The Fate of Mood and

Modality in Language Death Petar Kehayov, 2017-07-24 Research into the grammar of language death is often biased toward formal processes e.g. paradigmatic levelling In this study the author changes the perspective and shows that the relative susceptibility of linguistic elements to loss change and innovation in language death circumstances can be dependent on meaning and thus organized along semantic notions rather than along structure **The Development of the Bulgarian**

Literary Language Ivan N. Petrov, 2021-03-19 Ivan N Petrov's The Development of the Bulgarian Literary Language From

Incunabula to First Grammars Late Fifteenth Early Seventeenth Century examines the history of the first printed Cyrillic

books and their role in the development of the Bulgarian literary language In the literary culture of the Southern Slavs

especially the Bulgarians the period that began at the end of the fifteenth century and covered the sixteenth and seventeenth centuries is often seen as a foreshadowing of the pre-national era of modern times In particular the centuries-old manuscript

tradition was gradually replaced by the Cyrillic printed book which after the incunabula of Krakow and Montenegro was

published in such centers as T rgovi te Prague Venice Serbian monasteries Vilnius Moscow Zablud w Lviv Ostroh and many

others Petrov shows how the study of old Slavic prints is closely linked to the processes that determined the emergence of

modern literary languages in the Slavia Orthodoxa area including the influence of the liturgical Church Slavonic language

shared by the Orthodox Slavs which was increasingly standardized and codified at that time The perspective of a language

historian brings new light to the complex and multidimensional issues of this important transitional period of Slavic history

and culture **Diachronic Slavonic Syntax** Björn Hansen, Jasmina Grković-Major, Barbara Sonnenhauser, 2018-03-05 The

book is dedicated to the study of the causes and mechanisms of syntactic change in Slavonic languages including internally

motivated syntactic change syntactic change under contact conditions structural convergence pattern replication shift

induced transfer etc It also explores metalinguistic factors such as ideologically driven selection and propagation of syntactic

structures Learning to Read across Languages and Writing Systems Ludo Verhoeven, Charles Perfetti, 2017-10-12 Around the world children embark on learning to read in their home language or writing system But does their specific language and how it is written make a difference to how they learn How is learning to read English similar to or different from learning in other languages Is reading alphabetic writing a different challenge from reading syllabic or logographic writing Learning to Read across Languages and Writing Systems examines these questions across seventeen languages representing the world's different major writing systems Each chapter highlights the key features of a specific language exploring research on learning to read spell and comprehend it and on implications for education The editors introduction describes the global spread of reading and provides a theoretical framework including operating principles for learning to read The editors final chapter draws conclusions about cross linguistic universal trends and the challenges posed by specific languages and writing systems **Issues in Cognitive Linguistics** Leon de Stadler, Christoph Eyrich, 2011-04-20 No detailed description available for Issues in Cognitive Linguistics *Glasgow University Calendar* University of Glasgow, 1922 **The Glasgow University Calendar** University of Glasgow, 1927 **Semitic and Indo-European** Saul Levin, 2002-01-01 This is a sequel to the author's *Semitic and Indo-European The Principal Etymologies* 1995 That volume provided the key examples of morphological correspondences between the Semitic and the Indo-European languages In this sequel the author analyzes correspondences of structure either within a certain group of languages or belonging to a distantly related group by looking at inflectional morphology case grammar and phonology Thus are uncovered the prehistoric means of oral communication linking the forerunners of ancient societies in Asia Africa and Europe as they talked about livestock or revealed some inner sentiment
