of the Soviet Union, 1985-1991 David R. Marples, 2016-09-17 Why did the Soviet Union collapse in 1991 The collapse of the Soviet Union has widely been seen as the result of the arms race and Cold War and the failure of the Soviet side to keep pace with new technology This book argues that the disintegration was mainly a result of two interrelated factors the rise of the Soviet national republics and the manipulation of the new Russian presidency by Boris Yeltsin in what became a direct power struggle between Yeltsin and the Soviet leader Gorbachev Written in a clear and accessible manner the book provides an explanation of how the national question came to dominate Soviet politics by 1990 1 analysis of the economic crisis that occurred in the late 1980s a chapter devoted to the year 1991 from the referendum to reform the Soviet Union to the unforeseen dissolution of the country by December a discussion of the personalities of and political confrontation between the two key statesmen Gorbachev and Yeltsin Also containing a Chronology Glossary and Who's Who of key figures The Collapse of the Soviet Union is essential reading for students of twentieth century European history

The Geopolitics of Culture John Van Oudenaren, 2024-06-15 Through the lens of James Billington and the institution he led as Librarian of Congress during a key period of US Russian relations The Geopolitics of Culture examines culture as a neglected area of US foreign policy Billington advised presidents and members of Congress and mobilized the resources of the Library of Congress to promote reform in Russia He believed that rather than preaching to the Russians the United States should expose the rising generation of Russian leaders to what was best in America and encourage them to rediscover positive elements in pre-Bolshevik Russian culture The Geopolitics of Culture is the first book to chronicle Billington's

influence on US engagement with Russia as it transitioned from communism to democracy under Gorbachev and Yeltsin and back to authoritarianism under Yeltsin and Putin Drawing on published and archival sources including recently released papers and interviews with current and retired Library of Congress staff members John Van Oudenaren casts new light on this era Billington's efforts led to a remarkable degree of cooperation between the Library of Congress and Russian cultural and political institutions Yet these efforts ultimately failed as Putin turned back toward authoritarianism The experience of the Library of Congress during this period nonetheless holds important lessons for today Billington believed that a transition to democracy in Russia was essential if the United States was to head off the geopolitical nightmare of a Eurasia dominated by an alliance of hostile authoritarian powers The geopolitics of culture thus remains a challenge for US foreign policy

The Orthodox Church and Civil Society in Russia Wallace L. Daniel, 2006 In the void left by the fall of Communism in Russia during the late twentieth century can that country establish a true civil society Many scholars have analyzed the political landscape to answer this question but in *The Orthodox Church and Civil Society in Russia* Wallace L. Daniel offers a unique perspective within the church are individuals who hold the values and institutional models that can be vital in determining the direction of Russia in the twenty first century What the tireless workers of the church are doing and whether they will succeed in building a new cultural infrastructure are questions of crucial importance Daniel tells the stories of a teacher and controversial parish priest the leader of Russia's most famous women's monastery a newspaper editor and a parish priest at Moscow University to explore thoroughly and with a human voice the transformation from Communist country to a new social order focusing on normal everyday realities Unlike other scholars who have concentrated on government and politics or looked only within the church's Moscow patriarchy Daniel explores specific religious communities and the way they operate their efforts to rebuild parish life and the individuals who have devoted themselves to such goals This is the level Daniel shows at which the reconstruction of Russia and the revitalization of Russian society is taking place This book is written for general readers interested in the intersection between politics religion and society as well as for scholars The subject and the approach cut across several disciplines area and cultural studies history political science and religious studies Jacket

The Soldier in Russian Politics, 1985-96 Robert Barylski, 2018-04-17 If Russia is to become a viable democracy it will need a viable state to make and enforce decisions that nurture societal cohesion and sustain complex economic activity Armed forces are essential attributes of viable modern states but what happens when states undergo major structural changes What was the military's contribution to the end of the Soviet Union and the rise of post Soviet Russia *The Soldier in Russian Politics* is the first study to go beyond familiar accounts of the main events that brought down the Soviet state and began its reconstruction It captures the interplay between soldier and civilian politicians in a major political history based on solid political sociological analysis Barylski uses the study of civil military relations to explore new political and intellectual conditions and explain the historic relationship between changes in Western models of Russian reality and

political change in the former Soviet Union Examining the military's participation in every major twentieth century political change from 1917 to 1991 Barylski demonstrates that every deep political transformation in Russia has military dimensions Barylski discusses how the Russian presidency's power to command and control the military without legislative checks and balances led to armed conflict with Parliament in October 1993 and to the Chechen war of 1994 1996 and is unhealthy for long term democratic development Barylski analyzes ministers of defense Yazov Shaposhnikov Grachev and Rodionov as political actors traces the careers of ambitious political soldiers such as Aleksandr Lebed and Aleksandr Rutskoi and describes the military's growing political alienation from the Yeltsin administration His final chapters cover the presidential elections the short lived Yeltsin Lebed political alliance the tensions associated with Yeltsin's ailments and Yeltsin's efforts to rebuild his personal power political effectiveness The Soldier in Russian Politics presents political history in an incisive and objective manner It applauds the progressive officers soldiers and politicians where decisions minimized bloodshed and prevented civil war But it also warns that civilian and military leaders can make mistakes which cause political institutional failure violence and dictatorship This book will interest political scientists political sociologists students of Russian and Soviet politics and all military historians and professionals Russia's Road to Corruption United States. Congress. House.

Speaker's Advisory Group on Russia,2000 *Russia at the Barricades* Victoria E. Bonnell,Ann Cooper,Gregory Freidin,2015-03-04 What does the Congress do How does it do it Is the Congress up to the challenges ahead This primer offers students an introduction to Congress and the role it plays in the US political system It explores the different political natures of the House and Senate and examines Congress's interaction with other branches of the Federal government

Military Review ,1993 Quarterly Review of Military Literature ,1993 **Professional Journal of the United States Army** ,1993-11 *Reinterpreting Revolution in Twentieth-Century Europe* Moira Donald,Tim Rees,2017-03-14 Until the dramatic fall of Communist regimes in the East placed the possibility of revolution on the agenda once again sudden and decisive political change had appeared a largely anachronistic phenomenon in Europe Looking back over the twentieth century it is plausible to argue that the twentieth rather than the nineteenth has been the most revolutionary of centuries In this volume leading specialists from a variety of disciplines examine the changing and conflicting meanings of revolution in modern and contemporary Europe Contributions include both broad essays on the global and historical context of European revolution and specific case studies reinterpreting a variety of revolutionary experiences **Proselytism and Orthodoxy in Russia** John Witte,Michael Bourdeaux,2009-05-01 Few of the struggles Russia has undergone since the fall of Communism have been fiercer than that being fought between the long repressed Russian Orthodox Church and a host of groups seeking to evangelize the Russian people This volume assesses the legitimacy of the Orthodox attempt to reclaim the spiritual and moral heart of the Russian people and to retain their adherence in a new pluralistic world where many Christians and followers of other traditions seek the right to establish themselves Proselytism and Orthodoxy in Russia also brings together

the latest scholarship on the new Russian laws regarding religion as well as suggesting guidelines for foreign missionaries in Russia

Freedom and the Captive Mind Wallace L. Daniel, 2024-10-15 *Freedom and the Captive Mind* is a biography of Fr Gleb Yakunin the first Orthodox priest to adopt an ecumenical approach to Russian Orthodoxy earning him the enmity of conservative groups within the Church and gratitude from other religious denominations Father Yakunin believed the survival of the Church depended on its willingness to reform When he was suspended Yakunin continued to fight the system working to expose the persecution of religious believers in the Soviet Union After years of exile Yakunin entered politics He was criticized by religious authorities denounced by nationalist politicians and excommunicated by the Russian Orthodox Church As Wallace L Daniel demonstrates the letters Yakunin wrote and his revelations about the relationship between the Church hierarchy and the KGB stand as monuments of courage and the determination to reveal the truth about abuses of power and the authoritarian mindset that predominated in both institutions

The American Bibliography of Slavic and East European Studies Patt Leonard, Rebecca Routh, 2020-02-27 This bibliography first published in 1957 provides citations to North American academic literature on Europe Central Europe the Balkans the Baltic States and the former Soviet Union Organised by discipline it covers the arts humanities social sciences life sciences and technology

U.S. Stake in a Democratic Russia United States. Congress. House. Committee on Foreign Affairs. Subcommittee on Europe and the Middle East, 1993

Russia in Search of Itself James H. Billington, 2004-03-19 Billington describes the contentious discussion occurring all over Russia and across the political spectrum He finds conflicts raging among individuals as much as between organized groups and finds a deep underlying tension between the Russians attempts to legitimize their new nominally democratic identity and their efforts to craft a new version of their old authoritarian tradition After showing how the problem of Russian identity was framed in the past Billington asks whether Russians will now look more to the West for a place in the common European home or to the East for a new Eurasian identity

Eventually, you will definitely discover a other experience and exploit by spending more cash. yet when? pull off you agree to that you require to acquire those all needs subsequent to having significantly cash? Why dont you try to get something basic in the beginning? Thats something that will lead you to comprehend even more a propos the globe, experience, some places, in imitation of history, amusement, and a lot more?

It is your utterly own era to sham reviewing habit. in the midst of guides you could enjoy now is **Russia Transformed Breakthrough To Hope August 1991** below.
